

3 KEY IDEAS FOR PARENTS about the Common [CORE]

Thinking Deeply

The Common Core emphasizes critical thinking. It requires students to analyze more, discuss more, evaluate more, justify more and explain their thinking & understanding deeply, especially in writing. *Take-Away: Really thinking deeply is hard. Let it BE hard, help them talk it out.*

Integrating Learning

The Common Core emphasizes learning across disciplines (reading with math & social studies standards combined into one task). Students spend more time working together with different settings, structures & tools. *Take-Away: Problems & solutions happen everyday in the real world.*

Showing How They Know

The Common Core emphasizes proof & evidence. Long gone are the days of worksheets, fact memorizations and skill & drill. Students are not taught this way and they are not assessed this way. *Take-away: The new tests will require students to explain how they know.*

Supporting the Common Core at Home...

Ask *Why*?... Encourage questions & explore answers (especially answers that are not yes or no)... Explain & discuss issues in your house/community... Brainstorm solutions... Look for patterns... Describe & categorize stuff... Tell your children what you value & why... Encourage & celebrate opinions!
