

2017

**PRESIDENTIAL INAUGURATION
LEADERSHIP SUMMIT**
ENVISION IMPACT SERIES
JANUARY 18 - 22, 2017 | Washington, DC

Adeline Mishler
510 Edgehill Drive
Johnstown, PA
(814)254-6030

Hello. I am Adeline Mishler, a senior at Bishop McCort Catholic High School. In the coming days, I have the exciting opportunity to attend the Presidential Inauguration Leadership Summit in Washington, D.C. I would like to share some special news about my experience. Following a video submission contest, I was chosen to introduce the event's Keynote Speakers Malala and Ziauddin Yousafzai. Malala was shot in 2012 for her fearless leadership in educational rights for women in Pakistan; following her miraculous survival and continued activism, she was awarded the Nobel Peace Prize in 2014 and became the youngest recipient in history.

I will be introducing the Keynote Address to over 2,500 high school scholars from across the country and thirty different countries. I am overwhelmed with excitement that a high schooler from Johnstown, PA gets the opportunity to meet with and introduce two of the most inspirational leaders and activists of our time. In addition, I will be working in the *Pathways to Power: Women and Global Leadership* Delegations for Change simulation where I will collaborate with peers to build solutions in our society. I have included a resume to highlight some of my involvements in our Johnstown community and at my high school. I am thrilled for this unique opportunity to represent my city amidst these upcoming historic moments in history and my life.

Please contact me; I would enjoy sharing more about the upcoming week.

LOCAL YOUNG LEADER READIES FOR HISTORIC INAUGURATION
Presidential Inauguration Leadership Summit Inspires Tomorrow's Leaders

WASHINGTON, D.C. – In January 2017, outstanding students from across the United States will gather in the nation's capital for the **Presidential Inauguration Leadership Summit**. During this five-day program, which takes place amid the excitement of the Inauguration of the President of the United States, Summit Scholars will gain a deeper understanding of the history behind the electoral process and the rich traditions surrounding the Presidential Inauguration.

“The Presidential Inauguration Leadership Summit will provide students with an opportunity to take part in historic events that coincide with the Inauguration of the President of the United States,” said Andrew Potter, the Chief Academic Officer for Envision and the Presidential Inauguration Leadership Summit. “Something that is really wonderful about so many young people gathering in Washington, D.C. for this event is that it will provide them a chance to become more familiar with and attuned to the president who will govern our country over the next four years. We certainly hope this will inspire the next generation of U.S. leaders.”

Summit Scholars will be inspired to become change agents while hearing from an unparalleled slate of speakers, including Malala Yousafzai, General Colin Powell, Spike Lee, Abby Wambach, Carly Fiorina, Governor Martin O'Malley, and more. They will also have a chance to put that inspiration into practice while participating in a Delegations for Change, a simulation where Summit Scholars will work together to create workable solutions to the challenges that their generation and the new administration will face. To further commemorate Inauguration Day, Summit Scholars will attend the exclusive Envision Inaugural Gala, held at a Smithsonian Institution museum.

In addition to participating in inaugural events and festivities, scholars will have the opportunity to explore the numerous historic sites and memorials in our nation's capital, as well as participate in activities designed to expand their knowledge of democratic principles and the presidential election process.
