This guide includes intended topics of learning for students enrolled in the Red Lion Area School District. It is a general informational guide. The topics are not all-inclusive and will be supplemented based on students' evolving strengths and needs.

The Red Lion Area School District Curriculum Process

The Pennsylvania State Board of Education's academic standards serve as the foundation for Red Lion Area School District's curriculum. Teams of teachers and administrators determine what is necessary for students to know, understand, and do in order to demonstrate mastery of rigorous skills and strategies. Lessons are derived from the curriculum and are constantly refined by skilled educators to best meet the needs of their students. Developing curriculum in the Red Lion Area School District is a journey, not a destination. As such, the curriculum continues to evolve to meet the ever-changing needs of all learners.
