

Math Constructed Response R.A.P.P.

Restate the question

Change the question to a statement to begin your short answer response.

Answer the question

Determine your answer and be sure that it is clearly labeled. Did you remember to include in your answer the necessary units?

Prove it by explaining

Attend to precision. Solve your problem a different way to help prove and check your work. Use your math vocabulary in your explanation.

Proofread and edit

Does my answer make sense?

Is my answer reasonable?

Is my work accurate?
