

Welcome to Milan Middle School, home of the Bulldogs! MMS is a middle school where we are all dedicated to training minds, building strong character, and providing skills that will be useful and required both now and in the future. Our goal is to prepare students for the world beyond in a safe and supportive environment and encourage students to achieve at their highest level academically, in extra-curricular endeavors, and artistically. The MMS faculty and staff work with students, parents, and the community in a collaborative learning community.

We offer many opportunities for each student to have success both in and out of the classroom setting. There are many clubs as well as other after-school activities for our students. We also provide opportunities that encourage community service. Although we could not possibly list all of the student activities that go on at MMS, some of these opportunities you will find listed on this web site. In short, there is something for everyone here! Explore this site, especially the Facebook link, and please contact the school if you have any questions. And as always.....GO BULLDOGS!
