

San Saba Independent School District

808 W. Wallace * San Saba, Texas 76877

September 22, 2017

San Saba ISD Parents:

San Saba ISD strives to provide a safe environment for our students under every circumstance. The administration at San Saba High School recently became aware that some of our student-athletes have possibly developed a Staph Infection. There has been no confirmation that the infection was contracted at San Saba ISD but we are in the process of sanitizing our facilities and equipment several times a day with disinfectant designed to eliminate these infections. The areas of the school that may be affected have been and will continue to be sanitized and disinfected. Please be assured that the necessary steps have been taken to prevent further transmissions of the infections.

For more information on staphylococcus infection please follow this link

<https://www.cdc.gov/mrsa/index.html>

If you have any questions please do not hesitate to call or email me.

Michael Bohensky, Ed. D.
