Dear Parents:

Board Members

Students enrolled in a course for which there is a LEAP 2025 High School test must take the test (Bulletin 741, Section 2318). The test score shall count towards 20% of the student's final grade for the course.

Elaine G. Davis

The following table shows the relationship among LEAP 2025 achievement levels, scale scores, grade scale scores based on the uniform grade scale and the corresponding letter grade.

The following is an example of how the conversion tables are used to calculate the student's final course grade:

Dana earned 89% in her Algebra I coursework, and had a scale score of 768 on her LEAP 2025 Algebra I test, which placed her in the Mastery achievement level. The LEAP 2025 High School tests count for 20% of the final course grade in her district. According to the conversion table for Algebra I, her LEAP 2025 scale score 768 translates into a grade scale score of 87. Her final course percentage is $87 \times 0.20 + 89 \times 0.80 = 88.6$, which is a B.

Parents, please express to your scholar the importance of putting forth their best academic effort daily during classroom instruction as well as on the upcoming state assessment, LEAP 2025. Thanks for your assistance and continued support.

Sincerely,

Dr. Herman Brister, Superintendent
