Janet Chin commented on the successful opening of schools with a lot of creative things going on in the classroom. Her son received written note, "To the New Kid Sitting in My Desk," from a student the previous year. Ms. Chin thanked the Garvey Mustang Choir for their participation in the 9/11 Tribute held by the City of Rosemead.

Ms. Chin stated that Senator Ed Hernandez in partnership with Assemblymember Mike Eng, Congresswoman Judy Chu, El Monte Union High School, and the San Gabriel Dreamers are hosting a Deferred Action Workshop for Childhood Revivals on September 29, 2012. Students and parents can register online. The program is in need of volunteers. Ms. Chin asked that this information be sent to the principals.

Henry Lo welcomed everyone to the new school year, and stated he is looking forward to attending some of the Back to School Nights at Sanchez, Willard, and Rice. He indicated that he attended the SeaPerch program sponsored by the U.S. Naval Office of Research, and hopes that the District seeks to obtain funds from the grants totaling \$185 million dollars to encourage students from schools in the San Gabriel Valley to seek careers in science and enter into an area of study in the Naval Architecture and Engineer programs.

Bob Bruesch announced that on September 29, 2012, there will be an art fair held to raise funds for the Pioneer Cemetery being considered as a California State Historical Landmark. Everyone is invited to attend.

Tony Ramos stated he attended a parent meeting regarding 1:1 Laptops with parents excited to see their children get their laptops. Many questions and concerns were brought up by parents.

REPORTS AND INFORMATION ITEMS

- A. Tina Cunningham, Curriculum Coordinator, made a presentation on the District English Language Advisory Committee (DELAC) Annual Report for 2011-12. The DELAC includes 40 parent representatives from each school with the role of advising the District on programs and services for English learners. The Committee holds two-hour meetings almost monthly. During 2011-12, the Committee reviewed the Local Education Plan, the R-30 Annual Language Census along with implications and feedback to develop the Plan's content and procedures for English Learners Program Needs and Assessments. A District survey completed by parents of English Learners concluded that parents are well informed about the California English Language Development Test (CELDT) test and the results. Overall the parents are very satisfied with the English Learners Program. The program goals and objectives were reviewed. Ms. Cunningham thanked Board members on behalf of all English learner students and parents for their support to closing the achievement gap for English learners.
- B. Dr. Sandra Johnson gave the Administration Report on the Opening of School and reported that as of today, there are 5,101 students enrolled, 82 students above the projection of a loss of 161 students. The loss from last year was about 255 students. Dr. Johnson talked about all the preparation work done with some mowing still needing to be completed due to a problem with a lawn mower.

Dr. Mary Suzuki stated that about 20 teachers attended a 1-week GATE certification course. The District adopted the Ni Hao Chinese Language Curriculum. A total of 18 teachers attended Balanced Literacy training. The 7th-8th grade teachers updated pacing guides. All textbooks were issued except for one order of consumables that is projected to arrive in two weeks. Ms. Suzuki thanked the Technology staff for having 1,300 computers imaged with E-books. There were over 490 parents who attended the 1:1 Laptop meetings (four meetings were offered). The 1:1 laptop training on Google E-books was provided to 34 teachers. Dr. Suzuki stated that the Spanish curriculum was reviewed over the summer and the DELAC Committee is excited that the District is looking to adopt it. Additional training was provided for ELD teachers and common core standards. Meetings were held with several science teachers to create a differentiated GATE curriculum.

Genaro Alarcon talked about the staff that the District was able to bring back; eight classroom teachers (five elementary teachers and three intermediate teachers). Two of these are being approved tonight. One nurse was brought back, and nine EL Interventionists (six from the laid off list and three were former resource teachers). Spanish teacher Jose Luis Lozano was brought back to teach at Garvey and Temple Intermediate Schools. The Mandarin teacher will be Ken Teh to teach full time at Garvey and Temple

Intermediate Schools. Mr. Alarcon pointed out the new employees (certificated and classified) that the Board will be approving tonight.

Ron Murrey addressed the issues dealing with class sizes for K-3 programs and the different rates of revenue per students based on 20-1 or larger configurations. He stated that the State does not penalize districts as much as it did in the past, and that most districts are staying with larger class sizes in order to generate long-term savings. Dr. Johnson stated that we have five additional teachers funded out of reserves that were not budgeted, and that is the reason for the close examination of the class sizes. Bob Bruesch commented on wanting to have the information from Mr. Murrey in graph form.

Mr. Bruesch commented on how the California Standards Test (CST) will change drastically with the new Common Core Standards. Dr. Suzuki stated that the Academic Coaches have been working to ensure that every grade level will have a transitional plan for Mathematics Common Core. The County Office of Education is offering classes to teachers and the District is having presentations at collaborative meetings to compare the current standards and our next steps. The District is working with Mathematics teachers this year as English Language Arts was a major focus last year. Mr. Bruesch noted that the Common Core Standards are based on product and they are based on process. ~~process is product-oriented and is re-evaluating the views about success in the classroom.~~

- C. Dr. Mary Suzuki presented the 2011-12 Annual Achievement Report of the STAR Results. The report includes four critical components on the results, achievements, plan for continuous improvement, and modifications needed to the LEA Plan to increase and close the achievement gap.

Dr. Suzuki noted that as a District, the student scores increased academically by an Academic Performance Index (API) increased 18 points for a total of 46 points since 2008. Every school's API is above 800, and some schools had a significant increase between 25 and 45 points. Dr. Suzuki showed the grade increases by grade level for Language arts and Mathematics.

Dr. Suzuki addressed the Adequate Yearly Progress (AYP) scores for numerically significant groups that met their targets. Many of these groups made progress; however, we need to make larger gains to meet the target and/or to make safe harbor. Dr. Suzuki addressed the increases by grade level for English Language Arts and Mathematics.

Dr. Suzuki talked about the next steps of creating pacing guides for Mathematics and implementing the pacing guides for English Language Arts, 7th and 8th grades. Key areas in need of progress are being addressed, such as, high quality teaching in every classroom, monitoring of student progress based on data District-wide, and the school site professional development plans.

Bob Bruesch asked that these types of graphs be posted on the Web site. He asked about the numbers for Asian and Latino English learners. Ms. Suzuki explained that one student could be Latino and an English learner.

Henry Lo asked if the Board would be getting a follow-up report on how we are addressing key areas of study for those groups not making progress. Dr. Suzuki stated that the District School Leadership Team (DSLTL) will address where the support is needed. The teachers will be addressing this on an ongoing basis and through the benchmarks every trimester. Mr. Lo stressed the need to ensure that a list by grade level and information be given to the parents to ensure that they know how to interpret the data and how to read the various reports. He suggested that the parent presentations include graphs and easy to read reports from year to year and how the District always looks to improve every year.

John Yuen thanked the staff and the teachers for working hard with the students to improve their scores. Bob Bruesch expressed how pleased he is to see the writing scores and applauded the teachers.

- **Garvey Education Association (GEA)**

Michael Drange, president of GEA, thanked the Board for having 10 minutes to give his report at Board meetings. Mr. Drange stated that he is pleased to see the number of teachers that have been re-hired, but that it would have been better if not as many people had been given layoff notices. Mr. Drange spoke in support of passing the resolution in Item 17.A. He noted tonight's Board's approval of the contract for the new Chief Business Officer, Robert McEntire.

Mr. Drange indicated that next week is National Arts Education Week and that the arts education is very important to students; that the District has eliminated in the last couple of years many arts programs, such as the Visual Arts Program. Mr. Drange stated that in Garvey Intermediate School, the Music Department was cut by 40 percent. Mr. Drange thanked all the people that attended tonight's Board meeting. He stated that it's been said that he does not speak for the members, but that the members present today feel differently.

Mr. Drange indicated that the members do not feel that the District is going in the right direction under the leadership of Dr. Johnson.

- **California School Employees Association (CSEA):** None

REPORT FROM HEAD START REPRESENTATIVE

Dr. Sandra Johnson stated that Cabinet members met with a number of representatives from the L.A. County Office of Education. LACOE representatives were very pleased with the Head Start Program and the progress being made in terms of reducing the areas of non-compliance to a very few items. Dr. Johnson thanked Becky Lam and Stacy Stewart for their work related to the monitoring reports.

REPORTS FROM DISTRICT REPRESENTATIVES

HEARING OF PERSONS IN THE AUDIENCE

Ted Saulino addressed the Board regarding bus tokens given to needy parents and members of the community and how it is being administered. Mr. Saulino stated that the Board borrowed thousands of dollars from Proposition 39 (Measure Q), and he asked if the money was going to be paid back. He stated that the Bond Oversight Committee has not met to look over on how the bond money is being spent.

Ken Tang stated that if the schools in the District were doing so well, then what was the status of the teachers' contract? Mr. Tang stated that he understands that the Board does not believe that Michael Drange speaks for all GEA members, and he asked all the teachers to state, "Michael Drange speaks for me."

Greta Smith addressed the Board and stated that Michael Drange speaks for her.

Michael Kenny addressed the Board and stated that each of the five Board members were elected by this community, a representative democracy, and in the same way GEA members have elected its president to represent them.

Brinda Lee Chavez addressed the Board as a community member. She stated that she is thankful to be represented by a union as this is not a right to work state, such as Arizona. Ms. Lee Chavez asked about the

doors in the auditorium being locked just before the Board meeting began. She asked that doors be open 30 minutes before the meeting.

Sonya Namboun Terracina addressed the Board stating that Michael Drange speaks for her. She talked about classrooms impacted with 27 students. Mr. Namboun Terracina addressed Item No. D.1. (Purchase Order Report) and asked why the District was reimbursing John Yuen and Tony Ramos for the cost of cell phones, pagers, and beepers.

Christopher Wallace addressed the Board in support of the leadership from GEA throughout many years. He spoke in opposition of the renewal of Dr. Johnson's contract.

Dean Furnish addressed the Board in support of Michael Drange as GEA President. Mr. Furnish stated that he talks to a lot of teachers and knows that many of them will not come to Board meetings and speak about how the District is being run. He asked the Board for help on treating teachers with respect that they deserve.

Janet Miranda addressed the Board regarding the continued improvement and growth of student scores and about teachers no longer having collaboration time during early Wednesdays. She asked the Board to not take away collaboration time being used every week. Ms. Miranda asked the Board to not renew the Superintendent's contract.

Karen Bascetta addressed the Board regarding her invitation to be recognized by the Board as a retiree. She stated that she will not accept a certificate from the District's Board of Education nor the Superintendent.

Chuck Hurley addressed the Board regarding early Wednesday dismissal stating that it was extremely valuable to this District to have the Wednesday early dismissal; that this was part of the reasons that scores have been going up for the last seven years.

Larry Chang addressed the Board and stated that Michael Drange speaks for him. Mr. Chang recognized the District's Teacher of the Year, Dr. Fermina Raymundo. He stated that the District failed to give words of encouragement by not holding a District-wide orientation, instead meeting with each school individually.

Dr. Mary Suzuki spoke about the bus tokens and alternatives in the District. She indicated that the District issues approximately 50 tokens per month, and the department is looking at funding from Categorical money to be set aside specifically to help the needy and/or homeless families in the District. There have been some reports that some members in the community actually sell their tokens on the street. Dr. Suzuki stated that another alternative would be to take the program out of the District onto the City of Rosemead's Safety Office. However, the goal is not to take away the service that helps our students.

Janet Chin indicated that other County departments can also assist in providing tokens to those that need them.

Dr. Sandra Johnson addressed an earlier comment made regarding the Bond Oversight Committee. She indicated that communication took place with the president of the Bond Oversight Committee about holding a meeting after the final audit report was received. The Chair was not available but now is so a meeting can be held.

Ron Murrey addressed a comment regarding borrowing money from Measure Q. He stated that in the audit provided to us, the General Fund actually funded bond projects that were tied to the bonds that were sold. When the bond money was received, the District was able to transfer the money from the Bond fund to repay the for the Bond money that spent earlier. Dr. Johnson stressed that the District did not borrow money from Bond funds, it was exactly the opposite.

Bob Bruesch noted that the Board is obligated to help the families who have no means to serve themselves and the Board cannot neglect this need in our community and pretend that poverty does not exist. He asked for a Board agenda item to discuss the use of these tokens.

Bob Bruesch noted that the Board is obligated to help the families who have no means to serve themselves and the Board cannot neglect this need in our community and pretend that poverty does not exist. He asked for a Board agenda item to discuss the use of these tokens.

- D. Bob Bruesch moved, Tony Ramos seconded, to approve the recommendation to approve the submission of the 2012-13 Mandated Block Grant Letter of Intent.

Dr. Sandra Johnson explained that the District contracts with a company to help collect money for mandated costs for which the District has not been repaid. There is a new provision in the law that allows school districts the choice of collecting mandated costs or just getting a reimbursement of \$28 per student without doing a collection. This option does not take effect retroactively. Dr. Johnson stated that the District feels this to be a good option and that we would no longer need a company to help collect these funds. We would receive approximately \$155,000 a year. Dr. Johnson indicated that the State is still legally obligated to pay the past funds still owed to school districts.

The motion passed by a vote of 5 to 0, to approve Item D.

Henry Lo discussed the possibility of the Board's adopting a resolution in support of the completion of the 710 Corridor Gap that as a school district may actually benefit our local residents. He stated he has asked for information on the number of students in Special Education who were given IEP's, and he would like to get this information as soon as possible.
