

Vallivue School District #139

Vallivue School District recognizes the importance of providing positive, productive educational experiences through the district's Internet, computers/devices, and network services. To promote this objective and protect its staff and students, the board authorizes the superintendent or designee to:

1. Prohibit and prevent school computers and other school owned technology-related services from sending, receiving, viewing or downloading materials that are deemed to be harmful to minors, as defined by Idaho Code Section 18-1514.
2. Prohibit and prevent unauthorized online disclosure, use, or dissemination of personally identifiable information of students.
3. Select and employ technology protection measures on the district's computers to filter or block Internet access to obscene materials, materials harmful to minors, and materials that depict the sexual exploitation of a minor, or other information that is determined to be in violation of district policies.
4. Establish and enforce appropriate disciplinary measures to be taken against persons violating this policy.
5. Handle complaints regarding the enforcement of the district's Internet use policies and procedures.
6. Establish procedures to remove a user's files without prior notice after an account has been inactive for a specified period of time.

The district provides access to Internet, computers/devices, and network services. These services are filtered, monitored, and modified for public school educational use to assure the safety of students and to limit use to educational purposes related to the mission of the district. They may not always provide the same utility and resources as private or business systems.

PRIVACY

Use of the district's technology resources is a privilege and not a right. Access has not been established as a public access service or a public forum. The district reserves the right to monitor, inspect, copy, review, delete, and/or store at any time and without prior notice any and all results of usage of the Internet, computers/devices, network resources, and any and all information transmitted or received in connection with such usage. All such information will be and remains the property of the district and users have no expectation of privacy regarding such materials. The district has the right to place restrictions on the use of the district's Internet, computers/devices, and network resources and may also deny access to staff and students who violate related policies and procedures.

Employees must use district technology in a professional, legal, and responsible manner. Use of district technology for personal business must be kept to a minimum and must conform to district policies and procedures and state and federal laws and regulations.

When acting within the capacity of a district employee, communication from any location and using any type of equipment, owned by the district or otherwise, must reflect professional integrity and responsibility and not have an adverse effect on students or on the performance of an employee's duties for the district.

PROHIBITED USES

The district's Internet, computers/devices, and network resources may only be used for approved district activities and educational purposes. All users must fully comply with this policy and immediately report any violations or suspicious activities to the Information Technology (IT) staff, building principal or designee. Prohibited uses of district technology include, but are not limited to:

 - vi. Inappropriate political purposes.

CONSEQUENCES FOR INAPPROPRIATE USE

Failure to comply with this policy or inappropriate use of the district's Internet, computers, or network resources may result in usage restrictions, loss of access privileges, and/or disciplinary action up to and including termination. The superintendent or designee may also report the violation to law enforcement where appropriate.

Users are responsible for damages to the equipment, systems, and software resulting from deliberate or willful acts.

NOTICE

The district will inform staff, and other users about this policy through posting on the district website and by other appropriate methods. A copy of this policy will be available for review at the district office. The district will also file this policy with the state superintendent of public instruction every five years.

By accessing the district's Internet, computers and network resources, users acknowledge awareness of the provisions of this policy and awareness that the district uses monitoring systems to monitor and detect inappropriate use.

All staff are required to sign a technology user agreement that signifies their understanding and agreement to follow these regulations.

EMPLOYEE USE OF SOCIAL MEDIA

The Board of Trustees respects that school personnel are entitled to a private life. However, employees should be aware that comments posted on social media may have an adverse effect on employment status depending on the content. District employees are expected to be role models for students and conduct themselves within the legal and ethical boundaries of the Idaho Code of Ethics for Idaho Professional Educators and state and federal law (see Policy No. 490 Employee Use of Electronic Communication and Social Media).
