Aim Center

2016-2017 Campus Improvement Plan

Accountability Rating: Met Standard

Mission Statement

The AIM Center Campus is dedicated to preparing all students through the shared responsibility of teacher, students, parents, and community to live successfully in today's society.

Vision

It is the desire of the AIM Center to provide a structured, disciplined, safe, and caring environment that will allow students the opportunity and guidance to acquire the skills and knowledge to make better decisions in regards to their behavior and to demonstrate a strong work ethic that will allow them to be successful in their academic endeavors.

Value Statement

With a consistent approach to the rules and daily operations, students will be able to learn self-discipline and experience academic success from a staff who is committed to a career that is centered around the needs of the students.

Comprehensive Needs Assessment

Student Achievement

Student Achievement Summary

Our students have either been identified as being At Risk for various reasons or have demonstrated difficulty in complying with the expected behavior as defined in the District Student Code of Conduct. REACH students are At Risk of not graduating under the traditional high school program. The DAEP students have violated the District/Home Campus Code of Conduct and must be placed on our campus in an effort to learn how to make better behavior choices in order to be successful in the community.

Student Achievement Strengths

The students in the REACH program are self-motivated to complete their high school curriculum. They are able to work independently with the teachers providing guidance and directives when needed.

The DAEP students are able to adapt to the more structured environment which limits their ability to socialize as much as they would normally do on their home campus. During their individual placements, these students learn to better control their emotions and maintain their academic responsibilities.

Student Achievement Needs

REACH students must meet the same basic requirements as those students in the traditional high school setting, but without the same level of interaction with other students and teachers. These students need more one-on-one assistance in mastering the TAKS Exit Tests, STAAR End of Course exams, and the concepts in the higher levels of math and science.

The DAEP students need to acquire more self-control and the social skills necessary to be productive in today's society. The staff at the AIM Center hopes to provide not only the academic guidance to these students, but to also provide opportunities and guidance in acquiring the ability to make better decisions in their behavior.

All students need access to computer technology in order to receive practice on state assessment programs available through the internet as well as being able to complete specific assignments. The quality and number of computers available to students will continue to grow as the number of students increases and

the changes in software are continually updated.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

Having a staff of Highly Qualified teachers and support personnel is the goal of the AIM Center through hiring practices and training. State law has long required teachers to be degreed and certified in the area(s) to which they are assigned. Federal law as promulgated in Public Law 107-110, No Child Left Behind Act of 2001, reemphasized this state requirement. According to law, all teachers in states and/or school districts accepting Title I, Part A funds must be "highly qualified" to teach in the area(s) to which they are assigned.

Staff Quality, Recruitment, and Retention Strengths

Staff Strengths:

The teaching staff at the AIM Center is dedicated to the special needs of our At Risk students. They have a great deal of patience as well as knowledge to nurture not only the academic needs of these students, but also the emotional support needed.

Staff Quality, Recruitment, and Retention Needs

Continued workshops in the specific areas taught will allow the REACH and DAEP staff to remain current on changes in the curriculum required from the state and exit level exams (TAKS/STAAR/EOCs).

Family and Community Involvement

Family and Community Involvement Summary

Parent Involvement

The success of our students greatly depends on the support of their parents. Parent contact and one-on-one conferences will be implemented. Communication is also encouraged through phone contact and e-mail.

School Context and Organization

School Context and Organization Summary

Facilities

The REACH area is well designed for the students attending. With the addition and update of student computers and monitors, the REACH and DAEP classrooms are now equipped with an appropriate number of computer stations to facilitate the curriculum and the number of students that could possibly be involved with either program.

The AIM Center needs the camera surveillance system enlarged and updated.

School Context and Organization Strengths

The AIM Center houses two programs, REACH and DAEP, which are designed to give students an opportunity to improve their behavior and their academic progress towards graduation by being in smaller classes with a lower teacher-student ratio, and with a high degree of accountability and expectation for proper behavior, attendance, effort, and achievement.

School Context and Organization Needs

The AIM Center needs all computers to be current with the latest software so that students are able to complete various assignments from their home campus. Additional cameras need to be added to the security system so that all interior and exterior areas are monitored by video surveillance.
