

## Parent Notification of Tier 2 Intervention

Student Name: \_\_\_\_\_

Grade: \_\_\_\_\_

In an effort to maximize individual success, our school has an Intervention Program. The Mission of this program is to:

-Identify the needs of students who are struggling with their academics and are performing below grade level.

-Provide students with the academic support needed to succeed in school by implementing various strategies and interventions both within the classroom and in a small group setting.

Your child has been receiving Tier 1 support in the classroom by the classroom teacher, using research-based instruction in both whole group and small group settings. At this time, your child's assessment scores and progress in class with Reading and/or Math indicate a need to add additional Tier 2 support. In Tier 2, your child will receive research-based instruction, with an Interventionist, targeting areas of need in a small group setting with students with similar needs.

Your child will begin/began reading/math (circle one) Tier 2 interventions with \_\_\_\_\_, on \_\_\_\_\_.

We will monitor your child's progress and will notify parents of any change in the intervention plan in response to progress.

We consider you, the parent/guardian, to be a key member of this team. Your input is important and we encourage you to participate, as much as possible, in this process.

If you have any questions regarding the Tier 2 interventions, please contact your child's teacher.
