Test List ARTICULATION

Select Test	Date Taken	Subject	Type	Level	Form	Score	Pass	For Articulation?	Section
ARTICULATION/POST/HEALTH							<input type="checkbox"/>	<input type="checkbox"/>	

The teacher must select the test from the drop-down list. Only those tests that relate to the current section are shown in the drop-down. (Usually, there would be just one in the drop-down.) If there is just one possible test, then it will auto-fill for you. As stated above, we recommend that you setup as few number of tests as possible, in order to simplify data entry on this screen.

The system will auto-fill all fields in green (read-only fields) once the teacher

After selecting the test, the teacher then enters the test score, date and whether or not the students passed the test. The Pass/Fail flag is actually optional as it relates to articulation, because we only use the test score to determine whether or not the student met articulation requirements.
