LANCASTER INDEPENDENT SCHOOL DISTRICT

Lancaster ISD Official Message:

This morning at 9:35 AM, the Communications Department received notification that someone was posting cryptic, threatening messages on social media relating to "LHS."

After quick research, it was determined that some of the people following the social media account are Lancaster High School students. The district police officers are in the process of interviewing those students to see if they have any information about the anonymous person posting the messages.

As a precaution, the campus has increased its security and is placing staff members on high alert.

Right now, the campus is not on lockdown and classes are proceeding as scheduled. We have reported the social media account to the appropriate social media outlets. We will continue to monitor this situation and keep you updated as we receive more information.
