**Philosophy of Education
For Red Creek Central School**

The child who goes from kindergarten to graduation spends more than 10,000 hours in school. During these hours, we want each child to learn desirable attitudes, to practice good social relationships, and to develop his potentialities for a useful, healthy, happy life. The school shares with the child's parents the responsibility of his training. It is important that we work together. We hope that this booklet will prove useful as an introduction to your school. Please feel free to visit us and become better acquainted. You are always welcome.

Mission Statement

The primary mission of the Red Creek Central School District, based on the belief that each student can learn, is to teach, with equity, all students to master fundamental skills. We further accept the responsibility to challenge all students to attain higher levels of achievement. We, the Red Creek Central School District, will provide the whole child the opportunity, environment, and encouragement to meet these goals.

Alma Mater

Of our noble Alma Mater
Loyally we sing,
In the heart of every student
Let her praises ring!

Red Creek Central, stand and cheer her,
May her fame ne'er die,
While we live, we'll always cherish
Happy days gone by.

Academic Eligibility

It is the philosophy of the Red Creek Central School District that extracurricular activities are considered an integral part of a student's educational development. Participation in these activities is a privilege. Students should strive to reach their full potential with support systems available to help achieve this end. This eligibility policy applies to all students in grades **6-12** and emphasizes the importance of academics in order to participate in extracurricular activities. The intent of the policy is to help motivate students to pass their courses and/or to put forth academic effort.

Eligibility for Extra-Curricular Activities

The following statement defines Red Creek Central School District's rules, regulations and policies as they pertain to a student's eligibility to participate in extra-curricular activities.

Extra-curricular activities are those recognized as athletic or non-credit bearing. This includes interscholastic athletics, clubs, intramural, class and school sanctioned activities, i.e.: dances, school plays and sporting events. Students in Grades 6-12 may be declared ineligible for participation in extra-curricular activities for failing **one** or more subjects (Incomplete and Unsatisfactory are considered failing grades).

Procedures for Determining Ineligibility

- 1. For eligibility purposes, the school year will be divided into eight (8) five-week marking periods. At the five-week progress report time, only grades from the previous five weeks are used, but grades from the full ten-week marking period will be used to determine eligibility at the end of each quarter.**
- 2. Only ineligible student names ("T" for trying students excluded) are submitted every five-week period. On the next page is a chart with the relevant dates for the Ineligibility process. Students declared ineligible will be permitted to practice during the affidavit period. They will not be permitted to attend or participate in any extra-curricular events during that time frame. Any student with a failing grade must receive a comment further explaining their eligibility status.**
Additionally, during the affidavit period students involved in extra-curricular activities during the time of being ineligible must stay after (2:35-3:25) with the teacher(s) for whom they are ineligible. If they are ineligible in multiple classes they will rotate staying after between the different teachers. If the teacher is unavailable after school the student will be required to stay in the **Learning Center** from 2:35-3:25. In each of these cases the student will receive a pass from their teacher which will permit them to practice that day.
- 3. However, students declared ineligible will have one (1) opportunity at the end of the affidavit period within the five (5) week period, to regain their eligibility. In order to do so, the student must have each teacher of the course(s) declaring the student ineligible; sign an affidavit verifying passing and/or trying in the course(s). Students that do not receive a passing grade or a "T" for each class failing will still be listed as ineligible after the affidavit period, and they will not be permitted to practice or attend any extra-curricular activities for the remaining weeks of the five (5) week eligibility period. These students are still required to stay after with their teachers as outlined in #2.**

4. If, between semesters, a student is unable, through no fault of their own, to re-enroll in a course for which he/she was ineligible, the student will be declared ineligible just for the following affidavit period.
5. Students who enroll in summer school and pass all failed courses or an equivalent course will be deemed eligible at the conclusion of summer school.
6. Carry over ineligibility for the start of the next school year: Ineligibility will begin on the 1st day of fall practice. Students will be permitted to practice but will not attend any extra-curricular activities. The 1st affidavit period will remain the same.
7. **A passing final average in every course will make the student eligible to participate even if the student failed the final marking period.**
8. **A “T” for trying in any subject will override ineligibility for that subject.**
 - “T” for trying is an effort-based mark given by the teacher to a student who has a failing grade but is meeting the “T” criteria in that class.
 - The “T” policy is posted in every classroom.
9. **Ineligible students may be denied driving/riding or work release privileges.**
10. **Ineligible students will only be released to the library from a study hall or during activity period with a pre-signed pass from a teacher indicating the assignment(s) to be completed while in the library.**
11. Only grades of Incomplete and extenuating circumstances may be appealed. The parent/guardian must first meet with the student's teacher before submitting an appeal to the Athletic Director.
12. **Ineligible students and their teachers must meet to develop an extra help program for each student.**

Accident Reports

Any accident within the school year or on school property including the buses, or when an accident occurs when you are away from school on a field trip, should be reported to the teacher in charge. You will be sent to the proper persons for care, if it is needed. The teacher in charge will then make out an accident report with the school nurse.

The school's accident insurance policy is in effect only if the student's visit is authorized by the nurse or teacher, and the proper report is completed.

Student Accident Insurance: The Red Creek Central School carries a non-duplicating student accident insurance policy on each student. The benefits of the policy shall be provided to a student only in the event the student receives bodily injury while the policy is in effect, and if such injury is caused directly by an accident and without any other contributing cause, traveling to and from school on school buses, and while participating in or attending school-sponsored activities. The total cost of this insurance is paid by the school. All injuries must be reported to the nurse or teacher for investigation, to be covered by this policy.

It is important to note that the student accident policy does not cover 100% of cost or expenses, and that parents and/or students are responsible for residual balances.

Activity Period

Activity period is a time when students may remain after school to participate in extracurricular activities, get extra help, use the library, etc.

The activity period enriches the curriculum of the school by making available a wide variety of activities in which a student can participate. Each student also has the opportunity to join the many clubs open every year.

Unless they are involved in an activity, assigned to a teacher, or assigned detention, bused students are to go home on the first bus and walkers are to leave the school grounds at dismissal time. Students are NOT to "hang-out" in the building after the 2:30 dismissal.

At the first dismissal bell, ONLY those students riding the 2:30 p.m. bus are excused from class. All other students (athletes, club members, students staying for extra help, etc.) should remain in their 9th period class until the second dismissal bell.

Teachers may, as a "reasonable request," require a student to stay with them during the activity period from 2:33 pm-3:25 pm. The activity period is part of the academic day. Teachers may request this of students if they are behind in their work, owing missing assignments or have been absent from school for an extended period of time. Teachers will work with students to establish an appropriate date(s) for students to stay.

If a student refuses to stay for a teacher during the activity period, teachers will contact and submit a referral to the main office. Students in violation of not staying with a teacher during the activity period upon request will meet with an administrator and may be reassigned to that teacher during an activity period or assigned an office detention.

An activity period study hall will be available to **student-athletes and drama students ONLY**. This study hall will provide the student-athlete with a quiet study area to address his/her daily academic requirements or to read any educational material. Every student-athlete will be expected to attend this activity period study hall while participating in a specific sport or stay with a teacher for extra help in a particular subject. ****Student athletes MUST remain in Athletic Sports Study Hall or with a classroom instructor until the 3:25 dismissal bell.**** Students who have practice at 3:30 are not permitted to leave school grounds. **In Season Student Athletes in good academic standing and a valid**

community center pass may go to the community center prior to practice.

Students must be supervised and accounted for from 2:35 – 3:25 p.m. All students riding the 3:30 bus must have a pass to be permitted on the bus.

Attendance

An attendance policy was created by a District Committee and approved by the Board of Education. A complete copy is available at the high school office.

A brief description of the policy is as follows:

School attendance is both a right and a responsibility. The School District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards. Because the School District recognizes that consistent school attendance, academic success and school completion have a positive correlation, the School District will develop, review, and if necessary, revise a Comprehensive Student Attendance Policy to meet several objectives.

Based upon our District's education and community needs, values and priorities, the School District has determined that absences, tardiness and early departures will be considered excused or unexcused according to the following standards:

- a) **Excused:** An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance, quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations or other such reasons as may be approved by the Board of Education. Excuses must be received within five school days to be considered an excused absence.
- b) **Unexcused:** An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories (e.g., family vacation, shopping, hunting, babysitting, hair cut, obtaining learner permit, road test, oversleeping, tanning appointment, working, fishing).

Student Attendance / Course Credit: The District believes that classroom participation is related to and affects a student's performance and grasp of the subject matter, and as such, is properly reflected in a student's final grade. For purposes of this policy, classroom participation means that a student is in class and prepared to work.

Consequently, for each marking period, a certain percentage of a student's final grade will be based on classroom participation as well as the student's performance on homework, tests, papers, projects, etc., as determined by the building administrator and/or classroom teacher.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused student absences, tardiness, and early departures will affect a student's grade, including credit for classroom participation, for the marking period.

Transfer students and students re-enrolling after having dropped out, will be expected to attend a prorated minimum number of the scheduled class meetings during their time of enrollment.

Students will be considered in attendance if the student is:

- a) Physically present (**33 minutes** out of a 43 minute class) in the classroom or working under the direction of the classroom teacher during the class scheduled meeting time.

- b) Working pursuant to an approved independent study program; or
- c) Receiving approved alternative instruction.

Students who are absent from class due to their participation in a school sponsored activity are to arrange with their teachers to make up any work missed within two days or receive a zero for missed work. Attendance at school sponsored events where instruction is substantially equivalent to the instruction which was missed shall be counted as the equivalent of regular attendance in class.

Students absent from class for an educational reason (i.e.: instrumental music lessons, field trip, etc.) shall not be considered absent from class. All class work must be made up. (The principal shall determine which school activities will not count as an absence for loss of credit). Arrangements must be made in advance for make-up work.

Students absent from class will receive a zero for work missed. Work must be made up within two school days. When work is not made up, the zero will stand as the grade.

Upon returning to school following a legally excused absence, tardiness, or early departure, it shall be the responsibility of the student to consult with his/her teacher(s) regarding arrangements to make up missed work, assignments, and/or tests in accordance with the time schedule specified by the teacher.

To ensure due process, the implementation of this general attendance policy will be as follows:

- a) **After the 5th absence in a half-credit course and the 10th absence in a full credit course, the teacher will notify the student of Paragraph C (below)**
- b) **After the 8th absence in a half-credit course and the 16th absence in a full credit course (based on a traditional schedule), the teacher will speak to the student, the Attendance Clerk shall telephone and send a letter home to the parent, and notify the principal. In addition, the teacher should also communicate to the parent regarding their child's class attendance.**
- c) **On the 14th absence in a half-credit course and the 28th absence in a full credit course, the student will be denied credit for the course. Once a student is denied course credit the student must remain in class and be in good standing in order for the principal to approve summer school. The principal has the final say in placement of the student.**

Challenging a Course: Students challenging a course are exempt from the denial of course credit section of this policy.

Appeal Procedure: The student has the right to request the number of allowable missed classes be extended up to three days due to extenuating circumstances. Extenuating circumstances are: extended illness of five consecutive school days accompanied by a doctor's excuse, death in the family, or incarceration. These warrant special consideration and such absences can be appealed by the student with full documentation by a qualified health professional. A committee composed of the building principal, guidance, and faculty members will make decision on all appeals. Upon agreement by the student, teacher, and administration, the student may audit the course for no credit or be assigned to a study hall by his/her guidance counselor. The principal or Dean of Students will send a letter home to parents informing them of the action taken.

Disciplinary Consequences: Unexcused absences, tardiness and early departures will result in disciplinary sanctions as described in the District's Code of Conduct. Consequences may include, but are not limited to, school suspension, detention and denial of participation in interscholastic and extracurricular activities. Parents/persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absences, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings/grade levels will address procedures to implement the notification process to the parent/person in parental relation.

Truancy- A student who is absent from school without the consent of a parent or guardian is considered to be truant. Truancy is assumed anytime a student is illegally absent from class without proper permission, has left the school grounds without permission, or fails to attend school without a proper excuse. Students who are judged truant may be given a zero for work missed. One extended detention will be assigned for each class period missed.

Leaving School Grounds - A student who must leave school because of illness must report to the nurse or the Principal. If a student is to be excused for part of the school day, he/she must present a written request to the main office upon arrival at school. The request must specify name, date, and time to be excused, destination, reason for leaving, means of travel from school, and a telephone number by which the information can be confirmed. Upon a student's return to the building during the school day, student must sign back in at the Main Office and receive a pass to class. Students should limit appointments, if at all possible, to school holidays or after school hours. No student, under any circumstances, is to leave the school without being officially excused. A student must present a parental authorization slip requesting permission to leave and contain the information stated earlier in the paragraph. Study hall and lunch are not excuses to leave the building and will not be accepted. Disciplinary action will be taken if a student fails to comply. A student cannot sign himself/herself out of school unless the student is emancipated. No student is allowed to leave the building with a person other than a parent or someone listed on their Emergency Medical Form.

Tardy Policy: Tardiness to school is a home problem. Parents are responsible by law to see that their children are in school "regularly and promptly all day, everyday" (Compulsory Education Law). Students reporting to school after 7:45 a.m. should report immediately to the main office to sign in. Prompt and regular attendance is important since it affects student achievement.

Students should bring in a note explaining the tardiness with them, and if this is not possible, a written excuse should be brought to school the next day. Flagrant violations of tardiness will result in further punitive action as well as a parent conference.

Tardiness consequences and interventions will be as follows:

1-2 tardies	Discussion with Administrator
3-4 tardies	Discussion and one (1) detention, phone call Home.
5+ tardies	Discussion, letter to parent, one (1) extended detention, and two (2) weeks loss of driving/riding privilege.

Tardiness to school will accumulate by semester.

Excellent Attendance

Students who have three or fewer legal absences will be recognized by a Certificate of Excellent Attendance.

BOCES Attendance: The following are the only home school reasons to miss BOCES:

1. Senior Picnic
2. Moving up day
3. Field Trips
4. Other exceptions made by administration

Book bags

Students are not permitted to carry book bags, hand bags or purses during regular school hours. All bags must remain in the student's locker during the day. Class materials are to be carried by hand to and from all classes.

Female students may carry purses to restroom and/or lunch only.

Cafeteria

The school cafeteria is maintained as a vital part of the health program of the school. To encourage good nutrition, a well-balanced lunch is offered at a reasonable price.

The lunchroom management, the administration, and your fellow students will appreciate your cooperation in:

1. ***Deposit trash and litter in proper containers.***
2. ***Return trays and utensils to the washing area.***
3. ***Leave table, chair, and floor around your place in a clean condition for others (chairs stay with assigned tables).***
4. ***Do all eating of food and candy in the cafeteria and drinking.***
5. ***Keep lunch lines orderly; do not crowd or cut in line.***
6. ***Talk in normal voice tones, no profanity.***
7. ***Do not throw food or other items.***
8. ***Do not take food from other trays.***
9. ***Stay seated unless you are returning your tray, buying food, or speaking to a staff member.***
10. ***Remain in the cafeteria unless you are summoned to another place or have written, pre-signed pass.***
11. ***You may leave the cafeteria to use the foyer restrooms, ONLY with permission from a staff member.***
12. ***You are expected to be courteous to everyone, especially staff members, and follow all directives from staff members without argument. (Staff members include ALL persons employed by the district).***
13. ***Any habitual problems will result in being "written up", and/or being sent to the "in-school" lunch area.***
14. ***The "Senior door" can only be used by Seniors.***

All food is to be consumed in the cafeteria and not in the academic areas unless otherwise specified or under supervision of a teacher. Food, canned and bottled beverages are not permitted to be consumed in the building. Students with open containers in areas other than the cafeteria will be assigned detention on the first offense and the container will always be confiscated.

Students refusing to comply with cafeteria regulations will not be permitted to eat in the facility, they will be supervised in an alternative setting. Likewise, it is also expected that students follow reasonable requests from all cafeteria supervisors and staff.

Collector/Trading Cards, Playing Cards, i-Pads, Nooks, Electronic Readers, Kindles, Cellular Phones, i-Pods, MP3 Players and Electronic Games

Collector/trading cards, pagers, CD/tape/Ipods/MP3 players, electronic games, and other devices as determined by school administration are not allowed in school during the school day. These items will be confiscated and may be picked up from the principal after school. If a repeat offense occurs, the item will be kept in the office until a parent conference is held. No buying, selling, or trading of anything unless it is part of a bonafide school or non-profit fundraiser! Cellular phones may be taken to school for use after school, but must be turned OFF during school hours, and stored in the student's locker. Phones that are not in the student's locker and turned off, during the school day, will be confiscated. Confiscated phones will generally be returned at the end of the current or following school day for a first offense. If a repeat offense occurs, the item will be kept in the office until a parent retrieves the item, additional school consequences may also be assigned.

The school is NOT responsible for lost or stolen devices.

Character of Students

The character of a person is most difficult to define. One definition is moral or ethical strength. Character is the heart, mind, and soul of a person. Many times a person of high character is put in a position that is not enviable. When it comes to the safety of any one person, or a group of people, students should use good judgment – exercise their character – and take action to rectify the issue immediately. If you know someone who makes an illegal threat or possesses a weapon or drugs, for your safety and the safety of others, please report this information to a teacher, counselor, or administrator – even if it is a friend.

Class Ranking

Class ranking is based on credits earned. All one-credit courses receive the same “weight.” Half or quarter credit courses count half or a quarter of a one-credit course.

College courses and H.S. Physics (listed below) will carry a weighting of 1.1 in figuring G.P.A. for class ranking only.

Please note that because G.P.A. for class rank is based on credits earned, there will be a discrepancy with the quarterly report card G.P.A. which is used to figure honor roll.

College Credit Courses

Qualified seniors have the opportunity to earn up to twenty-five (25) undergraduate credit hours granted by Cayuga Community College or Finger Lakes Community College by enrolling for the full list of course offerings.

CAY 101	College Success	3 credit hours
English 101	Freshman English I	3 credit hours
Math 106	Pre-Calculus	3 credit hours
English 102	Freshman English 102	3 credit hours
Spanish 103	Intermediate Spanish I	3 credit hours

Spanish 104	Intermediate Spanish II	3 credit hours
Math 214	Statistics	3 credit hours
Bus 225	Microcomputer Application	3 credit hours
Math 108	Calculus I	4 credit hours
Geology 110	Physical Geology	4 credit hours
*AP Biology	Biology	4-8 credit hours
*AP U.S. History	US History	3-6 credit hours
*AP English 11	Language and Composition	3-6 credit hours
*AP Chemistry	Chemistry	3-6 credit hours

*Depending on College or University acceptance policy.

This will greatly enrich our curriculum. It will also provide a stimulating experience with positive incentives in a challenging and demanding academic program.

Registration for students meeting the prerequisites will be based on registration procedures for C.C.C. or F.L.C.C. by the first week of school. Cost for program participation is very nominal for each course. Interested students may contact the Guidance Officer for further information. Course availability will be contingent on minimum enrollment.

Computer Use

To be able to use the computer network, students and their parent/guardian need to read, sign, and return the district's Student's Use of Computerized Information Resources form. Students may only use school-owned and maintained computers while on school grounds.

Computer Misuse

The use of any computer hardware and/or software in any inappropriate, fraudulent or destructive manner will not be tolerated, and will be referred to the Principal or Assistant Principal. Examples of misuse include, but are not limited to:

- sending out unauthorized messages
- entering a code-protected file
- plagiarism
- altering of a software program
- vandalizing hardware or software components
- using another person's password
- inappropriate websites (i.e.: pictures, writing, or other material that is sexually explicit, non-educational games, etc).

Students who misuse their computer privileges may be given detention and/or have their computer privileges suspended.

Dances

Dances are scheduled by club advisors through school administrators. In general, dances will be scheduled from 7:00 p.m. until 10:00 p.m.

Guests of enrolled Junior or Senior students may be allowed at the Mid-Winter Semi-Formal and the Junior-Senior Prom with the consent of the Building Principal. The following criteria have been established for guests:

- Guests must be under 21 years of age and at least in 9th grade.

- Guest Pass Application must be completed and turned in by the guest (in person) to the Principal for an informal introduction at least three (3) weeks in advance. Where distance prevents this from happening, the host student should meet with the Principal to discuss the request.
- Special exemptions will be allowed as determined by the building Principal.
- Guest Passes must be obtained before tickets are purchased.
- ***Students must remain inside the building while attending the dance. Students who leave the building will not be re-admitted.***

Detention

Detention is a consequence for various school infractions and inappropriate behaviors.

If a student is not present for office detention, there will be a two-for-one make up for the day missed. If extended detention is assigned and the student is not present, two extended detentions will be assigned. **At this point, if a student misses a re-assigned detention, in-school-suspension or out-of-school-suspension may result. If a student misses a re-assigned detention the student will not be allowed to ride the 2:30 bus run home. The parents will be notified at the end of the school day.**

In-School-Suspension may be assigned in place of detentions. It is the school's position that taking students out of their classes for missing detention is not productive.

Students will generally be given a choice of serving a detention that afternoon or on the following school day.

All owed detentions are current and will be made up. Students and parents need to understand the detentions assigned from 2:33 to 3:25 are part of the academic day. Home obligations and employment are not excusable reasons to miss detentions.

Teacher detention	2:33-3:25
Office detention	2:33-3:25
Extended detention	2:33-5:25

Teacher Detention-Teachers may assign and keep their own detention. If a student does not stay, teachers will contact the parent/guardian by phone and reschedule one or more detentions. A second refusal will cause the student to be referred to the administration for extended detention.

Office Detention-Detention for discipline is a very serious matter. It takes precedence over other activities, such as extra-curricular activities and jobs. When assigned a detention, a student is to report to the assigned room from 2:33 to 3:25 p.m. The student must bring work to do. This is a quiet, working study hall. If a student misses a day (unexcused), there will be a two-for-one make-up for the day missed, and the student may also be subject to administrative action (ISS and disciplinary probation) for insubordination.

Extended Detention-This detention will be assigned when students have violated serious rules or are chronic offenders of any rule. This is also a quiet, working study hall. The rules are the same as Office Detention. Extended detention is run Monday through Thursday. Along with the time after school, students who are assigned extended detention will also lose the privilege of extracurricular activities for that day (disciplinary probation).

Dismissal from School

- A. The school will only release students to their parents or authorized adult designees as per the Emergency Medical Form, which will include parent contact by phone.
- B. Students who ride to school on a school bus must ride home on a school bus unless their parent picks them up at school. Likewise, morning bus students may not walk from the building unless they have prior written parental permission that has been approved by the administration. In this case, once a student leaves school property, they may not come back to ride a late bus.

Dropping a Course

Students may drop a course by following these procedures:

1. **Student must have a conversation with the teacher prior to requesting a Drop Course Form from the teacher of the course you wish to drop.**
2. Fill out the top section.
3. Bring the form home for parent/guardian signature.
4. Bring the form to the Guidance Counselor to sign.
5. Bring form to Main Office for Administrator to sign.
6. This form will then be returned to the Guidance Office.
Students may only drop a course if it is done within the first two weeks of the class. After the first two weeks of class, no drop course slips will be accepted.

Driving Privilege/Riding Privilege

Driving a vehicle to school as a student is a privilege and not a right, as well as riding with another student who has obtained a parking tag. Permission will be granted at the beginning of each school year, at the discretion of the administration. Applications to drive or ride are not valid until a parking tag is issued. Simply completing the application process does not allow a student to drive or ride.

There does seem to be a direct connection between those students with cars and student problems in the upper grades. This is particularly true regarding tardiness to school, skipping school and stray students in the parking lot. For these reasons, a strong stand will be taken to eliminate these problem areas.

A student wishing to drive a motorized vehicle to school must complete an application through the Main Office. The application process is not complete until all forms are signed by all parties and a parking tag is issued. Those deemed eligible for student driving privileges must comply with the rules and regulations as specified on the application. This driving privilege will be suspended for violations, such as speeding, parking violations, being in cars during the school day, leaving the school grounds without permission, arriving late to school, and transporting other students without school authorization.

Violations of these rules may result in the suspension of driving privileges.

If a student continues to drive on school grounds in violation of school directives, the State Police will be notified of the situation and appropriate action will follow. This may include the removal of the car from school property at the students' and/or parents' expense. Students who receive extended detention may lose their privilege for one (1) week (per incident). Students who receive

any type of suspension may lose their driving privileges for up to two (2) weeks (per incident), when they return to regular classes.

When a student rides the bus to school, they must ride a bus home, unless their parent or a person listed on the Emergency Medical Form are present to sign the student out. No other persons may take a student from the building.

If the District provides transportation for student athletes participating in inter-scholastic competition and students attending District sponsored educational field trips, students will not be authorized to use any other means of transportation when participating in these events, unless the Principal or his/her designee authorizes such alternative transportation. The Principal shall require written application prior to approval. As an exception to this policy a coach may release a student to the parent for transportation from an inter-scholastic event upon the receipt of a written request from the parent.

Students may ride to and from school with another student who has been issued a parking tag. An application for this may be obtained from the High School Office.

Drugs, Alcohol and Tobacco Products

The Red Creek Central School District has a zero tolerance policy in terms of drugs and alcohol. Students are prohibited from possessing, selling and/or using drugs, alcohol and **tobacco products** at any time on school grounds and prior to or during school sponsored activities. The use of Drugs, Alcohol, and Tobacco will be dealt with severely including long term suspension.

Eligibility Rules for Athletes and Cheerleaders

SEE CODE OF CONDUCT

Interscholastic Eligibility Rules for Athletes and Cheerleaders

2. Be between the ages of 14 and 19 inclusive
3. Have the approval of parent(s)/guardian and school doctor

8. Be familiar with the rules of the game and the standards of sportsmanship
9. Must be in compliance with Red Creek's Academic Eligibility Policy.

Emergency Dismissals

It is sometimes necessary to close school because of dangerous driving conditions caused by icy roads or snow. If we know this before the buses start out, we will have it announced over the radio. If dangerous conditions develop after school is in session, the children are sent home as soon as the drivers can get to school.

Residents will be notified by several radio stations. **The primary station will be WSYR (570-Syracuse)**. This station will be notified first relative to any emergency school news.

Evacuation of Building

The district plans will be followed in the event that the High School needs to be evacuated. We would appreciate parental cooperation during this time. Students will be released only to their parents or the **person(s)** listed on their Emergency Medical Form. This will be done in an orderly manner which includes following the proper procedures for students signing out.

Fire Drills

The State Education law requires each school to carry out a minimum of 12 fire drills a year while school is in session. In each room in the building a sign is posted giving explicit directions to the students in that room as to which exit they are to use. Students are to file out of the building quietly and in an orderly fashion, lining up in designated areas. No one should ever return to the building until the official signal is given (two bell tones).

These drills are observed annually by representatives from the Red Creek Fire Department. The average time for emptying the building is less than one minute.

General School Regulations

Courtesy: The rules of good conduct are applicable at all times and should be put into practice by everyone.

In the Classroom:

1. Follow all rules each individual teacher sets for the classroom.

In the Halls:

1. Refrain from running, pushing, or walking arm-in-arm, or in groups.
2. Be out of the hallway and in your classroom seats by the time class is scheduled to start.
3. Keep to the right in the halls; leave the center aisle open for students to cross over or for use of guests and faculty. Do not block traffic by standing in groups.
4. Discard trash in containers provided. Keep the school neat and clean by picking up papers from the floor.
5. Leave the school building immediately after dismissal unless under the supervision of a teacher.

In Assemblies and Class Meetings:

1. Show every consideration to a speaker: be quiet, pay attention, and sit properly.
2. Demonstrate respect during the salute to the flag and the singing of our national anthem.

3. Refrain from silly laughing, whispering, booing or whistling.

Student Relationships:

Students at Red Creek Central School are considered to be responsible individuals. As such, they are expected to use discretion and self discipline in exhibiting their feelings towards one another.

In student relationships, displays of affection are normal, healthy behavior. However, it is the district policy that in our school, displays of affection (example: holding hands, kissing, etc.) are beyond the bounds of propriety and therefore, out of place.

Grading System

To keep parents better informed, High School students will receive a report card every ten (10) weeks. Using a traditional schedule, this gives four (4) report periods (one every ten weeks).

Grades are an evaluation of what you have learned and become a part of each student's permanent record. Post-high school educational programs, potential employers, and the various military services are all interested in your high school records.

Final class averages will be based on the following formula;
1st 10-week mark, plus 2nd 10-week mark, plus mid-term exam (if given), plus 3rd 10-week mark, plus 4th 10-week mark, plus final exam or final project or performance, divided by 5 or 6, equals the final average; or

$$\frac{Q1+Q2+Q3+Q4+FE}{5} = \text{Final Average}$$

or

$$\frac{Q1+Q2+ME+Q3+Q4+FE}{6} = \text{Final Average}$$

These are other alternative grading options as well:

$$\frac{Q2+Q2+Q4+Q4+FE}{5} = \text{Final Average}$$

or

$$\frac{Q2+Q2+ME+Q4+Q4+FE}{6} = \text{Final Average}$$

The minimum grade for the first report period is 50 for both 1.0 (full credit) and .5 (half credit) unit courses.

Local credit is based on the final average, which must be 65 or higher. Local credit is only available in courses that are not prescribed by the new New York State Graduation Requirements. Students who fail a Regents examination may receive local credit for a course by averaging the 4 quarter marks, plus the Regents mark, plus the mid-term (if given), with the average being 65 or better.

Incomplete Grade: When a student does not complete all work before the quarter ends, he may if the teacher desires, and if one of the following extenuating circumstances exists, receive an "incomplete" for that subject in that quarter.

- medical or emotional problem preventing completion
- legal absence
- unable to obtain necessary resources due to school error or manufacturer's back order

--a "last week" direction from the teacher to re-do a term paper project or test

Normally students are to have all incomplete work completed within two (2) weeks from the last day of the quarter to complete requirements for a grade. Special circumstances will be approved by the teacher and principal. In the event that such work is not satisfactorily completed, a grade of "0" will be recorded for each assignment.

If a student knows he/she will be absent for an extended period due to illness, accident, etc., special arrangements for making up assignments may be made through the Guidance Department.

Graduation Requirements

Twenty-two (22) units of study are required to obtain a Regents Diploma or an Advanced Regents Diploma. The Local Diploma is awarded only to students who qualify through the Committee of Special Education for the "safety net."

Guidance

Your guidance counselor is concerned with you and the problems which you might encounter as a teenager and young adult. Your counselor is trained in assisting students in coping with peer pressure and emerging social and/or emotional problems. Your counselor is trained to help you help yourself. The talks you have with you counselor are confidential unless you wish to involve other people who may be of help. Of course, your counselor is always available to help with routine situations involving schedule planning, schedule changes, requirements for graduation, vocational plans, college plans, explanation of test scores, working permits, etc.

The Guidance Department is based on the philosophy that everyone counts, that every individual is born with certain aptitudes that should be discovered and developed, and that the individual can become a mature person capable of living successfully as a member of society.

The Guidance Department is actively involved with helping students in grades 9-12 plan their educational program and think about higher education and career opportunities. Students in grades 7-8 will be involved in career awareness activities and discussions with their classroom teachers and guidance counselor, generating some ideas for their high school and/or post secondary pursuits.

The Guidance Department is yours to use during school hours. Parents who wish to meet with guidance counselors may do so during school hours or evenings by appointment.

Harassment/Bullying

Definition: Harassment means the creation of a hostile environment by conduct or by verbal threats, intimidation or abuse that has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional or physical wellbeing; or conduct, verbal threats, intimidation or abuse that reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety; such conduct, verbal threats, intimidation or abuse includes but is not limited to conduct, verbal threats, intimidation or abused based on a person's actual or perceived race, color, weight, national original, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex (Education Law Section 11[7]).

For further information in regards to Harassment and Bullying, please refer to the Code of Conduct section of this handbook under Definitions.

Philosophy: Based on the belief that all students can learn, the Red Creek High School accepts the responsibility to provide a learning environment in the school that is free from

harassment. Red Creek Central does not practice and will not condone harassment in any form.

Any form of verbal or physical harassment will not be tolerated.

Sexual Harassment of Students

The district is committed to safeguarding the rights of all students within the school district to learn in an environment that is free from all forms of sexual harassment. Conduct is deemed to be sexual harassment when it is persistent or persuasive, sexual in nature, unwelcome or offensive, or if it affects the student's ability to participate in or benefit from educational instruction. Conduct that can constitute sexual harassment can include, but is not limited to the following: inappropriate touching, verbal comments, sexual name calling, spreading sexual rumors, gestures, jokes, pictures, blocking a student's movement, rape, or attempted rape.

Sexual harassment can also occur where an employee causes a student to believe that he or she must submit to unwelcome sexual conduct in order to participate in a school program or activity. It can also occur when an employee causes a student to believe that the employee will make an educational decision based on whether or not the student submits to unwelcome sexual conduct.

Any student who believes that he or she has been subjected to sexual harassment, whether by a teacher, other student, or any individual on school grounds or at school activities, should report the alleged misconduct immediately to the building principal. The principal, upon learning of, or having reason to suspect the occurrence of any sexual harassment, will promptly begin an investigation and inform the district's sexual harassment complaint officer.

There are three kinds of sexual harassment:

1. Physical sexual harassment is an unwanted physical act including, but not limited to, grabbing, touching, purposely bumping or rubbing against a person, and impeding a person's movement.
2. Verbal sexual harassment means offensive words and comments including, but is not limited to, comments about body parts, sexual suggestions and sexual jokes.
3. Nonverbal sexual harassment includes, but is not limited to, staring or pointing at a person's body or body parts, making obscene gestures, displaying or placing sexual material in someone's locker or book, and writing names, remarks, or drawings in public places.

The penalty for students engaging in this type of behavior may range from verbal warning to suspension.

Health Office

One of the general objectives of education in Red Creek Central is health. We make every attempt to see that the mental, emotional and physical health of pupils receives attention at all times. It therefore becomes the responsibility of each student to learn and practice good health habits and work with the school health department so that these objectives may be attained. Students who are taken ill during the school day are sent to the nurse, who will then be in complete charge of the patient.

ALL medications (prescriptions and over-the-counter) that are to be taken by student at school must be checked in with the school nurse and administered in her presence: the nurse must receive a doctor's order and written parent permission and medicine from the parent(s) in the original container labeled. Under no circumstances should a student carry any type of medication. This includes aspirin, Vivarin, No-Dose, inhalers, cough syrup, Allerest, etc...unless a doctor's note has been brought to the nurse each new school year.

Physical/Screenings: During the course of the year, every student in Tenth (10th) Grade is required to have a general physical examination by a physician. These 10th Grade students are also required to have a hearing and vision screening. It is highly recommended each student has their physical done at their doctor's office and a copy sent to the school nurse. 10th grade physicals will be done during the school year for anyone who can not have their physical done at their doctor's office. Students must have a physical examination verifying a sports classification prior to trying out for any athletic team. Again, it is highly recommended that students see their personal physician. A physical examination is good for 12 months (one whole year).

Students in grade 9 are required to have their backs checked for scoliosis. If the school nurse does not have a written statement from the student's doctor's office, the school nurse will screen the student's back.

Homework Statement

Homework is an important part of high school life. Students may have some homework everyday. The amount of homework will progressively increase with grade level. Homework is not "busy work". It must have at least one of the following five purposes:

- 1. Practice – to reinforce newly acquired knowledge and skills.***
- 2. Preparation – to prepare for upcoming work and concepts that will be presented in class.***
- 3. Extention – to apply and use new skills or concepts in different situations than they were originally presented.***
- 4. Creativity – to integrate learned information and skills to produce original responses or solutions that demonstrate or reflect understanding of information or skills that have ben learned.***
- 5. Responsibility – to help students organize and budget their time to meet the performance and learning requirements of their course of study. Learning to organize, plan, and budget time to complete tasks (like homework) is an important life skill.***

The effective use of study hall time can significantly reduce the amount of homework that must be taken home. Doing homework on the day that it is assigned allows students to take full advantage of the traditional schedule and get extra help from their teacher during the 2:30 -3:25 activity period prior to the date that their assignment is due.

Honor Roll System

Two rolls of honor for scholastic achievement are compiled at the end of each ten (10) week marking period for the students in Grades 9-12. They are High Honor and Honor. All one-credit courses receive the same weight. **Half or**

quarter credit courses count half or a quarter of a one-credit course. College credit courses taught at Red Creek carry a weighting of 1.1.

HIGH HONOR ROLL is comprised of those students having a combined average of 90 or better for all courses. However, a person with a failing mark or an incomplete mark in one or more courses will not be posted on any honor roll.

HONOR ROLL is comprised of those students having a combined average of 85-89 for all courses. However, a person with a failing mark or an incomplete mark in one or more courses will not be posted on any honor roll.

A student in grades 9-12 who achieved a place on the Honor Privilege List is required to attend regular classes only. He/she may remain in the regular Study Hall or go to the Library (after signing into the Study Hall). The following is a list of additional rewards for Honor Privilege Students:

1. Free admission to all home athletic events.
2. Snack bar privileges during the first two periods for students in grades 9-12 (food to be consumed in kitchen area).
3. Movement in halls from place to place anytime during a period when he/she is not assigned to a credit bearing class.
4. To act as a student host or hostess to new students entering our school system.
5. To act as a resource pool for student input on school policies.

A student must maintain excellent school citizenship to retain membership on Honor Privilege List.

A final standing at the end of each semester will apply to the first five weeks of the next semester.

Identification Cards

Students are issued I.D. Cards early in the school year. They must carry this I.D. Card at all times. It will be used to check out items from the library, student identification at school events, and in the event of emergencies.

In-School-Suspension

Detention and extended detention will be the preferred consequence for disciplinary issues. The purpose is to keep students in class.

In-school-suspension (ISS) will be a consequence given when a student's behavior is severe or repeated. Students will serve this time in a designated room that is monitored by an aide. When in the room, the basic rules are:

1. No talking
2. No idle time
3. All schoolwork sent by teachers must be completed.
4. No sleeping or head down on desk.

The rationale for the room is to take students out of the population-away from friends and classmates. A morning bathroom opportunity will be made available and a basic lunch is served in the room for students who choose not to bring a lunch from home. Social Probation is also enforced for that day. In-school-suspension runs from 7:47 until 3:25. Students who receive in-school-suspension (ISS) may lose their driving privileges for up to two (2) weeks (per incident).

Insubordination/Insolence

Insubordination is refusing to follow the direction of someone in authority; this includes teachers, bus drivers, all support staff and administrators.

When an adult asks something reasonable of a student, it is expected that the student will comply. Examples of such reasonable requests are to “sit in a particular seat”, “report to the office”, “stop an inappropriate behavior”, etc...

Students must follow the directions of adults in the building. If a student feels that the request was unreasonable or unjust they may appeal to the administration.

Insolence is being disrespectfully arrogant.

Both insubordination and insolence will be dealt with severely, including long-term suspension.

Learning Center

The Learning Center is available to all students in the High School for academic assistance. While the teacher of the student's subject area class continues to be the primary source of assistance, the Learning Center can be in addition to that, used when the schedules of the student and teacher do not coincide, or when more intensive help on a short-term basis is needed.

A variety of support services are available, such as improving writing skills, study habits, organizational skills, math concepts, and test preparation. Students may use the Learning Center at any time during the day and/or after school through self-referral, parent referral, or teacher recommendation. The length of time any student uses the Center varies depending on the nature of the problem.

Students are strongly encouraged to make appointments to use the Learning Center so that more appropriate services can be provided. “Walk-ins” will be available on a limited basis. More information is available by contacting the Learning Center or the Guidance Office.

The Learning Center looks forward to assisting students as they strive to reach their full academic potential.

Library Media Center

Our Library Media Center (LMC) is open to students, faculty and community members. As an **Advanced Level Electronic Doorway Library**, we are part of a network of Library Media Centers in the Wayne-Finger Lakes BOCES. Our Library Media Specialist (LMS) is a New York State Certified Teacher and a School Media Specialist. Our LMC subscribes to a number of Online Resources that students may use to complete their research either in school or from home. Resources may be accessed from the Red Creek District Web Page (www.rccsd.org). Click on the Library web page button, then select “Subscription Resources.” ID's and Passwords are available on a bookmark, which students may pick up in the LMC.

Computers in the LMC and Library Lab are for research and instruction. Students may print research or class assignments only. The Acceptable Use Policy (AUP) is enforced in the LMC, as it is for the entire district. While students in good standing may conduct personal research (surf), school computers may NOT be used for online games, cheats, e-mail, IM, chat lines, listening to music, downloading, or drawing. Students may not give out personal information over school computers. Students who are on the Academic Ineligibility List must limit their computer use to academic research in order to improve their academic standing.

Students may come to the LMC from their study halls two periods per day, with their honor pass, agendas signed by their study hall monitor, or by obtaining a pre-signed pass from a subject area teacher. (*Note: Students with teacher-assigned research projects may obtain permission from LMC staff for

additional visits). Both the LMC and Library Lab are open during activity period also.

Since the LMC is a place of study, it is imperative to maintain a quiet working atmosphere. Students are expected to work in a productive manner and to be courteous to other patrons. Students asked to leave due to misbehavior or inappropriate computer activity may lose "library privileges" for up to two (2) weeks, unless accompanied by a teacher or staff member.

Circulation Rules:

- Current issues of magazines and newspapers are available to be read in the LMC.
- Three books or back issues of magazines may be signed out for fifteen (15) school days.
- Books and magazines may be renewed as many times as necessary.
- Most reference books may be checked out overnight, and must be returned before 7:45 a.m.
- There is a free copy machine in the LMC for research copying only.
- Students are financially responsible for books and materials they lose or mistreat.
- Students with overdue materials will not be allowed to sign out additional books or magazines.

Overdue Materials Policy:

Students are given a date-due slip when the book or magazine is borrowed. If the item is not returned by the due date, overdue notices are sent to the student via their first period A-day teacher.

Days <u>Overdue:</u>	Notice <u>#:</u>	<u>Consequences:</u>
1-7	1 st notice	No sign-out
8-14	2 nd notice	No sign-out
15-21	3 rd notice	No sign-out & student will be called to the office
22-28	4 th notice	No sign-out & parents will be contacted
28-36		No sign-out & detention will be assigned until item is returned or payment is made
36+	District	No sign-out & student will be billed by district

Lockers

Lockers are provided to students for their use. Students are responsible for the contents and general conditions of their locker. Your locker should be locked at all times. Students should not share lockers. Do not give your combination to another student. Do not set the lock. **Do not pry open or "pop" your locker.** Do not keep money or valuables in your locker.

In order to make better use of the locker space available, students should keep their lockers neat and orderly. All materials must go into the locker and not on top. Lockers remain the property of the school and thus, may be searched at any time, by school officials.

NOTE: SHARING OF LOCKERS IS NOT PERMITTED! Students may decorate the inside of their lockers with appropriate materials. These must be properly taken care of at the end of the year. Please make no permanent markings. No poster, announcement, petition, etc., may be placed on the outside of lockers unless approved by the administration.

Lost or Stolen Personal Property

The school district is not responsible for lost or stolen items. Please report items that are stolen or lost and the district will help in trying to retrieve the items. Two lockers are provided to all students. Keep your belongings locked at all times and do not share your combination.

Lunch Program

The Red Creek High School Food Service Program has a computerized, pre-paid point of sale cash register system in the cafeteria. In addition to having the ability to purchase lunches with cash on a daily basis, students will have the option of using a prepaid "debit" system. The prepaid "debit" system works as follows:

- An account is set up for each student.
- Parents/guardians can pre-pay into the student's account any amount of money at any time.
- Purchases are simply deducted from the balance on the student's account.
- We can tell you at any time what your child is purchasing.
- When you request a limit in writing, we can limit the amount of money your child spends on "extras" and/or "snacks."
- Students are notified of low-account balances immediately. Notes are sent home as needed.

If you have any questions regarding this program, please contact the Cafeteria Manager at 754-2062.

Military Service

Students and parents should be aware that new laws mandate that schools provide lists of students who are juniors and/or seniors upon request from any armed forces recruiter. The list should include: Names, addresses, phone numbers, and birth dates.

National Honor Society

Selection as a member of the National Honor Society is the pinnacle of student's academic and social achievements in school. This honor, recognized throughout the nation, is both the public recognition of accomplishment and the private commitment to continued excellence on the part of the member. To be a member is an honor that will stay with you for a lifetime and can open many doors to your future.

Eligibility for membership into the National Honor Society is based upon scholarship, leadership, character, and service. Selection to the National Honor Society is a privilege, not a right.

The criteria for a scholarship are a minimum grade point average (GPA) of 90%.

The leadership role includes participation in curricular, co-curricular, and community activities, and the offices held in them.

Service is generally considered to be those actions undertaken by the student which are done with or for others without material compensation to the student.

A person of character demonstrates the following qualities: respect, responsibility, trustworthiness, fairness, caring, and citizenship.

Students in grades 10, 11, and 12 are eligible to be considered for membership. The selection procedure is as follows.

Students with a cumulative GPA of at least 90% for grades 9 and 10 are identified. Once the prerequisite GPA is met, those students are evaluated on the remaining three criteria of leadership, character, and service.

In order to facilitate the evaluation, the students are required to complete a Student Activity Information Form listing their co-curricular and community activities. Faculty Evaluation Forms are distributed to the teachers to gain additional input on the students.

The five member Faculty Committee of the NHS meets and discusses the merits of each student making the final selections based upon the GPA and the information about leadership, service, and character gleaned from the Student Activity Form, and the Faculty Evaluation Forms. Students sworn into the National Honor Society may be removed for failing to abide by the criteria of the National Honor Society.

Passes

Each student is provided with a Student Assignment Book on the first day of school. In the back of the book are pages that are used as passes. The hallway pass system will be exclusively from these pass pages. If a student does not have their assignment book – **NO PASS WILL BE ISSUED**. Students should never borrow or share a pass book. Students not following these guidelines will be subject to school consequences.

Physical Education

By law, every student is required to take a regular physical education class scheduled by the Guidance Office. **A physical education uniform is necessary for gym classes in grades 4-12. This consists of shorts, T-shirt, sweat pants, sweat shirt, gym shoes.** For safety reasons ALL jewelry must be removed. The physical education teacher will have a secure place for any valuables.

Locks and lockers will be provided for all students in grades 6-12. **DO NOT leave anything unlocked!** All students who actively participate in the physical education class are encouraged to take showers.

Physical education classes must remain in the gymnasium or locker room until the scheduled time to change classes.

Temporary excuses from participating in physical education classes must be obtained from the nurse. All permanent excuses from participating in physical education classes must be issued on the authorized forms and signed by the student's physician. Students should contact the nurse for the proper forms for a permanent excuse from physical education. A student medically excused from gym class may be placed into an adaptive physical education class or have alternate activities assigned by their physical education teacher to fulfill their PE requirement.

Students who fail to change clothes and actively participate in their Physical Education class will be ineligible for participation in extracurricular athletic events for that specific day.

Plagiarism/Cheating

There is a clear expectation that all students will perform assignments with honor and integrity. Students who plagiarize or cheat are considered to have committed a serious infraction. Cheating is any attempt to circumvent the evaluation and learning process including but not limited to plagiarism, aiding

and/or abetting another student to falsely earn a grade, and the use of any device or material to gain advantage.

Students may receive up to and including a zero when a teacher determines that a student has cheated and a referral will be placed in the students' file.

Posters/Notices

Students MUST acquire written approval from school principal prior to hanging/posting/putting anything up anywhere in the building.

Promotion Policy

Grade level is determined by registration, English class, and total units earned. See requirements below. Graduation from High School is a cumulative procedure with units being earned over a four-year period in high school. Students pass or fail subjects, not necessarily grades. The decision at this level is strict – 65 or above is passing, below 65 is failing. The chart shown below will show the requirements to be admitted to any given grade level in the high school.

The following are minimum requirements:

Ninth Grade	Must be registered in a least 3 high school subjects, including English 9.
Tenth Grade	Must have completed at least 4 units of high school work and be registered in English 10, Social Studies 10, and carry at least 3 other units of work.
Eleventh Grade	Must have completed at least 9 units of high school work and be registered in English 11 or Social Studies 11, and at least 4 other units of work.
Twelfth Grade	Must be enrolled in all the necessary subjects to complete the graduation requirements by June.

Special programs of students which do not conform to the above outline must be approved by and worked out in cooperation with the guidance counselor and the building principal.

Any course which is failed must be repeated if it is a required course, such as English, Social Studies, General Science, Health, etc.

Respect for Students and Staff

It is a universally held precept that one should treat others, as they would want to be treated. No hassles, no arguments, no fights. With this in mind, it is expected that all members of our school community will be respectful to each other at all times. Be very cautious of hearsay information (rumors). This causes problems because often the information is inaccurate or people intentionally want to make unnecessary trouble for others. Should a problem arise, it is expected the initiative will be taken to act in a mature manner by seeking the appropriate support (e.g. another teacher, counselor, administrator, etc.) when dealing with difficult situations. Disrespectful language, gestures and/or physical abuse will be dealt with quickly and firmly.

Remember, staff members have your best interest at heart, and at the principal's direction, they are obliged not only to follow all school rules

themselves, but to encourage and motivate you to follow those rules as well. This is good training for whatever career you choose.

School Publications

There are two outstanding publications in our school, the Centralite Yearbook and "Sudden Light:"

The Yearbook, Centralite, edited by a small staff of seniors selected each year, serves as a record of student activities for the year. In it will be found individual and group pictures. The Centralite Yearbook strives to show, through write-ups and pictures, all-important events for the year. Work begins on publication in May of the preceding year and is carried on throughout the following year until it is presented to the seniors on Moving-Up Day. The student body receives their books the following day.

Sudden Light is open to all students who are interested in participating in the publication.

Smoking on School Property

No student will be allowed to carry cigarettes, other tobacco products and/or smoking paraphernalia on the grounds (including cars) or any school building at any time. Violations of this rule will be treated as a serious discipline case.

Also, students who are in the school building of another school district are not to smoke in these buildings as per New York State Law. This is a matter of courtesy and cooperation with other school districts.

Cigarettes, tobacco, and/or smoking paraphernalia should not be brought to school by any student. If they are noticed on the person of any student, they may be confiscated. The possession of cigarettes, tobacco and/or smoking paraphernalia will be deemed the same, as having violated the no-smoking rule and the person will be punished accordingly.

Social Probation

Social Probation is a consequence that may be assigned as a result of a student's inappropriate behavior. A student on social probation may be prohibited from attending/participating in school activities. Also, student drivers/riders may lose that privilege during social probation.

Sportsmanship-School Spirit

School spirit may be divided into three categories:

1. **Courtesy:** Toward teachers, fellow students, and the officials of school athletic events
2. **Pride:** In everything our school endeavors to accomplish and has accomplished
3. **Sportsmanship:** The ability to win and lose gracefully

School spirit means loyalty to all functions of the school. Loyal students support their school and do their utmost to keep their scholastic and activity standards at the highest possible level.

Each student should follow these suggestions. They will serve as a guide to carrying out his responsibilities in promoting good sportsmanship:

1. Consider the visiting team and fans, as well as the officials, as guests and treat them as such;

- 2 Respect the rights of all spectators;
- 3 Support your cheerleaders with enthusiasm;
- 4 Be modest in victory and gracious in defeat;
- 5 Consider it a privilege and duty to encourage everyone (players and spectators) to live up to the spirit of the rules of fair play and sportsmanship.

Sports Passes

2016-17 ticket prices for home junior varsity and varsity soccer, wrestling, and basketball athletic events will be \$3.00 for adults and \$1.00 for students in grades 6-12.

Annual sports passes are available. The cost of a Student Pass is \$5.00, Adult Pass \$15.00, and Family Pass \$25.00. A sports pass is good for admission to all Red Creek home athletic events for the **2016-17** school year.

All passes can be obtained at the High School Main Office or during boys' or girls' athletic events.

Sports Study Hall

Sports study hall is held in the LGI from 2:35 until 3:25 p.m. Only students who are members of a team, which is practicing or competing that day, are allowed in sports study hall. This is a time for students to work on academic studies and homework. Drinks and snacks are available to help with nutrition before the athletic activity. Basic rules include quiet talking and staying seated. **All members of current sports teams must either sign in at the start of sports study hall or turn a pink pass into the office at 3:25 on their way to practice.**

Student Council

The Student Council are elected groups which lead and govern the student associations of grades 9-12. Each class and organization elects representatives to the Council. Each spring the student body elects the officers of the organization. The Student Councils meet once a month and the meeting takes precedence over all others. The Student Council is a democratic group devoted to promoting good citizenship, the general welfare of the school and good school spirit. The Student Council will conduct and assist in many activities during the year, working with the administration to improve our school. The Student Council will meet on a regular basis.

The Student Review Team meets on as needed basis to discuss students who are having unusual difficulty with academics, behavior, or attendance. The student may be referred by a teacher, a counselor, the administration, a parent, or by him or herself. The SRT consists of an administrator, school counselor, the school psychologist, a resource teacher, a reading teacher, a classroom teacher, and the school nurse. The Team listens to information from all parties having knowledge about the student and then suggests a plan of action to assist the student. The Red Creek Central School District offers free public education to all school age students in the district regardless of race, sex, national origin or handicapping conditions.

As members of the school community, students are entitled to certain rights that are defined for their awareness and protection. Students also have certain responsibilities to themselves, to fellow students, to their teachers and to other school personnel.

It shall further be the policy of the Red Creek Central School District to provide early intervention in dealing with behavioral issues by screening for causative elements and factors; and by then providing corrective measures to bring about positive change.

Actions Not Defined

The Illustrations of Prohibited Student Conduct is not meant to be all-inclusive. Any student conduct not defined in this policy, but which constitutes a violation of the statutes of the State of New York or any established rule or regulation of the Red Creek Central School District or any other rule, shall also be punishable by penalty in accordance with the guidelines established in this policy.

Reporting Violations

All students are expected to promptly report violations of the code of conduct to a teacher, guidance counselor, the building principal or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, building principal, the principal's designee or the superintendent.

All district staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, and or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapons, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his or her designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone. The notification must identify the student and explain the conduct that violated the code of conduct and constituted a crime.

Guidelines for Consequences of Prohibited Student Conduct

It is the belief of the Red Creek Central School District that inappropriate student behavior must be dealt with in a fair, firm and consistent manner. Consequences for misconduct must be appropriate for the infraction. To accommodate this philosophy of progressive discipline, the levels of acceptable consequences are defined through the following listing:

- Oral warning to student by teacher
- Oral communication by teacher to parent
- Written or oral warning from administrator to student and/or parent
- Written notification to parent
- Parent conference
- Counseling
- Probation
- Reprimand
- Detention
- Extended Detention
- Suspension from transportation
- Suspension from athletic participation
- Suspension from social or extracurricular activities
- Suspension of other privileges
- Exclusion from a particular class

In-School suspension
Involuntary transfer
Out of School suspension
Superintendent conference
Superintendent's hearing (long-term suspension)
Referral to outside agency (police, court, social services, probation, etc. as determined by staff or law)
Depending upon the nature of the violation, it is the Board's desire that student discipline be progressive, i.e., repeat violations may merit a more severe penalty than previous violations. It is also the Board's desire that an employee or agent take into account all relevant factors in determining an appropriate penalty. The above penalties may be imposed either alone or in combination.

Immediate Law Enforcement Notification Provisions

Serious Violent Incident: An incident of violent criminal conduct that is, or appears to be, life threatening and warrants the evacuation of students and/or staff because of an imminent threat to their safety or health, including, but not limited to, riot, hostage-taking, kidnapping and/or the use or threatened use of a firearm, explosive, bomb, incendiary device, chemical or biological weapon, knife, or other dangerous instrument capable of causing death or serious injury.

Law Enforcement Notification provisions, other than a Serious Violent Incident, may include instances involving illegal weapons (firearms, knives, clubs, etc.), illegal substances, serious violent threats or actions as determined by the principal.

TEACHER REMOVAL OF DISRUPTIVE STUDENTS

A disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A disruptive student can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In many instances the classroom teacher can control disruptive student behavior by using good management techniques. Occasionally, however, it may be necessary for a teacher to remove a disruptive student from the classroom to ensure that the other students continue to learn.

A classroom teacher may remove a student from each class for up to one day with a block schedule or two days on a regular schedule if the teacher determines that the student is disruptive. The removal from class applies to the class of the removing teacher only.

If the student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student, before the student is removed, with an explanation for why he or she is being removed. The student must also be given the opportunity to present his or her version of the relevant events. Only after this informal discussion may a teacher remove a student from class.

If the student does pose a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within one full school day.

The teacher must complete a district-established referral form and meet with the Principal as soon as possible, but no later than the end of the school day, to

explain the circumstances of the removal and to present the referral forms. If the principal is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal, or his/her designee, prior to the beginning of classes on the next school day.

Within the school day after the student's removal, the Principal or Principal's designee must notify the student's parent, in writing, that the student has been removed from the class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the Principal or the principal's designee to discuss the reasons for the removal and behavior modification(s) to remedy the cause for the removal. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice by the day after the student's removal at the last known address for the parent. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

If, at the informal meeting, the student denies the charges, the Principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within two school days of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent, teacher, and principal.

The Principal or the principal's designee may overturn the removal of the student from class if the Principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The Principal or his/her designee must make a determination as to whether to overturn the removal before the close of business on the day after the day of the informal hearing. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the Principal makes a final determination, or the period of removal expires, whichever is less. At the teacher's discretion, he or she may rescind the removal prior to the expiration of the full period of removal. The Principal will discuss with the teacher involved the action taken prior to student reentering the classroom.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log (on a district provided form) for all cases of removal of students from his/her class. The Principal must keep a log of all removals of students from class. Removal of a student with a disability may, under certain circumstances, constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the Principal or the Chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

Nothing in this section of the code of conduct abridges the customary right or responsibility of a principal to suspend a student. Further, nothing in this code abridges the customary right and responsibility of a teacher to manage student

behavior in the classroom. Short-term, time-honored classroom management techniques such as "time out" in an elementary classroom or in an administrator's office are not considered removals from class. The removal process should not become a substitute for good classroom management.

Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health, welfare of others, and/or as defined by the student handbook or determined by the principal.

The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary. Suspension from school means a student is temporarily excluded from school buildings, school grounds, and any school-sponsored activities (on or off school grounds)

a. Short-term Suspension from School (5 days or fewer)

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to proposed suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of

disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the board of education with the district clerk within 10 business days of the date of the superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b. Long-Term Suspension from School (more than 5 days)

When the superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

c. Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

1. Students who bring weapons to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In

deciding whether to modify the penalty, the superintendent may consider the following:

- The student's age.
- The student's grade in school.
- The student's prior disciplinary record.
- The superintendent's belief that other forms of discipline may be more effective.
- Input from parents, teachers, and/or others.
- Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom.

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

d. Home Tutoring

For both short and long-term suspensions, a student of compulsory school age will be eligible for appropriate alternative instruction from the district, which may include home tutoring.

Referrals

1. Counseling

The Guidance Office shall handle all referrals of students to counseling.

2. PINS Petitions

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law §221.05. A single violation of §221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualified for juvenile offender status under the Criminal Procedure Law §1.20 (42).

DISCIPLINE OF STUDENTS WITH DISABILITIES

The board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations. This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A. Authorized Suspensions or Removals of Students with Disabilities

1. If a student with a disability is assigned an In-School Suspension (ISS), the administration will make provisions for a certified teacher or teaching assistant to continue the student's education program while in ISS.
2. For purposes of this section of the code of conduct, the following definitions apply.

A "suspension" means a suspension pursuant to Education Law §3214.

A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.

An “IAES” means a temporary educational placement for a period of up to 45 days, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student’s current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

3. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a. The board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
 - c. The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change or placement.
 - d. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function, or displays misconduct relating to serious bodily injury.
- 1) “Weapon” means the same as “dangerous weapon” under a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury.
- 2) “Controlled substance” means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
- 3) “Illegal drugs” means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
4. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student

with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

B. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a. for more than 10 consecutive school days; or
 - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.
However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspension or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Special Rules Regarding the Suspension or Removal of Students with Disabilities

1. The district's Committee on Special Education shall:
 - a. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitute a disciplinary change in placement.

2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
 - a. The superintendent, building principal, or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
 - b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:
 - 1) conducted an individual evaluation and determined that the student is not a student with a disability, or
 - 2) determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is not basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

3. The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.

6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

D. Expedited Due Process Hearings

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:
 - a. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
- 1) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
- 2) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

E. Referral to law enforcement and judicial authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

School Bus Conduct Rules and Regulations

The most important element of school bus transportation is the safety of students. In order to achieve a safe and efficient system, drivers must have the cooperation of all student riders. The Board of Education has established certain rules and regulations which must be obeyed in order to ensure safety.

1. The school bus driver is completely in charge when transporting students. All instructions given shall be followed and students will cooperate with the driver.
2. Conduct on the school bus shall be of the same high standard as expected in the classroom. All school rules in effect while in the classroom shall also apply while students are on the bus. Students shall be courteous to fellow riders and their bus driver. Such acts as fighting, punching, obscene talk or gestures, harassment, and discrimination will not be tolerated and will be cause for disciplinary action.
3. Students must be ready and on time for boarding the bus each morning. Drivers cannot wait for each student in order to maintain a strict time schedule. Drivers have been instructed not to wait for students. **PLEASE BE READY!**
4. Students shall wait until the bus comes to a full stop before entering the roadway to board the bus or before leaving their seat to get off the bus.
5. Students should use extreme caution when getting on or off the bus. When crossing the highway, wait for the driver to signal to do so and cross 10 feet from the front of the bus.
6. Students shall always take a seat upon boarding a bus and remain seated at all times while the bus is in motion. If a seat is not available, students should hold on to the back of a seat with both hands and face forward.
7. Bus drivers have the authority to assign seats at any time.
8. Students are to keep arms and heads inside of the bus at all times. Bus windows shall be kept shut unless permission to open them is given by the bus driver. Throwing objects out of bus windows is not tolerated.
9. Possession of illegal drugs, alcohol, and cigarettes, smoking or the use of tobacco, or taking medication by students on the school bus is strictly prohibited at all times, unless approved by the school nurse. Eating of food and drinking of beverages is not permitted on the bus as well.
10. Glass items, knives, and other dangerous objects are prohibited on the bus. Also, bulky items, pets and/or animals should not be brought on the bus unless with permission granted ahead of time by the principal.
11. Buses must be kept clean at all times. Each student has the duty and responsibility to see that he or she does not litter.
12. Students shall remain on the bus until it arrives at school or at home. Drivers will not let students off upon request unless a pass is obtained from the building principal for a change in riding status and given to the driver. A parent's written request is required for any change from one bus to another or for a change in pick-up or drop-off point. The request from the parent must be presented in the school office before noon on the day it is to be used.

The foregoing rules are made for the safety and benefit of all students. Unfortunately, there may be students who will not or do not abide by the rules. In the event of violations, the Board of Education has established the following discipline system:

- a) Oral warning by the Bus Driver and Head Bus Driver notification.
Parent notification by bus driver, if necessary.

- b) Written referral to the Head Bus Driver. If disciplinary action or suspension is warranted, parent and Building Administrator notification.
- c) Multiple incidents will result in a parent conference with school administrator in order to determine eligibility for continued transportation.
- d) School authorities may remove a student's bus privileges at any time if the offense is serious enough to warrant such action, regardless of the number of violations. Examples include, but are not limited to, fighting, repeated offenses and insubordination.
- e) Exclusive of the oral warnings, parents will be notified of bus incidents and violations.
- f) Bus drivers are allowed to deny a student the privilege of riding for one day pending investigation of conduct by the building principal and/or the Head Bus Driver. Head Bus Driver must be notified immediately by the bus driver in cases of one day student removal, and the bus driver must notify parent on the same day prior to denying the student of riding privileges.

Bus Drills

To assure bus safety, the New York State Education Department requires three (3) school bus drills during each school year. The drills involve instruction by the bus driver as to methods of exit from the bus in case of accident, location and use of fire extinguishers, and location of first aid kits. Other safety factors, such as crossing, roadways, seating, behavior, as well as boarding and exiting exercises, are reviewed and conducted.

Dissemination of Code of Conduct

The board will work to ensure that the community is aware of this code of conduct by:

Providing copies of a summary of the code to all students at a general assembly held at the beginning of each school year.

Making copies of the code available to all parents at the beginning of the school year.

Mailing a summary of the code of conduct written in plain language to all parents of district students before the beginning of the school year and making this summary available later upon request.

Providing all current teachers and other staff members with a copy of the code and a copy of any amendments to the code as soon as practicable after adoption.

Providing all new employees with a copy of the current code of conduct when they are first hired.

Making copies of the code available for review by students, parents and other community members.

The board will sponsor an in-service education program for all district staff members to ensure the effective implementation of the code of conduct. The superintendent may solicit the recommendations of the district staff, particularly teachers and administrators, regarding in service programs pertaining to the management and discipline of students.

The board of education will review this code of conduct every year and update it as necessary. In conducting the review, the board will consider how effective the code's provisions have been and whether the code has been applied fairly and consistently.

The board may appoint an advisory committee to assist in reviewing the code and the district's response to code on conduct violations. The committee will be made up of representative of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Before adopting any revisions to the code, the board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.

The District shall post the Code of Conduct and any amendments on the District's website. The District shall file a copy of its Code of Conduct with the Commissioner not later than 30 days after adoption.

ATHLETIC TRAINING RULES

PHILOSOPHY: The interscholastic athletic program is an integral part of the entire educational process in the Red Creek Central School District. Our goals are to develop a competitive athletic program and to instill quality athletic education and lifetime values. These values include sportsmanship, wellness, and high academic achievements for the development of lifetime skills, which will ensure that students/athletes become productive members of society.

CITIZENSHIP: It is expected that students/athletes demonstrate citizenship both in and out of the contest involved. As a representative of the school, community and family the student/athlete is to conduct themselves within appropriate standards set forth by Red Creek Central School District, Wayne County and the State of New York.

SPORTSMANSHIP: Sportsmanship involves appropriate respect towards coaches, fellow players, opponents, officials and spectators. Disregard for citizenship and/or sportsmanship can result in disciplinary action from the coach, athletic director, principal or superintendent dependent on the severity of the behavior.

CODE OF CONDUCT: The Red Creek Central School District believes that participation in extracurricular activities such as athletics is a privilege and when a student/athlete chooses to become a member of a team he/she must abide by certain rules, responsibilities, and guidelines that accompany participation in such a program. Student/ athletes will adhere to the rules set forth by the Red Creek School District, Wayne County League, Section V, and the State of New York. All policies of the Red Creek Central School District and the athletic department, including academic eligibility standards, are to be followed both on and off school property.

The consequences for violating the code of conduct will be based on the nature of the misconduct, the level of severity, and the number of times it has occurred.

ATTENDING PRACTICES: The New York State Public Athletic Association outlines the required number of practices needed prior to entering a scrimmage and/or contest for each sport. Each coach will set up his or her own rules on practice requirements beyond the New York State mandated requirements. Coaches will provide for students/athletes a practice schedule, practice attendance requirements, general team rules and consequences for rule violations.

To maintain the appropriate physical conditioning student/athletes under disciplinary review will continue to attend any practice or meeting associated with the sport unless otherwise directed by the principal and/or athletic director. Student/athletes are expected to be at every practice and game. Missing practice or game may be reason for suspension from contests based upon the coach's discretion. It is suggested that potential conflicts be discussed with the coach prior to the conflict.

QUITTING A TEAM: If a student athlete finds a need to terminate participation on an athletic team after the roster is posted, a conference between the coach, the student, the parent, and the Athletic Director will be held. The Athletic Director will determine what is best for the student and/or the school. This could result in a continuation of participation, the dropping of the activity without loss of eligibility, or ineligibility for up to one twelve month period.

RETURN OF EQUIPMENT: All school-issued equipment/uniforms must be returned to the coach of that particular sport. Failure to turn in equipment or to compensate the district will result in the inability to participate in athletics for the next sports season.

INFRACTIONS: The use of alcohol, tobacco (in any form), illicit drugs (marijuana, cocaine, steroids, performance-enhancing, amphetamines, hallucinogens, and all other controlled substances) is covered under the school's code of conduct. Conduct such as hazing, theft, fraud, gambling, destruction of property, vandalism, fighting, illegal or unauthorized possession, use or sale of firearms or other dangerous weapons, or illegal actions or behaviors is also covered under this code.
