

ELITE ENGLISH INSTITUTE

PRESENTED BY:

OUR MISSION is to provide an intensive English language study experience for international students to prepare them for successful study in American high schools. Our aim is to increase language proficiency, empower academic skill-sets, and teach American culture while introducing our students to elite American universities.

THE ELITE ADVANTAGE: Our unique 3-week immersion program each August provides a solid foundation in the English language through cultural lessons and American school curriculum. Classes are delivered in a small group setting with abundant individual attention and support. Elite students also visit college campuses (such as Columbia, NYU, and Princeton) to inspire their dreams and motivate their work ethic.

IN ADDITION to rigorous academic English study, students enrolled in Elite will enjoy opportunities to connect with current international and domestic students, allowing them to practice their language skills among new friends and acclimate to American culture with others who are also experiencing it for the first time.

August 6-26, 2017

PROGRAM INCLUDES:*
