ACKNOWLEDGMENT AND ASSUMPTION OF RISKS

Engaging in climbing activities at THE OC's indoor rock climbing facility involves serious risks. These activities vary but can include bouldering, climbing, belaying and rappelling on **THE OC's** artificial climbing walls, with or without THE OC staff present. I (and my parent(s), if I am a minor) acknowledge that participating in climbing activities involves risks. Some risks are inherent in these activities and cannot be eliminated or reduced. A variety of other risks also exist. **These inherent and other risks, hazards and dangers can cause injury, property damage, illness, mental or emotional trauma, paralysis, disability or death to participant or others. The following describes some, but not all of those risks, hazards and dangers:**

- 1.) **Risks involved in physical activity.** Activities vary, but can include lifting, climbing, rappelling, belaying and sustained use of a participant's arms and legs.
- 2.) **Risks in decision making.** Participants must make judgments and decisions as they participate in climbing activities. So, too, **THE OC's** staff must make judgments and decisions as they teach climbing skills or assist participants. These judgments and decisions are, by their nature, imprecise and subject to error. Consequently, there are risks involved in decision-making and conduct, including, without limitation, the risk that a staff member may misjudge a participant's abilities or fitness level.
- 3.) **Equipment failure or misuse. Equipment used includes, without limitation, artificial climbing holds and anchor points, ropes, slings, harnesses, climbing shoes and climbing hardware** which may be misused, or which can break, fail or malfunction. This includes participant's personal equipment or equipment rented or borrowed from **THE OC**.
- 4.) **Risks regarding conduct.** The potential that I, other participants or third parties (e.g. belayer, rescue squad, hospital) may act carelessly or recklessly or generally fail to exercise care.
- 5.) **Such other risks, hazards and dangers associated with rock climbing activities and the use of artificial rock climbing walls.**

These and other risks, hazards and dangers may result in participants (for example): 1) falling partway or falling to the ground, 2) getting entangled in ropes or other equipment, 3) impacting the rock face, anchor points, or other projections, 4) colliding with or impacting objects or people. These and other circumstances may cause fractures, sprains, broken bones, concussions, cuts or abrasions, or other injury or illness, mental or emotional trauma, paralysis, disability or death.
I understand that the above list is not complete and that other unknown or unanticipated risks, hazards and dangers may result in injury, damage, death or other loss. I acknowledge that participating in these activities requires a special degree of skill and
