

### 2230 CURRICULUM GUIDES

A guide or skills array shall be prepared for each course of study approved by the Board in order to direct and assist the professional staff toward the attainment of goals sought by that course of study. Each teacher will use the curriculum guide or skills array as the core of the course he/she has been assigned to teach.

Whenever new curriculum guides or skills arrays are developed or existing guides or skills arrays revised, copies of these additions or changes must be made available to the Board for review. The Board retains the right to reject any additions, changes and deletions to the presently approved curriculum guides and skills arrays. Copies of all current curriculum guides and skills arrays shall be kept on file in the office of the Superintendent. It shall be assumed that only those courses of study represented by curriculum guides or skills arrays on file constitute courses of study officially adopted by this Board.
