California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facility Conditions and Planned Improvements

Discovery Charter School II is located on the Randol school site, in the San Jose Unified School District. Discovery rents the property from San Jose Unified. In 2014 walls were added to the classroom pods in order to reduce noise and 1 modular unit/portable was added to house the additional classroom.

Two modular units will be added for the 2015/2016 school. 2016/2017 Discovery Charter II took the whole school site. Extensive repair and updates were required before those parts of the campus were habitable. The restrooms are scheduled for renovation.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Subject	Percent of Students Meeting or Exceeding the State Standards

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

Opportunities for Parental Involvement (School Year 2016-17)

Parent participation at Discovery Charter Schools is vital to the success of a program based on small group developmental instruction. Such a program's effectiveness is dependent on the commitment of every family to the philosophy of the school and the integrity of the parent participation commitment. Specialized school programs are a choice.

Each family makes a decision to enroll their child based on an understanding and belief in the philosophy of the school and careful consideration of the family commitment required to successfully implement the Discovery program. Each family is asked to complete a commitment form, which specifies how the family will contribute to the success of the program.

Parents represent a wealth of skills, interests, talents, and resources that add to the breadth and depth of students' learning. Discovery has created a culture of parent involvement with high expectations of our students' families, just as we want them to hold the school's professional staff to the highest expectations. We believe this formula of high expectations of all members of the learning community is crucial to the success of each student entrusted to our school.

The benefits of parent participation are numerous. Parents working side-by-side with teachers fosters mutual understanding and respect, which leads to more positive home-to-school relationships. Teachers act as role models in every aspect of teaching.

Children see their parents at school, aiding in the classroom, at lunch, on field trips, and on the playground, and without a word being spoken they know that being at school is a valuable place to be. The effect is like a pebble dropped in water, the ripples spread out indefinitely.

School Safety Plan (School Year 2016-17)

The safety of students and staff is a primary concern of Discovery Charter School II. All guests to the campus must sign in at the office and wear a visitor's badge at all times. Supervision is provided to ensure the safety of each student before school, during breaks, at lunch, and after school. Supervision is a responsibility shared among teachers, school administrators and parent volunteers. To safeguard the well-being of students and staff, a comprehensive School Site Safety Plan has been developed, which was most recently updated in August 2015. Any revisions made to the plan are reviewed immediately with the staff. Key elements of the Safety Plan focus on the following: disaster response procedures, child abuse reporting procedures, bullying components, sexual harassment policy, safe ingress and egress of pupils, parents, and school employees. Parent volunteers must be fingerprinted and TB tested before they are approved to work on campus. The school is always in compliance with the laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. Safety drills, including fire, earthquake and intruder drills, are held on a monthly rotating basis.

Professional Development

As part of the growth process, opportunities for training and staff development are provided to administrators, teachers, and classified staff. Discovery Charter School staff members participate in 5 staff development days annually where they are offered professional growth opportunities in curriculum, teaching strategies, and methodologies. For 2014-2015, staff development topics included: differentiation, small group instructional strategies, utilizing data to drive instruction, benchmark assessments, Positive Discipline, intervention strategies for struggling students including strategies for English Learners.

In 2015 the teaching staff attended a seminar presented at Opal School in Portland, Oregon to learn about their program. Staff members also receive funds each year to attend seminars and workshops of their choosing.

Teachers had the opportunity to take classes on Thinking Maps training throughout the year. On site staff development is determined by teacher need and interest.
