Principal's Message to Parents & Students

August 2017

Dear Students and Parents/Guardians:

Welcome to a new year of learning and growing at Enosburg Falls Middle School! Welcome back to our returning 7th and 8th grade students, and welcome to our incoming 6th grade students!

We are going to have a great year here full of new challenges and opportunities. EFMS is proud to offer a unique middle school experience where students become known as individual learners and where they can develop their own personalities and abilities. As you may know, middle school is a time of great transition and growth. Students change outwardly in appearance, and that is matched by many internal changes in emotional and social development. It is a critical time in life where students begin to reflect on their identities, their learning styles, and their preferences. Because of these changes, students will often try out new ways of acting or behaving, and they may test boundaries as they work to learn who they are and where and how they fit into the world. At EFMS, we take great pride in our awareness and effort to nurture these transition years, to support students as necessary, and to help them develop positive habits and empowering views of themselves.

Students: Remember that you are responsible for your learning and your actions. The adults in your life are here to help guide and support you during these exciting middle school years, but you are ultimately in control of your own destiny. Be positive, open to new ideas and ways of thinking, respectful to yourself and others, and willing to learn. If you do, you are sure to have an outstanding school experience.

Parents/Guardians: Your involvement with your child is absolutely critical. At the middle level, students often start seeking more privacy and seeking greater independence. Respect this growth, as it will help them develop skills to become successful and independent, but do not forget that your involvement is still extremely important, as you are your child's first and most important teacher, and your influence sets the stage for all other things. Remember that you are a powerful role model and that they will do as you do and not always as you say. You can show your child your belief in their education by making sure your child is in school and ready to learn each day, is reading at home, and by setting up a specific homework routine. It is also important to keep lines of communication open with your child's teachers. Finally, remember that in these transition years, it is important not to over-schedule your child in activities. Sometimes less is more, and by prioritizing your activities, you will show what is most valued in the home.

Please feel free to contact teachers with any questions or concerns you might have. Our entire team wants to work with you to ensure your child's success. All teachers can be reached by calling (802) 933-5354, or by email. Staff emails are first initial, last name @enosburgk12.net. You can also contact me with questions or concerns at the same number, or by email at reynolds@enosburgk12.net. We are looking forward to a great 2015-2016 year--let's make it a success for everyone!

Rachel Reynolds
EFMS Principal

OVERVIEW OF THE ENOSBURG FALLS MIDDLE SCHOOL

Philosophy

We view the Middle school program as a developmental bridge between elementary school and high school, specifically focused on young adolescents, and their special learning, social, and personal needs.

Enosburg Falls Middle School programs and practices have been developed to enable students to become independent, responsible learners who can think critically and creatively. We believe this goal can best be accomplished through an educational partnership of parents, educators, students, and community members working together.

We strive to provide a relevant curriculum that meets the specific needs of young adolescents. Classroom practices in all subjects are

designed to reinforce skills in reading, writing, listening, speaking, research, problem solving, technology, and the arts. The core courses at Enosburg include Writing, Math, Science, Social Studies, and Reading.

In addition, middle school is a time to address personal and social needs that are important to students of this age. Health and physical education and co-curricular activities appropriate to the development of the adolescent and exploratory courses in art, home economics, industrial arts, computer skills, and career awareness are offered as well as other subjects of interest. By the time students leave middle school, they are well prepared for success in high school and as proactive citizens.

Mission Statement

The mission of Enosburg Schools is to create an environment conducive to the expansion of knowledge: the learning of technical, creative, and academic skills; and the appreciation of cultural diversity. This environment shall empower students to realize their potential in cooperation with peers, educators, parents, and the community.

Student Code of Conduct

- 1. I am responsible for my actions.**
- 2. I will respect others, their belongings, and myself.**
- 3. I will cooperate with others.**
- 4. I have the right to a safe pleasant learning environment AND the responsibility to contribute to a positive learning environment.**

OUR SCHOOL

The School is supported by community taxes. Please share the pride we feel and help keep our building looking its best at all times. All students are expected to conduct themselves as young women and men, in a manner that will not offend any other person.

TEAMING IN THE MIDDLE SCHOOL

To help students adapt and develop, the middle school uses a team approach to instruction. The current teams consist of five teachers who share all of the 7th and 8th grade students and two teachers who share all 6th grade students. Middle school classes are taught in a specific part of the school building and the teachers share a common planning time. Through teaming, teachers are able to coordinate instruction in language arts, mathematics, science, and social studies, and to vary, as needed, the size of groups and the amount of time used for instruction. Teachers on a team may specialize in one or two subject areas, but also collaborate with other team members to better ensure student learning. We have teacher advisories that consist of 6th, 7th, & 8th grade students. These advisories allow students to feel a sense of belonging to their advisory. Parents have the opportunity to talk with all of their child's teachers during the team's planning time and/or during parent - teacher conference day.

	2:40-2:47 (TA) 7 minutes

Dress Code:

The following policy on clothing apparel and accessories will be enforced at EFMS. Students are expected to dress in a respectable fashion. While you and your family are generally free to determine your appearance in school, there are items of clothing and accessories that are unacceptable.

Examples of clothing considered to be unacceptable include:

- ❖ **Tank tops (with less than 2 inch wide straps)**
- ❖ **Tube Tops**
- ❖ **Tops baring midriffs, back area or cleavage**
- ❖ **Underclothing may not be exposed**
- ❖ **Shorts or skirts which are shorter than extended fingertips**
- ❖ **Clothing that exposes large areas of skin; ie, cutouts or holes in jeans or skirts, low cut tops, or low rise pants**
- ❖ **Clothing that advertises, promotes or depicts alcohol, tobacco, and/or illegal substances**
- ❖ **Items that display vulgar, offensive, or demeaning language**
- ❖ **Jewelry or accessories deemed potentially dangerous or disruptive**
- ❖ **Boys wearing sleeveless shirts must not have excessively low-cut sleeveless shirts**

Students must not be barefoot.

Students in violation will be given the choice to change their clothing and/or a phone call will be made to parents, and/or students will be sent home to change their clothing

*****Please Note: Students may wear steel toed boots provided they are being responsible when wearing them. Should a student damage or deface school or student property using steel-toed boots, that student will no longer be permitted to wear them in the Middle School.**

PARENT PARTICIPATION

The role of parents in the middle school philosophy is imperative for a successful student experience. We have decided upon the following beliefs that we have regarding our parents. We hope that you feel comfortable within the school community and find time to contribute your talents.

- We believe that all parents have areas of knowledge and expertise that will enrich the lives of our Middle School students.
- We hope parents will play an active role in what their children are doing and in what the school is doing for and with their children to promote a positive atmosphere for everyone.
- We hope parents will suggest ideas for activities and projects to include in Middle School programs.
- We believe that parents can be our best advocates in the community, and that their involvement will effectively inform the community about our school.
- We want to involve parents in all aspects of middle school life including curriculum, communication, vision, special events, fundraising, the arts, athletics, School-to-Work, facilities, and as classroom volunteers.
- We hope parents will attend conferences, meeting and other forums currently established to meet the educational needs of individual students.
- We believe that Middle School parents and community members should become involved in the Parent's Group, which is a great forum for developing greater parent involvement in the Middle School.
- We know that personal contact is an important component in helping people feel that they are part of the plan. We need to organize early parental contact from the teachers to the parents and from the parents to each other to bring everyone together in a way that makes each individual feel that he or she is an integral part of the process.
- We believe that parents themselves should help identify and define ways to participate in all aspects of our program.

Exploratory Classes

Exploratory is a cycle of elective classes that all students may experience during their middle school years. The courses are physical education, art, foods, sewing, band (including guitar and music media), chorus, health, and guidance. The goal of each of these courses is to have students glimpse at other areas in which students could pursue careers. Certified teachers teach the courses and students will be assessed using content standards and/or transferrable skills.

Library

Students will be using the library individually, as a class, or before and after school. Our library has a number of holdings for research such as periodicals, Internet connections, and resource materials. Every student who is enrolled in the school is permitted to check out certain materials. If a student does not responsibly care for materials or return them promptly, these privileges may be suspended.

We invite community members and parents to use the library as long as each individual checks in at the main office and with Angel Harris, our media specialist. The library is a quiet place. The emphasis is on learning in the library. This is accomplished by quiet research, study, or reading activities.

Guidance Services

The Guidance counselor assists students in their transition in to high school and out into the world of work. Mr. Justin Pinard is available for assistance with everything from career and high school planning to personal or family problems that may be affecting a student's ability to learn. He also teaches a daily guidance class to help students learn about a variety of social, emotional, and career-related topics.

SPECIAL SERVICES

Extra Help

Teachers are available before and after school. Students are encouraged to see their teachers to take advantage of this opportunity. Teachers offer Work Completion Wednesday (WCW) every Wednesday after school to help students who have fallen behind and/or to reteach specific content or skills. This opportunity is available to all EFMS students. A call will be made and notice sent home if your child should stay for WCW to get extra support.

Special Education Services

Students with disabilities that prevent or limit success in the regular education programs are eligible under state and federal guidelines to receive special education services and accommodations. These students will receive extra help in remedial and regular education classrooms. Ms. Henderson and Mrs. Howrigan-Fehr work with students in the middle school. Students receive assistance in reading, writing, math, and other core courses, as well as in study skills and organization. Students with behavior, hearing, and vision disabilities may also be eligible to receive help under this program.

Act 504

This is a Federal Civil Rights Law, which entitles people with disabilities to have necessary accommodations at jobs, in school, and in communities. These accommodations are intended to make all aspects of life accessible to all people. Act 504 is not the same as “special education” which provides specifically and individually designed supports in education. Mrs. Deuso is responsible for monitoring Act 504 provisions.

Act 230

This is Vermont Regular Education law, which requires schools to assist students who need a little extra support in order to succeed in school. Accommodations for students as well as an instructional support team can be established for students who are failing or at risk of failing. An Educational Support Team (EST) is made-up of the student’s teachers, parents, and usually, the student, to design a plan to help the student at risk of failing. Mrs. Reynolds is the Act 230 coordinator.

FERPA

Under the Family Educational Rights and Privacy Act, or FERPA (Act 20), parents have the right to: inspect and review their children’s records, seek amendment of the record if it is inaccurate or misleading, consent to disclosure of personally identifiable student information (except as it is provided in C.F.R Section 99.31), and, if they believe the act has been violated, file a complaint with the Family Policy Compliance Office of the US Department of Education. School employees who can access a student’s record are those with “legiti-

mate educational interests”. These people are typically the school administration, classroom teachers, special educators, and guidance councilors.

Other student directory information that is released is typically to celebrate students in our school. Honor Roll lists are published quarterly in the paper and on the website, as well as names of those students who are participating in school clubs, teams, or events. According to Act 20, “Parents/legal guardians have the right to refuse the release of particular or all directory information on their own children”. If you would like to refuse the release of some or all directory information for your child, please do so on or before 9/8/2017.

Para-educators

These individuals work with students individually, in the classroom. The individual attention they can provide is invaluable. For many students, the patience and support of para-educators makes all the difference in their educational experience.

MEETINGS AND CONFERENCES

Parents are encouraged to contact teachers at any time. They can leave a message for any teacher at 933-5354. One conference time has been established for the school year. Conferences occur after school to accommodate parents. In addition, individual conferences will be scheduled to accommodate parents who so request. Every effort will be made to schedule parent meetings during common planning time.

Individual Education Program (IEP) and Education Support Team (EST) meetings are scheduled throughout the year to discuss students’ progress.

NEWSLETTER

The Middle School Team will help publish a newsletter to be mailed to parents with report cards and progress reports.

SCHOOL WEBSITE

The middle school has developed our school website as a resource for students, teachers, and parents alike. On our site we have links to teacher web pages, school policies, and homework calendars that are updated by teachers daily. You can also find general school announcements on our website, as well information about testing results and our progress in relation to “school improvement.” You can access the website at: ms.ehornets.org or by going to ehornets.org and clicking on the middle school banner in the middle of the page.

SCHOOL CLOSINGS

You will receive a phone call through our alert now system letting you know of school closings and delays. You can also be notified by the following radio and TV stations:

WOKO	98.9 FM
WEZF	92.9 FM
WLFE	102.3 FM
WWSR	1420 AM
WCAX	Channel 3
WPTZ	Channel 5

The Start and Finish of the Day

Classes for the middle school will begin at 8:10am. The day finishes with another bell at 2:47pm. At this time students leave their classes, go to their lockers, and leave the building. If students choose to remain after school for extra help, extra-curricular activities, or any other school sponsored activity, an adult must supervise them.

Each school day includes, one 10-minute break in the morning, and a 30-minute lunch period. There are two types of days: A & B. Each Middle School student will have 4 core classes: Math, Language Arts, Science, and Social Studies.

Arriving to School Late

If a student comes to school tardy, he/she should go immediately to the Middle School Office to receive a pass admitting him/her to class. Students requesting an early dismissal during the school day must present a written request to do so from a parent/guardian before period one begins. The request must indicate the reason and the date of the early dismissal request, and must be signed by a parent/guardian. If a student has 3 unexcused tardies they will have a lunch detention for each one thereafter.

Lockers

Students will be assigned a locker at the beginning of the year, and must respect the right of each student to have a safe, secure place to store books and other necessary items. Teachers will help incoming students learn to manipulate the locks on their lockers. Remember that lockers are school property and may be opened for safety reasons. Please note that students are liable for the cost of repair for any

intentional damage to their locker. Students are not permitted to share lockers or switch lockers with others. Should a switch be desired, students need to speak with Mrs. Gervais and/or Mrs. Reynolds.

Students will be able to go to their lockers only at designated times during the day.

The School Nurse

The Nurse and the Nurse's Assistant are available for all students throughout the day and offers assistance to students when they are injured or feeling ill. The Nurse is also available for information on a wide variety of teen-related topics such as depression, suicide, eating disorders, harassment, cleanliness, and more. The School Nurse will require a health permission form from each student at the beginning of the year. It is imperative that the form be returned to the school as soon as possible because it contains emergency contact information, medical complications information, and permission to administer over the counter medications through the nurse's office.

Dispensing of Medication to Students

The Prudential Committee will permit the distribution or dispensing of medical supplies or medication by approved personnel who are employees of the Supervisory Union on school property during the regular daily schedule. Those authorized by the Prudential Committee will be building principals or their specific designated representative for each occasion. The school's nurse shall be responsible for the general oversight of medication and health programs. The Nurse shall be the only person to give injection or supervise self-administered injections. The following procedures shall be used in the administration of this policy:

- **Prescription medication and over the counter medicine will be dispensed to students.**
- **Written orders from a physician must be issued to the school stating: diagnosis, name of medication and dosage, time the medication is to be administered, date medication is to begin and end, adverse reactions that should be reported to the physician, and special instructions. For the administration of the drug, including storage, sterile conditions, etc.**
- **Written permission from the parent and/or guardian must accompany physician orders and medication.**
- **Medication is not to be taken without the above information.**
- **Advil and Tylenol will be given if emergency for is current.**
- **Medication must be sent to school in an original container appropriately labeled by a pharmacist or physician. Medication is not to be sent in tissue, plastic wrap, etc.**
- **Parents will furnish all prescription medication.**
- **The student is to bring the medication, physician orders and parent permission slip to the Health Office.**
- **The school nurse will check the authenticity of medication. If further clarification is needed, the parent will be contacted.**
- **All medication will remain in a locked cabinet in the nurse's office.**
- **It is the student's responsibility to report to the nurse's office when medication is due to be given.**
- **An adult must dispense all medication.**

- Records will be kept on a medication sheet, which includes: date, time, student, medication, and initials of person dispensing medication.
- The student is not to take any medication without proper authorization from the nurse or office.
- Medication taken over a prolonged period should be sent to school with more than one dose. The orders and parents' note should explain this.
- Students taking prolonged medication will have their parents notified by the school when a refill is needed.

Homework

Homework is an essential element in a student's education. Homework is the display of understanding of the particular skill taught that day or during a unit. This meaningful homework will be assigned to students and will be recorded by teachers. It is the responsibility of the student to complete all homework assignments to the best of their ability. Assistance is available to students with homework questions and problems immediately after school upon request. Work Completion Wednesdays is available to students if they need help with homework from teachers or if they fall behind. Parents will be notified each Tuesday afternoon via email and phone alert if their child is required to stay on Wednesday.

Proficiency-Based Assessment

In accordance with the AOE's Education Quality Standards for Schools and Proficiency-Based Graduation Requirements identified in Act 77, EFMS students will not receive letter and number grades for classes or schoolwork. Students will receive feedback on their progress towards end-of-year-standards and report cards will report out how they are doing with achieving proficiency. EFMS teachers will use PowerSchool to track how students are doing on assignments. Parents and students will be able to see achievement levels on assignments as well as if any work is incomplete, late, or missing. We encourage teachers, parents, and students to regularly communicate with one another about progress towards achieving content standards.

The FNESU schools will be using the following language to report how students are doing.

<p>Emerging (E): The student has made an initial attempt at achieving the standard but more information, instruction, and/or practice is needed.</p>	<p>Developing (D): The student's skills are nearing proficiency but a little more information, instruction, and/or practice is needed or some demonstration of understanding is missing or is partially demonstrated.</p>	<p>Proficient/Meeting (P or M): The student has met the grade-level standard and demonstrated mastery of the content or skill.</p>	<p>Exceeding (X): The student has achieved above and beyond what is expected for their grade level and has mastered the skill as well as extended the learning or reached an expectation for a higher grade level.</p>
---	--	---	---

Students and parents will see the letters E, D, P, X used on report cards to explain the above standards.

Students with IEP plans will also receive quarterly updates from the special educator as to their progress towards these grade-level standards (as well as their specific IEP goals) and some standards may indicate that modifications to the standard or work was made in accordance to the IEP needs to help the student achieve success. For more information, please reach out to your child's special educator and/or classroom teacher.

Lunch

Lunch is a thirty five minute period scheduled from 11:10AM - 11:45AM for middle school students every day. Parents and students do have the option of paying for many lunches at one time. Checks can be written to Enosburg Falls Food Service Program for the amount of lunches you would like to purchase. Students will be assigned a personal identification code, which they will enter when they buy lunch. The account is automatically credited for one lunch. An important change at the middle and high school level is that unlike the elementary school, students do not automatically receive a free lunch. Information regarding Free/Reduced Lunch for families will be mailed in the fall to all families and must be returned ASAP to Kelly Gervais in the EFMS office. Questions regarding the form or process can be directed to Kelly via email (kgervais@enosburgk12.net) or phone (933-5354).

Bullying and Harassment

Here at EFMS our staff is committed to taking a strong stance against bullying and harassment in our school. We work very hard to create and maintain a positive learning environment, and recognize the negative impact bullying and harassment can have on student learning. We have multiple resources in place to help students who feel they have been the target of bullying or harassment, and encourage students to seek out our school counselor, opportunity room coordinator, principal, or their teachers when they have a concern. We offer opportunities throughout the year for students and parents to learn about more of these issues, and emphasize the development of positive peer relationships in our teacher advisory groups and in our middle school guidance classes. If parents have a concern that their child has been the target of bullying or harassment in the school we encourage them to contact the principal, planning room coordinator, or guidance counselor at 933-5354.

Enosburg Falls Town Schools has an established policy for bullying and harassment (Policy F30). The policy was revised and finalized in November of 2015. Parents and students are encouraged to view the entire policy, which can be obtained in the main office of the school, or online at <http://www.fnesu.net/policies.html>.

Students, Parents, and Staff

Student planner

Additional information about rules, regulations and expectations, as well as further information about daily life, can be found in the first 20 pages of the Student Planner. Each student will receive a copy of the Student Planner on the first day of school. We encourage all students and parents to thoroughly review the information contained in that document.

You will find the following information in the Student Planner:

3. A letter of welcome
4. The EFMHS Mission Statement

5. **Student Rights and Responsibilities**
6. **Discipline: Behavior and Consequences**
7. **Extra Curricular Activities including Fundraising**
8. **Guidance Services**
9. **Academic Issues such as cheating, plagiarism, homework, etc.**
10. **Non-Discrimination Notice and School Board Policy**
11. **Procedures and Bus Misconduct**

Since this information is extremely important for the maintenance of a balanced community, all parents/guardians are encouraged to discuss each of these topics with their Middle School student.

Transgender and Gender Nonconforming Students

As stated in an Agency of Education memo written by the Secretary of Education on July 12, 2017, “All students need a safe and supportive school environment to progress academically and developmentally. Many questions arise for students and staff when considering the best supports for transgender and gender nonconforming students.” The AOE has issued a memo, available on their website (education.vermont.gov) titled “Best Practices for schools regarding Transgender and Gender Nonconforming Students”. Please be reminded of the following ruling:

OCR’s Title IX implementation guidance was set forth in an opinion letter dated January 7, 2015. In this guidance document, OCR interpreted a specific Title IX regulation (34 C.F.R. § 106.33). This regulation addresses access to facilities and how federal law applies to transgender students. OCR’s implementation guidance states in relevant part:

“When a school elects to separate or treat students differently on the basis of sex (e.g. by maintaining gender specific restrooms) . . . a school generally must treat transgender students consistent with their gender identity.”

In short, a transgender student must be allowed bathroom access to a gender specific bathroom for the gender that the student identifies with, if that is the preference of the student. Establishing single occupancy, gender neutral bathrooms may present an option for any student not wishing to use gender-specific bathrooms. However, no student should be required to use a gender neutral bathroom based on their gender identity.

Bathroom access is a small piece of the puzzle for Transgender and Gender Nonconforming Students. Should you believe a student is being targeted due to gender identity or in need of additional supports, please seek out the guidance counselor and/or school principal.
