

CTE INCENTIVE GRANT REGION 7 NETWORK NEWS

Serving Imperial, Riverside, San Diego and San Bernardino Counties

Fall 2016

CTE Delivers

Career Technical Education (CTE) is experiencing a Renaissance, not only in California but across the nation. Economic prosperity for our students, communities, regions and the nation is contingent upon preparing the workforce of tomorrow with far more than content knowledge alone. High Quality CTE can deliver on this promise by preparing students for the next economy with a combination of rigorous academic and technical content, real-world problem solving skills, critical thinking, teamwork and communication skills.

For the first time in a long time CTE is getting looked at critically as a true partner in preparing students both for College and Careers. The CTE Incentive Grant is designed to help grantees not only sustain their programs, but to upgrade and build programs using the 11 High Quality Elements of CTE as foundational pillars.

The San Bernardino County Superintendent of Schools Office has a team in place ready to provide you with technical assistance. The team will also be sharing and show-casing "best" and "next" practices from across Region 7, and looks forward to supporting you in your CTE programmatic goals. The team looks forward to the opportunity to work with you as we build, share, and strengthen CTE so that we can deliver on our promise to our students for a successful future. Welcome!

"The skill gap is a reflection of what we value. To close the gap, we need to change the way the county feels about work"

-Mike Rowe

Welcome Round 2 CTEIG Recipients

Congratulations go out to the following Local Education Agencies for their new, Round CTE Incentive Grants:

- Beaumont Unified School District
- California Pacific Charter School
- Charter School of San Diego
- National University Academy
- Oceanside Unified School District
- Val Verde Unified School District

"The flaw in our character is our insistence on separating blue-collar jobs from white collar jobs, and encouraging one form of education over another."

-Mike Rowe

CTEIG Resources

Whether you are new to Career Technical Education or not, having the grant means that you are accountable for implementing the **11 High Quality Elements of CTE** as described in our State Board of Education approved plan for CTE. The state's 7 Regional Technical Assistance Providers (TAPs) have been gathering, updating and creating resources, as well as starting to roll out professional development programs. The TAPs are working in conjunction with the California Department of Education and with the technical assistance team providing services for California Career Pathway Trust grant awardees.

FEATURED RESOURCES:

Digital Chalkboard

www.mydigitalchalkboard.org

By joining the "CTEAM" group, you will be able to find CTEIG resources. This site is used for a variety of CDE sponsored programs. Please visit the site, and create an account.

Region 7 CTEIG Technical Assistance
