## The Cutest Kids!

Our childcare workers are the luckiest ladies to get to hang out with these cuties everyday! We have at least 10 more enrolled from 0 - 4 years old. Leticia Hurtado and Marina Thompson do a great job guiding these little ones using many hands on learning activities we have in our childcare room. Thank you ladies for your dedication!

We are still getting new students in both our ESL and GED classes and look forward to watching their progress over the next few months! We have 22 ESL students and 27 GED students. Stay tuned for results!

A group of our students attended a class at the Heart Institute in Lufkin. Dr. Bachireddy had a class teaching what we should be doing to have a healthy heart. Diet and exercise were the two primary topics.

Students took a tour of T. L. L. Temple Memorial Library.
