California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Dr. Esther Perez, Executive Director

Principal, Valiente College Preparatory Charter

About Our School

Dr. Perez joined the Valiente school community after 12 years of experience in education. She grew up in Central California and was the first in her family to graduate from a university as she received a Bachelor of Arts in Psychology from the University of California, San Diego. In 2004, she joined Teach For America, Los Angeles, where she taught multiple subjects in a special day class setting at Nimitz Middle School in Huntington Park. After obtaining a masters degree in Special Education from Loyola Marymount University (LMU), she became a Resource Specialist at Oscar de la Hoya ACHS in East Los Angeles. She has served as the Director of Students with Diverse Abilities (Special Education & EL students) for Bright Star Schools for approximately 4 years and then moved to higher education at LMU where she was the Director of Special Education Interns across the state of California for LMU's multiple campuses as well as the Associate Director of the LMU-TFA LA Partnership. Esther also holds a Masters degree in Educational Leadership & Policy Studies from California State University, Northridge, and completed a Doctorate in Educational Leadership & Social Justice at Loyola Marymount University. Dr. Perez has made it her mission to ensure that the students of Valiente, the city of South Gate, and its surrounding communities continue to have a school option with high expectations, valuing of culture and identity, as well as a place that truly develops children and families to love learning with goals towards college and beyond.

School Description and Mission Statement (School Year 2016-17)

The mission of Valiente College Preparatory Charter School is to educate students in grades four through eight to lead lives of scholarship and integrity.

Valiente College Preparatory's school design incorporates research-based best practices from existing high-performing, achievement gap-closing schools – including a school day which extends from 7:45 am to 4:10 pm; a curriculum emphasizing foundational academic skills in reading, writing, and mathematics; and a clear commitment to student discipline and character development. These practices animate Valiente College Preparatory's core belief that all children, regardless of race, home language, or socioeconomic status, can succeed when provided with extended prioritized learning time, a standards-based and vertically aligned curriculum within an expanded middle school program, and a focus on the character values that will build school and life success.

Valiente College Preparatory Charter School is a public charter school authorized by the Los Angeles County Office of Education.

School Facility Conditions and Planned Improvements

Two facility inspections were used to prepare this data: One completed by the Charter's Authorizer, LACOE, and one completed by the County Dept. of Health.

Overall, facilities were clean and well kept.

Facility could improve in adequacy in terms of, school takes place on a rented property from a local church. The rooms required updating to match code which was completed in Fall 2015. As of date, there are a few doors near the main office that need to be ADA upgraded. These scheduled repairs to improve safety, adequacy and compliance are scheduled for Summer 2016 to be in place prior to the start of the 16-17 School Year.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Types of Services Funded (Fiscal Year 2015-16)

VCP uses funds to provide Enrichment/Intervention teachers to supplement its core program. Students requiring additional language support will receive intensive small group language support provided during Targeted Intervention.

In addition VCP offers a longer school day and school year in order to allow students from all subgroups to access a broad course of study, including core and non-core content areas, which will require funding to program and enact. VCP will ensure that teachers are trained using programs such as Council in Schools, Think CERCA, ST Math, Reading Counts, Common Curriculum, various Novels in both English and Spanish, and other curriculum agreed upon by both teachers and leadership throughout the school year to meet students' needs.

Professional Development

Teachers have 2 weeks at the beginning of the school year for Professional Development and planning. Throughout the school year, there are 8 full days devoted to professional development. Each Wednesday, teachers and school staff meet for approximately 2 hours to conduct ongoing professional development. The Director of Curriculum and Instruction conducts weekly observations providing feedback to teachers (in class coaching as needed).

Student achievement is the basis of all PD.

Teachers are supported through grade level, department, individual coaching from two administrators, and also by being sent to professional developments if/as needed.
