

Philip Salemi, Superintendent

Superintendent's Corner - March

Dear District 92½ Community,

On February 9th, we closed school due to a massive snowstorm that hit Chicago. Hopefully the last of the bad weather is behind us, but you never know! I want to remind everyone that we are making up our snow day on Monday, March 5th (Pulaski Day). All classes will be in session that day.

On February 15th, I had the pleasure of attending our Family Science Night at WMS. There were several hands-on, high-interest demonstrations and experiments presented by STEM industry experts, local high school students, and our very own WMS students. Students and parents filled the cafeteria and classrooms. This is just another example of the home to school connection. I want to thank our Middle School Science teachers for planning such a great night.

I want to extend an invitation to all parents and community members to attend our State of the District presentation on Tuesday, March 6th, at 6:00 p.m. in the WMS cafeteria. School Administrators, District Administrators and I will be sharing information and updates on our Strategic Plan, facilities, budget, technology and our most recent school data to the Board of Education and the public. We hope that you can join us. We will be posting the entire State of the District to our school website in case you cannot attend.

In the coming months, we will be sending out registration information for the 2018-2019 school year. While in the past there has been an option to register online or in-person, this year all returning families will be registering online exclusively. We feel that the move towards online will be more comfortable and more convenient for families than coming in person. We will be sending detailed instructions that will walk you through the online process. We know it will be a change for some, but we are confident families will be able to adjust to the new process.

I hope you have a great March and wonderful Spring Break. We look forward to seeing you at our events in the spring. As always, continue to look for updates via our school website (<https://www.sd925.org/>) and our Facebook our page. If you have any questions or concerns, feel free to email me at psalemi@sd925.org or call 707-670-1927.

Sincerely,

A handwritten signature in black ink, appearing to read 'PSalemi', with a long horizontal flourish extending to the right.

Philip Salemi
Superintendent
