

AIR FORCE JUNIOR RESERVE OFFICERS TRAINING CORPS

The AFJROTC curriculum is designed to teach high school students the value of citizenship, leadership, service to country, personal responsibility, and a sense of accomplishment, while instilling in them self-esteem, teamwork, and self-discipline. JROTC courses contribute to the development of career and life skills that are essential for a productive and healthy life. College scholarship opportunities are available for those students who qualify. JROTC also offers opportunities for advance promotion for cadets who enlist in any branch of the military services; however, there is **no military obligation for participating in this program.**

SPECIAL NOTATIONS:

1. A student may earn Career and Technical Education credit(s) by successfully completing AFJROTC courses.
2. Students are required to wear an Air Force uniform (provided at no expense) once a week and to maintain Air Force grooming standards (haircut, facial hair).

Course	Credit	ACCN	Prerequisites
AFJROTC 1	1.0	TJA1000	None
AFJROTC 2	1.0	TJA2000	AFJROTC 1
AFJROTC 3	1.0	TJA3000	AFJROTC 2
AFJROTC 4	1.0	TJA4000	AFJROTC 3

AFJROTC 1

AFJROTC 1 is a course for cadets in their first year of JROTC. The Aerospace Science portion of the course is about aviation history, focusing on the development of flight throughout the centuries. It starts with ancient civilizations, then progresses through time to modern day. The emphasis is on civilian and military contributions to aviation; the development, modernization and transformation of the Air Force; and a brief astronomy and space exploration history. The Leadership Education portion of this course introduces cadets to the AFJROTC program and provides information about military traditions, citizenship, the U.S. Government, wellness, health, fitness, and how to exercise self-control.

AFJROTC 2

AFJROTC 2 is a course for cadets in their second year of JROTC. The Aerospace Science portion of the course focuses on how airplanes fly, how weather conditions affect flight and the human body, and flight navigation. The course is designed to complement materials taught in math, physics, and other science-related courses. The Leadership Education portion of the course emphasizes basic communications skills. Students will learn to make basic presentations. Students will also study individual and group behavior, leadership characteristics and principles, and practice leading in drill and ceremonies.

AFJROTC 3

AFJROTC 3 is a course for cadets in their third year of JROTC. The Aerospace Science portion of the course examines our Earth, the Moon and the planets, the latest advances in space technology, and continuing challenges of space and manned spaceflight. The course also examines the practical aspects of space. – “What’s it like? How do we get there? How do we use space to our benefit? The Leadership Education portion of the course helps cadets in deciding which path to take after high school. Information presented includes how to apply for admission to college or vocational/technical school, how to begin a job search, financial planning, interview skills, and resume preparation. Information on military career opportunities is also presented.

AFJROTC 4

AFJROTC 4 is a course for cadets in their fourth year of JROTC. It is an advanced program focused on cadet leadership and management of the cadet corps. Cadets are selected for leadership positions based on previous successful participation in cadet activities and demonstrated leadership and personal discipline. Students will plan, organize, coordinate, direct and control the various corps activities and field trips under supervision of the instructors. In addition, cadets will study techniques, decisions, and functions of management as well as learn how to manage themselves and others.
