

The goal of the Randolph-Field Independent School District's Child Nutrition Department is to ensure that every student is offered nutritious, high quality meals that support the essential link between nutrition and education; to provide all with excellent customer service by qualified staff adhering to high sanitation and safety standards, utilizing cost-effectiveness and industry best-practices.

### **Free and Reduced-Price Meal Applications**

Free and Reduced-meal price applications will available at the school or cafeteria, if you have any questions concerning applications, please contact Cynthia Moczygamba at 210-357-2465. All returning applicants for Free and Reduced-price meals must submit a new application for the 2018-2019 school year. Students become eligible for free or reduced-price meals when the application has been processed. Meal benefits are not retroactive. Please submit only one application per household.

Students who were on the free or reduced-price meal program last year in Randolph Field ISD have a “prior year” status for the first 30 school days of the new school year. If we have not received a new application for these students by October 4, 2018, they will become “Paid” students on October 5, 2018.

### **EXCLUSION OF MILITARY COMBAT PAY**

A policy memorandum from USDA provides information on implementation of the exclusion of military combat pay from income eligibility determinations for free and reduced-price meals in the National School Lunch and School Breakfast Programs.

As set forth in the statute, combat pay is defined as an additional payment made under Chapter 5 of Title 37 of the United States Code, which is received by household member who is deployed to a designated combat zone. Combat pay is excluded if it is:

- Received in addition to the service member's basic pay,
- Received as a result of the service member's deployment to or service in an area that has been designated as combat zone, and
- Not received by the service member prior to his/her deployment to or service in the designated combat zone.

A combat zone is any area that the President of the United States designates by Executive Order as an area in which the U.S. Armed Forces are engaging or have engaged in combat. As with other types of income commonly received by military personnel (such as the Basic Allowance for Housing or Basic Allowance for Subsistence payments), combat pay received by the service members is normally reflected in the entitlements column of the military Leave and Earning Statement (LES). Deployment service members are considered members of the household for purposes of determining income eligibility for the Child Nutrition Programs.

**Note:** If your housing is part of the Military Housing Privation Initiative, do not include your housing allowance as income. All other allowances as income must be in your gross income.
