Has your school implemented the following components of the district’s local wellness policy?

* Nutrition education and promotion activities
* Physical activity opportunities
* Nutrition standards for all foods and beverages available on each school campus during the school day that meet or exceed the USDA's requirements for school meals and competitive foods and beverages
* Marketing and advertising of only those foods and beverages that meet the USDA Smart Snacks in School nutrition standards on school campus.
* Other school-based activities that promote student wellness
* Permit parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the general public to participate in the development, implementation, and management of school wellness policies.

Yes, our school has implemented all of these components.

Are indoor and outdoor physical activity facilities open to students, their families, and the community outside school hours?

Making facilities open and available to students, their families, and the community outside of school hours can be conducted as a regular practice or through a formal, written joint or shared use agreement. A joint use or shared use agreement is a formal agreement between a school or school district and another public or private entity to jointly use either school facilities or community facilities to share costs and responsibilities.

Yes, both indoor and outdoor facilities are available.
Do fundraising efforts during and outside school hours sell only non-food items or only foods and beverages that meet or exceed the USDA's Smart Snacks in School nutrition standards? This may include, but is not limited to, donation nights; cookie dough, candy and pizza sales; market days; etc.

Some fundraising efforts sell only non-food items, or some foods and beverages sold as fundraisers meet or exceed the USDA’s Smart Snacks in School nutrition standards.
Does your school or district have written health and safety policies that include the following components?

* Rationale for developing and implementing the policy
* Population for which the policy applies (e.g., students, staff, visitors)
* Where the policy applies (e.g., on or off school property)
* When the policy applies
* Programs supported by the policy
* Designation of person(s) responsible (e.g., school administrator(s), teachers) for implementing the policy
* Designation of person(s) responsible (e.g., school administrator(s), teachers) for enforcing the policy
* Communication procedures (e.g., through staff meetings, professional development, website, staff handbook) of the policy
* Procedures for addressing policy infractions

All of our health and safety policies include all of these components.
Does your school communicate its school or district health and safety policies in all of the following ways?

* Signs (e.g., tobacco-free, weapon-free)
* Staff member orientation
* Staff meetings
* Student orientation
* Student handbook
* Staff handbook or listserv
* Employee contracts
* Parent handbook, newsletters, or listserv
* Policies included in contracts with outside vendors and organizations that use school facilities

Communicate health and safety policies to students, parents, staff, members, and visitors.

In most of these ways.
Does your school foster a positive psychosocial school climate using all of the following practices?

* Communicate clear expectations for learning and behavior to students, and share those expectations with families to encourage them to reinforce them at home
* Foster pro-social behavior by engaging students in activities such as peer tutoring, classroom chores, service learning, and teacher assistance
* Foster an appreciation of student and family diversity and respect for all families' cultural beliefs and practices
* Hold school-wide activities that give students opportunities to learn about diverse cultures and experiences
* Use instructional materials that reflect the diversity of your student body
* Challenge staff members to greet each student by name

Yes, our school fosters a positive psychosocial school climate by using all 3 of these practices.
Does your school offer, to all students who need them, a variety of services designed to help students overcome barriers to learning?

3 Yes.
School Health and Safety Policies

Does your school provide a broad variety of student enrichment experiences that are accessible to all students? 3 Yes.
Does your school implement a standard precautions policy that includes all of the following components?

* Providing and requiring the use of latex or poly gloves and eye wear when exposed to blood and body fluids
* Providing a hard-sided container for contaminated needles/sharps in offices where syringes may be used
* Appropriate disinfecting of surface areas and clean-up materials after exposure to blood and body fluid
* Instructions for appropriate disposal of contaminated materials (e.g., dressings, clothing, tissue/towels)
* Procedures and follow-up for staff members who are exposed to blood

Yes, our school implements a standard precautions policy that includes all five of these components.
### Professional Development on Meeting Diverse Needs of Students

in each of the following ways, that prevents harassment and bullying?

* Staff members, students and parents are informed through a variety of mechanisms of policies defining harassment and bullying and explaining the consequences of such behaviors
* Disciplinary policies are fairly and consistently implemented among all student groups
* Staff members and students treat each other with respect and courtesy
* Fair play and nonviolence is emphasized on the playground, on the school bus, and at school events
* Students are encouraged to report harassment or bullying, including through anonymous reporting methods
* Support is provided for victims of harassment or bullying

3 Yes, in each of these five ways.
Do staff members actively supervise students, in each of the following ways, everywhere on campus (e.g., classroom, lunchroom, playground, locker room, hallways, bathroom, and school bus)?

* Observing students and being available to talk to students before, during, and after school
* Anticipating and effectively responding to unsafe situations
* Discouraging pushing and bullying
* Promoting prosocial behaviors, such as cooperation, conflict resolution, and helping others

3 Yes, in each of these four ways.
School Health and Safety Policies

Does your school have a written crisis response plan that includes preparedness, response, and recovery elements? Is the plan practiced regularly and updated as necessary?

Yes, our school has a written crisis response plan that includes preparedness, response, and recovery efforts, and it is practiced and updated regularly.
Are your physical activity facilities adequate in all of the following ways?

* Both indoor and outdoor spaces can be used by physical education classes, intramural programs or physical activity clubs, and interscholastic sports programs
* Indoor facilities exist so that physical education classes do not have to be canceled due to weather extremes (e.g., rain or temperatures extremes)
* In physical education classes, all students can be physically active without overcrowding or safety risks
* Facilities are accessible for persons with disabilities
* For physical activity clubs and interscholastic sports, all interested students can sign up and participate without overcrowding or safety risks

Adequate physical activity facilities

School Health and Safety Policies and Environment

126 facilities

3 Yes, in all five of these ways.
b) Food and beverage advertising and promotion (e.g., contests or coupons) on school property to foods and beverages that meet or exceed the USDA’s Smart Snacks in School nutrition standards?

This may include, but is not limited to, marketing and branding in cafeterias, hallways, common spaces, classrooms, staff lounges or school stores; and on snack or food carts, vending machine exteriors, display racks, food or beverage cups or containers, coolers, athletic equipment and sports bags. Examples may include, but are not limited to, in-school media, signs, posters and stickers.

School Health and Safety Policies and Environment

Nutrition Standards for Foods

https://schools.healthiergeneration.org/{{internal_page_link_5216}}/Nutrition Standards for Beverages

Yes, only foods and beverages that meet or exceed the USDA’s Smart Snacks in School nutrition standards are advertised or promoted, or no foods and beverages are advertised or promoted on school property.

Does your health education curriculum address all of these topics on physical activity?

* The physical, psychological, or social benefits of physical activity
* How physical activity can contribute to a healthy weight
* How physical activity can contribute to the academic learning process
* How an inactive lifestyle contributes to chronic disease
* Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
* Differences between physical activity, exercise, and fitness
* Phases of an exercise session, that is, warm up, workout, and cool down
* Overcoming barriers to physical activity
* Decreasing sedentary activities, such as TV watching
* Opportunities for physical activity in

| Health Education 203 activity | 3 Yes, addresses all of these topics. |
Does your health education curriculum address all of these essential topics on healthy eating?

* The relationship between healthy eating and personal health and disease prevention
* Food guidance from MyPlate http://www.choosemyplate.gov/
  * Reading and using food labels
  * Eating a variety of foods every day
  * Balancing food intake and physical activity
  * Eating more fruits, vegetables and whole grain products
  * Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain transfat
  * Choosing foods and beverages with little added sugars
  * Eating more calcium-rich foods
  * Preparing healthy meals and snacks
  * Risks of unhealthy weight control practices
  * Accepting body size differences
  * Food safety

3 Yes, addresses all of these topics.
None do, or the curriculum is not sequential, or there is no health education curriculum.

Do all teachers of health education participate at least once a year in professional development in health education?

None do, or no one teaches health education.
Do all teachers of health education use active learning strategies and activities that students find enjoyable and personally relevant? None do, or no one teaches health education.
Culturally appropriate activities and examples that reflect the community's cultural diversity? None do, or no one teaches health education.
Assignments encourage student interaction with family and community organizations. Do all teachers of health education use assignments or projects that encourage students to have interactions with family members and community organizations? None do, or no one teaches health education.
Have all teachers of health education received professional development in delivery of the school's health and safety curriculum in the past two years? 0 None have.
Have all teachers received professional development in classroom management techniques in the past two years?

3 Yes, all have.
Do all students in each grade receive physical education for at least 150 minutes per week throughout the school year?

Physical education classes should be spread over at least three days per week, with daily physical education preferable. 3 Yes.
Do all teachers of physical education use an age-appropriate, sequential physical education curriculum that is consistent with national or state standards for physical education (see national standards below)?

Consider using CDC’s Physical Education Curriculum Analysis Tool (PECAT), http://www.cdc.gov/healthyyouth/PECAT/, which is designed to help school districts and schools conduct a clear, complete, and consistent analysis of written physical education curriculum. PECAT results can help districts and schools enhance, develop, or select appropriate and effective physical education curricula for delivering high-quality physical education in schools. The PECAT assesses how consistent curricula are with national standards and can assist users in determining if the curriculum being analyzed is sequential.

3 Yes.
Does the physical education program integrate the components of the Presidential Youth Fitness Program?

* Fitness assessment using Fitnessgram
* Professional development for physical education teachers on proper use and integration of fitness education, fitness assessment, and recognition.
* Recognition of students meeting Healthy Fitness Zones or their physical activity goals.

Yes, all 3 components of the PYFP are integrated.
Does the physical education program use three or more methods to promote student participation in a variety of community physical activity options?

- Class discussions
- Bulletin boards
- Public address announcements
- Guest speakers who promote community programs
- Take-home flyers
- Homework assignments
- Newsletter articles

3 Yes, through three or more methods.
Does the physical education program consistently use all or most of the following practices as appropriate to include students with special health care needs?

* Encouraging active participation; modifying type, intensity, and length of activity if indicated in Individualized Education Plans, asthma action plans, or 504 plans
* Offering adapted physical education classes
* Using modified equipment and facilities
* Ensuring that students with chronic health conditions are fully participating in physical activity as appropriate and when able
* Monitoring signs and symptoms of chronic health conditions
* Encouraging students to carry and self-administer their medications (including pre-medicating and/or responding to asthma symptoms) in the gym and on playing fields; assisting students who do not self-carry

Yes, the physical education program uses all or most of these instructional practices consistently.
walking and bicycling to school in the following ways?

* Designation of safe or preferred routes to school
* Promotional activities such as participation in International Walk to School Week, National Walk and Bike to School Week
* Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
* Instruction on walking/bicycling safety provided to students
* Promotion of safe routes program to students, staff and parents via newsletters, websites, local newspaper
* Crossing guards are used
* Crosswalks exist on streets leading to schools
* Walking school buses are used
* Bicycle parking is provided (e.g., bicycle rack)
* Documentation of number of children walking and or biking to and from school

Our school promotes or supports walking and bicycling to school in one to two of these ways.

Breakfast and lunch programs
Does your school offer school meals (breakfast and lunch) programs that are fully accessible to all students? 3 Yes.
Variety of foods in school meals

Do school meals include a variety of foods that meet the following criteria?

LUNCH

* Go beyond the National School Lunch Program requirements to offer one additional serving per week from any of the 3 vegetable subgroups (dark green, red and orange, dry beans and peas)
* Offer a different fruit every day of the week during lunch (100% fruit juice can be counted as a fruit only once per week)
* Offer fresh fruit at least 1 day per week
* Offer foods that address the cultural practices of the student population
* Offer an alternative entrée option at least one time per week that is legume based, reduced fat dairy or fish based (including tuna)
* Offer at least 3 different types of whole grain-rich food items each week

Variety of foods in school meals: 402 meals per week

Yes, meets six to eight of these criteria for variety.
Are healthy food and beverage choices promoted through the following techniques?

* Whole fruit options are displayed in attractive bowls or baskets (instead of chaffing dishes or hotel pans)
* Sliced or cut fruit is available daily
* Daily fruit options are displayed in a location in the line of sight and reach of students
* All available vegetable options have been given creative or descriptive names
* Daily vegetable options are bundled into all grab and go meals available to students
* All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal
* White milk is placed in front of other beverages in all coolers
* Alternative entrée options (salad bar, yogurt parfaits, etc.) are bundled into all grab and go meals

Yes, healthy food and beverage choices are promoted through ten or more of these techniques.
Do all school nutrition program managers and staff meet or exceed the annual continuing education/training hours required by the USDA's Professional Standards requirements?

Topics covered may include, but are not limited to, food safety and HACCP, nutrition standards updates in school meals, food sensitivities and allergies, customer service or food production techniques.

Yes, all food and nutrition services staff meet or exceed the annual continuing education/training hours required by the USDA's Professional Standards requirements.

Nutrition Services 404 staff food production techniques. 3 requirements.
Do most venues outside the cafeteria (e.g., vending machines, school stores, canteens, snack bars, or snack or food carts) where food is available offer fruits and non-fried vegetables?

Note: If the school does not have any food venues outside the cafeteria (e.g., vending machines, school stores, canteens, snack bars, or snack or food carts), answer "Yes".

Venues outside the cafeteria offer fruits and vegetables?

Nutrition Services

Yes, most or all venues outside the cafeteria do.
Do nutrition services staff members use three or more of the following methods to collaborate with teachers to reinforce nutrition education lessons taught in the classroom?

- Participate in design and implementation of nutrition education programs
- Display educational and informational materials that reinforce classroom lessons
- Provide food for use in classroom nutrition education lessons
- Provide ideas for classroom nutrition education lessons
- Teach lessons or give presentations to students
- Provide cafeteria tours for classes

Collaboration between nutrition services staff and members

406 teachers

3 Yes, use three or more methods.
<table>

Is your school implementing any Farm to School activities?

* Local and/or regional products are incorporated into the school meal program
* Messages about agriculture and nutrition are reinforced throughout the learning environment
* School hosts a school garden
* School hosts field trips to local farms
* School utilizes promotions or special events, such as tastings, that highlight the local/regional products

Our school is implementing two to three 2 of these activities.
Does the school food service consistently follow practices that ensure healthier foods are purchased and prepared for service?

* Spoon solid fat from chilled meat and poultry broth before use
* Use specifications requiring lower sodium content in prepared foods such as hamburgers, pizza, chicken nuggets, etc.; and canned products such as vegetables, sauces, etc.
* Use specifications requiring lower added sugar content in prepared foods such as whole grain cold cereals or cereal bars (e.g., candy or yogurt coated); breakfast items such as pancakes or waffles (e.g., infused with syrup); and canned products such as fruit (e.g., packed heavy syrup).
* Roast, bake or broil meat rather than fry it
* Prepare vegetables by steaming or baking
* Prepare vegetables using little or no fat

2 Follows eight to nine of these practices.
with a clean, safe, and pleasant cafeteria, according to the following criteria?

* Physical structure (e.g., walls, floor covering) does not need repairs
* Tables and chairs are not damaged and are of appropriate size for all students
* Seating is not overcrowded (i.e., never more than 100% of capacity)
* Rules for safe behavior (e.g., no running, no throwing food or utensils) are enforced
* Tables and floors are cleaned between lunch periods or shifts
* Age-appropriate decorations are used
* Appropriate practices are used to prevent excessive noise levels (e.g., no whistles)
* Smells are pleasant and not offensive
* Appropriate eating devices are available when needed for students with special health care needs

| Nutrition Services 410 cafeteria | Yes, cafeteria meets all nine of these 3 criteria. |
Are school nutrition service staff members and cafeteria monitors (e.g., teachers, aides) trained to respond quickly and effectively to the following types of food emergencies?

* Choking
* Natural disasters (e.g., electrical outages affecting refrigeration)
* Medical emergencies (e.g., severe food allergy reactions, diabetic reactions)
* Attempts to introduce biological or other hazards into the food supply
* Situations that require students or others to shelter in the school

Yes, trained for all five types of emergencies.
Does your school have a full-time, registered school nurse responsible for health services all day, every day? Are an adequate number of full-time school nurses provided, based on the recommended ratio of at least one nurse for every 750 students? More nurses are recommended if students have extensive nursing needs. We have a school nurse present all day every day, but fewer than one for every 2,750 students.
Does the school nurse or other health services provider promote the health and safety of students and their families, through classroom activities and otherwise, on each of these topics?

* Promoting physical activity
* Promoting healthy eating
* Preventing tobacco use
* Quitting tobacco use
* Preventing unintentional injuries
* Preventing violence and suicide
* Managing asthma
* Preventing HIV, other STD, and unintended pregnancy

Addresses four to seven of these topics.
Does the school nurse or other health services provider collaborate with other school staff members to promote student health and safety in at least six of the following ways?

* Developing plans to address student health problems (e.g., individual health care plans, individual education plans, 504 plans, school team plans)
* Providing professional development
* Developing policy
* Identifying, revising or developing curricula or units/lessons
* Developing and implementing school-wide and classroom activities
* Establishing communication systems with other school staff

Collaborate with other school staff

Health Services 503 members

There is collaboration in three to five of 2 these ways.
Identify
and track
students
with chronic health conditions
Does the school nurse or other health services provider have a system for identifying and tracking students with chronic health conditions?

Yes, there is a system to identify and track students with chronic health conditions.

Health Services 504 conditions with chronic health conditions? 3 conditions.
Health Services

Does your school implement a systematic approach (including the following components) for referring students, as needed, to appropriate school- or community-based health services?

* Contact parents of students identified as potentially needing additional health services and recommend that the students be evaluated by their primary health care provider or specialist.
* Contact parents of students without a primary health care provider and give information about child health insurance programs and primary care providers.
* Referral information is distributed widely (e.g., through flyers, brochures, website, student handbook, health education class) so that students, staff, and families can learn about school and community services without having to contact school staff.
Does your school have a system for collecting student health information prior to school entry and every year thereafter? Is all pertinent information communicated in writing to all appropriate staff members?
Consulting  Does your school have access to and work with a consulting school
Health  health  health physician who assists with
Services  507  physician  your school health programs?
Does your school have a plan to address food allergy management and prevention (e.g., Food Allergy Management and Prevention Plan) which includes the following priorities needed to manage food allergies in the school setting?

* Ensure daily management of food allergies for individual children (e.g., identifying children with food allergies, a plan to manage and reduce risks of food allergy reactions)
* Prepare for food allergy emergencies (e.g., easy to use communication systems, easy access to epinephrine auto-injectors, plans for contacting emergency medical services, identification of staff roles in emergencies)
* Provide professional development on food allergies for staff (e.g., general training on food allergies for all staff, in-depth training for staff who have frequent contact with children with food allergies,
Does your school have access to a full-time counselor, social worker, and psychologist for providing counseling, psychological, and social services? Is an adequate number of these staff members provided based on the following recommended ratios?

* One counselor for every 250 students
* One social worker for every 400 students
* One psychologist for every 1,000 students
Does the counseling, psychological, or social services provider promote the emotional, behavioral, and mental health of and provide treatment to students and families in the following ways?

* 1-on-1 counseling/sessions
* Small group counseling/sessions
