

Parent Involvement Policy

Aspermont Secondary School

Statement of Purpose:

Aspermont Secondary School is dedicated to providing quality education for all students. To accomplish this objective and to meet Title I requirements, we will develop and maintain a working relationship with parents in our community. We believe that a positive link between home and school will create a productive learning environment for our students.

Staff/Parent Communication:

Parents will be active participants in their children's learning process through various avenues of communication throughout the school year.

Conferences, e-mail, personal and public contacts and written notices will be utilized to establish and maintain an open form of communication between parents and educators. The on-line grading system is another tool that can be utilized to maintain communication between parents and teachers regarding the status of a student progress in mastering grade level objectives. There are many booster clubs and volunteer opportunities that parents may become involved in as well.

Evaluation:

In April of each year a parent survey and the Parent Involvement Policy will be sent to the parents of each secondary student. When those are returned, the Secondary Site Based Committee will meet to discuss changes that may need to be made.
