

Vallivue School District 139

The Vallivue School District recognizes that the growth of a student, both academically and personally, reflects not only the educational programs and goals of the district, but also the atmosphere in which the student attends school. To the extent possible, the Vallivue School District is committed to providing an educational setting where the students feel safe, are challenged to grow academically and personally, are treated with respect by the district personnel and other students, and are disciplined fairly by district personnel.

To provide such an educational setting, this board of trustees has adopted policies and procedures, as mandated by the Idaho State Board of Education in the following areas:

1. School Climate
2. Discipline
3. Violence Prevention
4. Student Harassment
5. Student Health
6. Gun-free Schools
7. Substance Abuse--tobacco, alcohol, and other drugs
8. Suicide Prevention
9. Drug-free School Zones
10. Building Safety including Evacuation Drills

The board of trustees will review these policies and procedures on an annual basis to determine whether or not they are meeting the needs of the students, school district, and community.

Following are the expectations that serve as the foundation in providing a strong, positive school climate in the Vallivue District:

1. Everyone is a learner.
2. All students can learn and grow when instruction is aligned to his/her needs and learning abilities.
3. Every student has value and deserves to be treated with respect and dignity.
4. Diversity is truly respected and celebrated.
5. Students have responsibility for their own learning.

6. Schools help students gain knowledge, believe in themselves, believe in others, and love learning.
7. Students feel safe at school, and the school’s physical environment is conducive to learning.
8. Building relationships within a school enables students to connect with other students and adults.
9. Parents and families are encouraged, welcomed, valued and supported in their efforts to be involved in school.
10. Success and achievement, community involvement, and positive student conduct are encouraged and recognized by school staff.
11. Expectations for behavior are fair, clearly understood, and consistently followed.
