“Redskin Pride Community Wide”

2015-2016

Dear Parents:

Thank you for your input into the 2015-2016 Local Control Accountability Plan (LCAP) for the Chowchilla Union High School District. Your input is valuable to us. At this time, we have incorporated the following into the plan based on the district’s goals and objectives which was shared with you at our input meetings:

1. Improving the speed of the internet and the Wi-Fi.
2. There will be a focus on technology based textbooks and instructional materials as textbooks are purchased.
3. ConnectED messages will follow ‘lock down’ incidents and drills so parents can talk with their kids.
4. Coaches must have first aid and CPR certifications before they are allowed to coach.
5. Expansion in the Vet Science I program to include Vet Science II; Expansion in the number of Ag Science I courses from one to three sections; and the addition of one section of Web Design II.
6. ESL course for our adult parents so they can help their students, offered on campus.
7. Continue to improve the exposure of English Learners to the extra-curricular activities in the school.
8. Improve the school website-calendar to be up-to-date and accurate.
9. Additional Advanced Placement courses in European History, Spanish, Biology, and Government.

At this time, because of funding limits and the current goals and objectives of the District, we have not included the following:

1. Other career tech programs such as: sign language, criminal justice, medicine, and research.
2. Driver’s education and JRTC.
3. Internet accessibility for the parents in the community.

These items will continue to be on our list of possible services and actions in the coming years. Please continue bringing your ideas to the LCAP input sessions.

Thank you for your valuable input as we plan for the future of the Chowchilla Union High School District.

Sincerely,

Ronald V. Seals  
Superintendent
