

Attributes of Learning in Students

These are wonderful attributes, qualities and characteristics and not all of them describe behaviors. They are values or thoughts or feelings inside the heads or hearts of students. To ascertain what behaviors would manifest as a result of these, they need to be broken down through questioning. Behaviors are visible actions. They can be seen, videotaped---noticeable.

Accountability ❖ Responsibility ❖ Real Life Connection	Student Best Practices
<ul style="list-style-type: none"> • Setting Goals • Taking Risks • Making wise choices and decisions • Solving problems • Making connections relating to real life • Thinking critically, solving problems • Probing, clarifying, questioning • Analyzing errors, correcting self • Practicing good citizenship • Persisting • Taking initiative • Exerting effort, practicing • Extending Thinking 	<ul style="list-style-type: none"> • Posing good questions • Reading, writing across content • Reasoning verbally • Using technology • Questioning/inquiring • Performing • Singing, drawing, acting, writing • Completing tasks in multiple ways • Multitasking • Journaling • Creating rubrics • Writing creatively
