

What Sets CECFC Apart

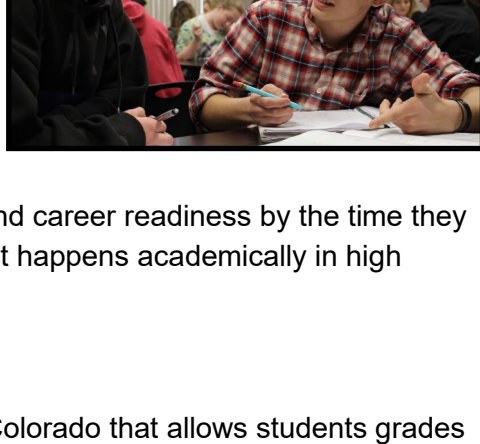

CECFC is unique in that our middle school and high school build on the common goal of preparing students for either college or a career when they graduate.

CECFC Middle School

Did you know that the level of academic achievement a student attains by eighth grade has a larger impact on their college and career readiness by the time they graduate from high school than anything that happens academically in high school? [Read more.](#)

CECFC High School

CECFC is the only high school in northern Colorado that allows students grades 9-12 to earn an associate degree and/or certification at no cost to families. We welcome all students regardless of academic placement and champion their future by helping them achieve mastery and demonstrating that they can succeed in school, in college, and in their chosen career. [Read more.](#)

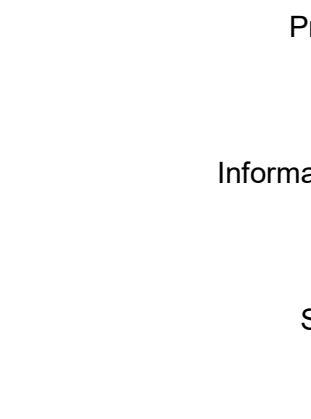

Attendance

Being absent from class can affect your student's classroom success and possibly affect their final grades.

Dress For Success

CECFC has an enforced dress code that is the foundation of our post-secondary and workforce readiness culture. Dress code is in effect year-round, including summer when school is not in session, or when students and parents/guardians are coming to advising appointments or school-supported activities. [Read the complete policy here.](#)
