District Budget for Federal and State Programs

Background

The *No Child Left Behind (NCLB) Act of 2001* embodies four key principles:

- stronger accountability for results;
- greater flexibility and local control for states, school districts, and schools in the use of federal funds;
- enhanced parental choice for parents of children from disadvantaged backgrounds; and
- a focus on what works, emphasizing teaching methods that have been demonstrated to be effective.

(Text of the legislation can be found at <http://www.cde.ca.gov/nclb/fr/>.)

In May 2002, California's State Board of Education (SBE) demonstrated the state's commitment to the development of an accountability system to achieve the goals of NCLB by adopting five **Performance Goals**:

- 1. All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics, by 2013-14.**
- 2. All limited-English-proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- 3. By 2005-06, all students will be taught by highly qualified teachers.**
- 4. All students will be educated in learning environments that are safe, drug-free, and conducive to learning.**
- 5. All students will graduate from high school.**

In addition, 12 performance indicators linked to those goals were adopted (see Appendix A), as specified by the U.S. Department of Education (ED). Performance targets, developed for each indicator, were adopted by the SBE in May 2003.

Collectively, NCLB's goals, along with the performance indicators and targets, constitute California's framework for federal accountability. This framework provides the basis for the state's improvement efforts, informing policy decisions by SBE, and implementation efforts by the California Department of Education (CDE) to fully realize the system envisioned by NCLB. It also provides a basis for coordination with California's Legislature and the Governor's Office.

Since 1995, California has been building an educational system consisting of five major components:

- rigorous academic standards
- standards-aligned instructional materials
- standards-based professional development
- standards-aligned assessment
- an accountability structure that measures school effectiveness in light of student achievement

As a result, California is well positioned to implement the tenets of NCLB.

State and federally funded initiatives aimed at improving student achievement must complement each other and work in tandem in order to have the greatest impact. In California, the state and federal consolidated applications, competitive grants, the state accountability system, the Categorical Program Monitoring process, the single **plan for student achievement, local educational agency (LEA) plans**, professional development opportunities, and technical assistance all are moving toward a level of alignment and streamlining. The result of this consolidation will be a cohesive, comprehensive, and focused effort for supporting and improving the state's lowest-performing schools and appropriate reporting mechanisms.

Descriptions of the Consolidated Application, the Local Education Agency Plan, the Single Plan for Student Achievement, and Categorical Program Monitoring

In order to meet legislative requirements for specific state and federal programs and funding, California currently employs four major processes: the Consolidated State Application, the Local Educational Agency Plan, the school-level Single Plan for Student Achievement, and Categorical Program Monitoring. **California is moving toward more closely coordinating and streamlining these processes to eliminate redundancies and make them less labor intensive for LEAs, while continuing to fulfill all requirements outlined in state and federal law.**

Below is a brief description of the ways in which these various processes currently are used in California.

The Consolidated Application (ConApp)

The ConApp is the **fiscal** mechanism used by the California Department of Education to distribute categorical funds from various state and federal programs to county offices, school districts, and charter schools throughout California. Annually, in June, each LEA submits Part I of the ConApp to document participation in these programs and provide assurances that the district will comply with the legal requirements of each program. Program entitlements are determined by formulas contained in the laws that created the programs.

Part II of the ConApp is submitted in the fall of each year. It contains the district entitlements for each funded program. Out of each state and federal program entitlement, districts allocate funds for indirect costs of administration, for programs operated by the district office, and for programs operated at schools.

The Local Educational Agency Plan (LEA) Plan

The approval of the LEA Plan by the local school board and the State Board of Education is a requirement for receiving federal funding subgrants for NCLB programs. The LEA Plan includes specific descriptions and assurances as outlined in the provisions included in NCLB. In essence, LEA Plans describe the actions that LEAs will take to ensure that they meet certain **programmatic** requirements, including student academic services designed to increase student achievement and performance, coordination of services, needs assessments, consultations, school choice, supplemental educational services, services to homeless students, and other services as required. In addition, LEA Plans summarize assessment data, school goals and activities from the *Single Plans for Student Achievement* developed by the LEAs schools.

The Single Plan for Student Achievement (SPSA)

State law requires that school-level plans for programs funded through the Consolidated Application be consolidated in a *Single Plan for Student Achievement (SPSA)* (*Education Code* Section 64001), developed by school site councils with the advice of any applicable school advisory committees. LEAs allocate NCLB funds to schools through the Consolidated Application for Title I, Part A, Title III (Limited English Proficient), and Title V (Innovative Programs/Parental Choice). LEAs may elect to allocate other funds to schools for inclusion in school plans. The content of the school plan includes school goals, activities, and expenditures for improving the academic performance of students to the proficient level and above. The plan delineates the actions that are required for program implementation and serves as the school's guide in evaluating progress toward meeting the goals.

Role of School Site Council

The California *Education Code (EC)*¹ requires the school site council to develop a SPSA for ConApp programs operated at the school or in which the school participates. In addition, Pupil Retention² and School and Library Improvement Block Grant programs³ operated at the school must be included in the SPSA. The school site council must approve the plan, recommend it to the local governing board for approval, monitor implementation of the plan, and evaluate the results. At least annually, the school site council must revise the plan, including proposed expenditures of funds allocated to the school through the ConApp, and recommend it to the local governing board for approval.

Composition of School Site Council

Composition of the school site council is specified in the California *Education Code* as follows:

- The school site council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school;⁴ parents of students attending the school selected by such parents; and, in secondary schools, students selected by students attending the school.
- **At the elementary level**, the school site council shall be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel; and (b) parents or other community members selected by parents. In schools with fewer than three teachers, this requirement may be met by establishing a school site council that is composed of equal numbers of school staff and parents or other community members selected by parents.
- **At the secondary level**, the school site council shall be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) equal numbers of parents or other community members selected by parents and students.
- **At both the elementary and secondary levels**, classroom teachers shall comprise the majority of persons represented under subdivision (a) of this section.

¹ *EC* Section 64001(a), (d)

² *EC* Section 41507

³ *EC* Section 41572

⁴ For example, counselors, psychologists, social workers, nurses, instructional aides, library personnel, and clerks employed at the school

Categorical Program Monitoring (CPM)

State and federal law require CDE to monitor the implementation of categorical programs operated by local educational agencies. This state-level oversight is accomplished in part by conducting on-site reviews of eighteen such programs implemented by local schools and districts. Through CPM, the state monitors one-fourth of all school districts each year. Monitoring visits are conducted by state staff and local administrators trained to review one or more of these programs. The purpose of the review is to verify **compliance** with requirements of each categorical program, and to ensure that program funds are spent to increase student achievement and performance.

Development Process for the Single School District (SSD) Plan

LEAs must develop a single, coordinated, and comprehensive plan that describes the educational services for all students that can be used to guide implementation of federal- and state-funded programs, the allocation of resources, and reporting requirements. The development of such a plan involves a continuous cycle of assessment, parent and community involvement, planning, implementation, monitoring, and evaluation. The duration of the Plan should be five years. ***The Plan should be periodically reviewed and updated as needed, but at least once each year.***

This SSD Plan template is an effort to further align and streamline the planning requirements for single school districts, which includes direct-funded charter schools. This document incorporates the required elements of both the SPSA and the LEA Plan. Use of this template meets all state and federal requirements for plans for categorical programs. More detailed information regarding the SPSA can be found at <http://www.cde.ca.gov/nclb/sr/le/singleplan.asp>. The complete guide and template for the LEA Plan can be found at <http://www.cde.ca.gov/nclb/sr/le/>.

In developing the SSD Plan, the SSD will review its demographics, test results, performance, and resources. Given that the majority of such information is readily available in the School Accountability Report Card (SARC), the Standardized Testing and Reporting (STAR) performance results, the Academic Performance Index (API) results, and other data sources, the SSD will find the data easy to access via the Internet. (See Appendix B for links to each of the web sites containing student and staff demographic information, SARC, STAR, and API data.) **The SSD is expected to gather and review information from these resources and use it to inform the planning process.**

The SSD Plan can serve as a summary of all existing state and federal programs and establish a focus for raising the academic performance of all student groups to achieve state academic standards. In the context of this Plan, improvements in instruction, professional development, course offerings, and counseling and prevention programs are means of achieving specific academic and support services goals for all groups of

students, including identified under-performing student groups. **State and federal laws require that school site administrators, teachers, and parents from the SSD (which includes direct-funded charter schools) must be consulted in the planning, development, and revision of the SSD Plan.**

The SSD Plan can be completed through the use of a single template following the six steps outlined below. Because the SSD Plan combines the LEA Plan with the SPSA, it becomes the responsibility of the school site council to develop, approve and recommend the SSD Plan to the local governing board for approval.

Step One: Measure the Effectiveness of Current Improvement Strategies

Analyze Student Performance

Conduct a comprehensive data analysis of student achievement, including multiple measures of student performance. Identify all relevant assessments and apply thoughtful analyses of current educational practices to establish benchmarks aimed at raising academic performance for all students, especially identified student groups.

Tables of data for your schools and district are available online:

- API Reports - <http://www.cde.ca.gov/ta/ac/ap>
- Standardized Testing and Reporting (STAR) data - <http://www.cde.ca.gov/ta/tg/sr>
- LEA Accountability Reports of Annual Measurable Achievement Objectives (AMAOs) for English learners - <http://www.cde.ca.gov/sp/el/t3/acct.asp>
- Adequate Yearly Progress (AYP) Reports – <http://www.cde.ca.gov/ta/ac/ay>

Analyze Current Educational Practices, Professional Development, Staffing, and Parental Involvement

Identify, review, and analyze data and related information on factors such as educational practices, parent and community involvement, professional development, support services, and resources that have an impact on student learning.

Over the past several years, CDE has developed several self-assessment tools that schools and districts can use to evaluate these factors and others needed to support academic student achievement:

- The Academic Program Survey (APS) – school-level survey of status of implementation of the nine essential program components (not required for single school districts)

- District Assistance Survey (DAS) – district-level survey of status of implementation of nine essential program components
- Least Restrictive Environment Assessment – examines educational practices for students with disabilities
- English Learner Subgroup Self Assessment (ELSSA) – designed to improve outcomes for English learners

These tools can be found under Improvement Tools in the Virtual Library on the CDE web site at <http://www.cde.ca.gov/ta/lp/vl/improvtools.asp>.

(See Part II, Needs Assessment, for further details.)

Step Two: Seek Input from Staff, Advisory Committees, and Community Members

The school site council must seek the input of teachers, administrators, councils, committees, parents, and community members (e.g., school health council, committees for Limited English Proficient students, state compensatory education, gifted and talented education, special education, etc.). The most effective plans are those supported by the entire LEA community. The integration of existing program plans, such as Immediate Intervention/Underperforming Schools Program, High Priority Schools Grant Program, Alternative Education Programs, Focus on Learning: Secondary School Accreditation, and others does not eliminate any program requirements. The combined process must include the requirements of every program involved.

Step Three: Develop or Revise Performance Goals

Using the five NCLB performance goals and indicators (see Appendix A), develop local performance targets that are: a) derived from school and student subgroup performance data and analysis of related, scientifically based educational practices; b) attainable in the period specified in this Plan and consistent with statewide targets for all students and subgroups; c) specific to the participants (i.e., students, teachers, administrators, paraprofessionals); and d) measurable.

Step Four: Revise Improvement Strategies and Expenditures

For all categorical programs, identify the participants, expected performance gains, and means of evaluating gains. Indicate specific improvements and practical monitoring of their implementation and effectiveness.

Identify available resources. Aside from fiscal resources available through federal and state funding, programmatic resources are available on the CDE Web site at <http://www.cde.ca.gov>. The ConApp provides funding for the following programs: Title I, Parts A and D; Title II, Part A; Title III, Part A; Title IV, Part A; Title V, Part A; Title VI, subpart 2 (Rural Low-Income); School Safety and Violence Prevention; Cal-SAFE; Peer

Assistance Review; Tobacco-Use Prevention; Economic Impact Aid; and Middle and High School Supplemental Counseling Program.

Step Five: Local Governing Board Approval

The SSD Plan must be approved by the local governing board prior to submittal to CDE. Ensure that all required signatures are affixed. The SSD Plan must be reviewed and updated annually, and all subsequent amendments should be approved by the local governing board and kept on file with the original SSD Plan.

Step Six: Monitor Implementation

To verify achievement of performance targets, monitor areas such as: a) assignment and training of highly qualified staff; b) identification of participants; c) implementation of services; d) provision of materials and equipment; e) initial and ongoing assessment of performance; and f) progress made toward establishing a safe learning environment.

The analysis of data (student, school-wide, support services, professional development) is part of the ongoing program monitoring and evaluation. When results are ***not*** as expected, it may be helpful to consider the following: a) How are performance targets and activities based on student performance and factual assessment of current educational practices? b) How educationally sound is the Plan to help reach the targets? c) How timely and effectively is the Plan being implemented? d) If the Plan has not been implemented as written, what were the obstacles to implementation?

You may use the checklist on the next page to indicate planning steps as they are completed.

Needs Assessment

The passage of NCLB imposes a number of significant new requirements on LEAs as conditions for funding provided at the state and local levels. Among these are reporting requirements designed to facilitate accountability for improving **student academic performance, teacher quality, and school safety**. As such, a needs assessment to determine strengths and weaknesses in these areas must be conducted.

In determining specific areas of need to be addressed in the SSD Plan, the SSD should review its demographics, test results, and resources. The majority of such information is readily available on the SSD's School Accountability Report Card (SARC), the Standardized Testing and Reporting (STAR) performance results, the California English Language Development Test (CELDT) results, the Academic Performance Index (API) results, California Basic Educational Data System (CBEDS), DataQuest, and other data sources. This data is easily accessible via the Internet (see Appendix B for links to each of the Web sites that contain student and staff demographic information, SARC, STAR, CELDT, and API data). The SSD is expected to gather and review its own information from these resources to determine strengths and needs and to shape the planning process.

The Sample School and Student Performance Data Forms provided with the suggested template for the SPSA are also attached to this document in Appendix F. These forms are provided for convenience only; their use is not required. The forms simply provide a suggested format for arraying the data that needs to be reviewed.

Academic Performance

The needs assessment should include a focus on the academic areas highlighted in California's Performance Goals 1, 2, 3, and 5 (see Appendix A for a full listing of all of California's Performance Goals and Indicators), including:

- Statewide standards, assessment, and accountability
- Local assessments and accountability
- Coordination and integration of federal and state educational programs
- The LEA academic assessment plan

Teacher Quality

Another component of the needs assessment should examine local needs for professional development and hiring. LEA teachers and administrators should participate in this process to identify activities that will provide:

- teachers with the subject matter knowledge and teaching skills to provide all students the opportunity to meet challenging state academic achievement standards, and
- principals with the instructional leadership skills to help teachers provide all students the opportunity to meet the state's academic achievement standards.

School Safety and Prevention

The LEA needs assessment also focuses on Performance Goal 4 (see Appendix A). It is based on an evaluation of objective data regarding the incidence of violence, alcohol, tobacco, and other illegal drug use in the elementary and secondary schools and the communities to be served. It includes the objective analysis of the current conditions and consequences regarding violence, alcohol, tobacco, and other illegal drug use, including delinquency and serious discipline problems, among students who attend such schools (including private school students who participate in the drug and violence prevention program). This analysis is based on ongoing local assessment or evaluation activities (Sec. 4115 (a)(1)(A). *California's Healthy Kids Survey* may also provide useful information in this area. The Survey is available at http://www.wested.org/pub/docs/chks_survey.html.

Descriptions – Program Planning

Once local strengths and needs are identified as a result of examining and evaluating current district-level data, specific descriptions can be written of how program goals will be implemented to improve student academic achievement. **On the pages that follow, the SSD will provide descriptions and information about how it plans to address the requirements of NCLB and the SPSA based upon results of the needs assessment.** Collectively, these descriptions, along with the Assurances in Part III of this document, comprise the SSD Plan.

District Profile

In the space below, please provide a brief narrative description of your district. Include your district's vision/mission statement and any additional information about the make-up of your district, including grade levels and demographics of students served, in order to provide background and a rationale for the descriptions included in the SSD Plan.

Mission of Global Education Academy

The mission of Global Education Academy is to create a safe and challenging learning environment that emphasizes global awareness and leadership. We are committed to provide students with a wide variety of linguistic and cultural experiences that give students the opportunity to develop a true understanding and respect for all people.

Vision of Global Education Academy

Global Education Academy will develop citizens of the world who are successful leaders not only in their local communities, but in the international community as well. Through a balanced curriculum that addresses academic, linguistic, social, physical, and emotional development, Global Education Academy students will close the achievement gap.

Global Education Academy believes its students will:

1. achieve at or above federal, state and district academic expectations;
2. acquire high levels of academic proficiency and literacy in English and in another language; and
3. participate in a variety of multicultural experiences to develop understanding and respect for all people.

To achieve these goals, Global Education Academy will offer its students:

- A Safe Learning Environment
- Highly Qualified Teachers
- Standards-Based Curriculum
- Small Class Sizes (20 students per class)
- Extended School Days (8:00-3:30)
- Longer School Year (2 more weeks)
- An After-School Enrichment Program (3:30-6:30)

On September 24, 2007, Global Education Academy (GEA) opened its doors to 100 students in Kinder, First, and Second grades. Every year that followed, GEA added a grade level (2 classes - 40 students total) until it reached grade 5 with a maximum enrollment of 240 students. GEA reached its full enrollment of Kinder through 5th grade in the 2010/2011 school year.

95% of students at GEA are Hispanic, and 5% are African-American. 97% of students qualify for free or reduced lunch.

Local Measures of Student Performance (*other* than State-level assessments)

Per NCLB Section 1112 regarding Local Educational Agency Plans, each LEA must provide the following descriptions in its Plan:

A description of high-quality student academic assessments, if any, that are in addition to the academic assessments described in the State Plan under section 1111(b) (3), that the local educational agency and schools served under this part will use to:

- a) determine the success of students in meeting the State student academic achievement standards and provide information to teachers, parents, and students on the progress being made toward meeting student academic achievement standards;
- b) assist in diagnosis, teaching, and learning in the classroom in ways that best enable low-achieving students to meet State student achievement academic standards and do well in the local curriculum;
- c) determine what revisions are needed to projects under this part so that such children meet the State student academic achievement standards; and
- d) identify effectively students who may be at risk for reading failure or who are having difficulty reading, through the use of screening, diagnostic, and classroom-based instructional reading assessments.

If the SSD uses such assessments in addition to State Academic assessments, please provide a succinct description below, and indicate grade levels and students served with such assessments.

Also, please describe any other indicators that will be used in addition to the academic indicators described in Section 1111 for the uses described in that Section.

In addition to State Standardized Tests, Global Education Academy will use the following methods of assessing student progress:

- Publisher assessments - GEA will use assessments created by the publisher to assess student progress and identify students that need remediation or enrichment.
- Portfolios - Portfolios will include performance assignments, projects, journals, and records from ongoing teacher observations. These portfolios will demonstrate progress over time.
- Teacher-designed assessments - Teacher-designed assessments (quizzes and exams) will be created by using the approved standards-based instructional materials used by GEA. These assessments will allow the teacher to observe each student's on-going mastery of the standards.
- Performance-based assessments - These types of assessments will allow the teacher to monitor oral language and reading fluency and identify remediation/enrichment as necessary. (i.e. presentations, fluency tests)

- OARS (Online Assessment and Reporting System). This is a computer based benchmark assessment aligned with the California standards in language arts and math. Student scores are stored in an online database and can be analyzed according to a variety of metrics. Teachers administer the assessment twice a year to guide the instructional plan for each classroom and to identify learning needs of students.
- LEXIA & Accelerated Reader – These are online reading programs that provide assessment of phonetic and comprehension skills, respectively. Teachers will use the results of these assessments to provide differentiated instruction to students in the classroom and organize other needed intervention activities.

Performance Goal 1A: All students will reach high standards, at a minimum, attaining proficiency or better in reading by 2013-2014.

SCHOOL GOAL # __ (Should be specific, measurable, and based on conclusions from Analysis of Program Components and Student Data pages) Each year, the percentage of students scoring below proficient on the language arts section of the Smarter Balanced Assessment will decrease by 10%.	
Student groups and grade levels to participate in this goal: Grades 2-5 Hispanic/Latino English Learners	Anticipated annual performance growth for each group: <i>All groups to reduce the number of students performing below proficient on the language arts section of the Smarter Balanced Assessment by 10%.</i>
Means of evaluating progress toward this goal: Students take the Smarter Balanced Assessment	Data to be collected to measure academic gains: Results of the Smarter Balanced Assessment

Planned Improvement in Programs for LEP Students and Immigrants (Title III and EIA/LEP)

Describe the following specific activities addressing the use of Title III and/or EIA/LEP supplemental funds (note that the required activities must be addressed):	Persons Involved and Timeline	Related Expenditures	Estimated Cost	Funding Source
<p>Required Activities</p> <p>1. The programs and activities to be developed, implemented, and administered and how the SSD will use these funds to meet all annual measurable achievement objectives described in Section 3122</p> <p>Development of the following programs and activities to be conducted to address the use of Title III and/or EIA/LEP supplemental funds:</p> <ul style="list-style-type: none"> a) Development of intervention program to meet needs of students not making adequate progress b) Use of reading software programs (Lexia, Accelerated reader) c) Creation of school library d) PD in the use of differentiated instruction, graphic organizers, how learning occurs, project based lessons e) Parent education – ways to support learning at home f) Access to technology in computer lab and in classroom 	<p>All Teachers, Parents, Principal, Tutors/TAs, Special Education Consultants Began 9/2007 - present</p>	<p>Intervention teachers Reading software School library books and tracking software Reading consultants Computers for computer lab and classroom</p>	<p>\$84,150</p>	<p>Title I and II General Fund SPED Fund</p>

<p>2. Summary of Needs and Strengths for Professional Development

Based on a needs assessment of teacher data for your school/district, include a narrative that describes areas of needed professional development and areas where adequate professional development opportunities exist.

[Description of activities under Title II, Part A, Subpart 1, Grants to SSD]

STRENGTHS	NEEDS
<p>All Global Education Academy teachers are highly qualified based on criteria established by NCLB.</p> <p>New GEA teachers participate in 10 days of professional development prior to the first day of school. During this time, teachers learn about classroom management, standards-based instruction, assessment techniques, and review the GEA curriculum and materials.</p> <p>GEA teachers participate in weekly on-going professional development throughout the year, covering topics such as testing, reading fluency, use of mathematics manipulatives, direct instruction, etc. In addition to the weekly professional development, teachers participate in 7 half days of professional development. Outside consultants are brought in for structured professional development on topics that are most relevant to the teaching staff.</p> <p>GEA currently has 12 classroom teachers and one RSP teacher.</p>	<p>Teachers implementing the bilingual and foreign language immersion program in grades K-2 will need additional support in curriculum development and instructional strategies appropriate for this program.</p> <p>All teachers will need support in implementing the common core standards: what the standards are; how they can be addressed in the curriculum; how they will be assessed; etc.</p> <p>All teachers will need additional professional development in the area of language arts, and more specifically in reading comprehension. Topics will include: literacy/comprehension development; remediation in primary grades; motivation; literacy across the curriculum; coordinating intervention; using brain theory/research; etc.</p>

Performance Goal 3: All students will be taught by highly qualified teachers.

SCHOOL GOAL # __
 (Should be specific, measurable, and based on conclusions from Analysis of Program Components and Student Data pages)

All teachers will be taught by highly qualified teachers as measured by NCLB.

Student groups and grade levels to participate in this goal: All student groups and subgroups with statistically significant numbers in grades K-5.	Anticipated annual performance growth for each group: All groups to reduce the number of students performing below proficient on the math and language arts section of the Smarter Balanced Assessment by 10% per year.
Means of evaluating progress toward this goal: Analysis of OARS benchmark data, teacher made tests, student grades, portfolios, publishers' tests	Data to be collected to measure academic gains: SMARTER BALANCED ASSESSMENT performance data

Planned Improvements for Professional Development (Title II)

Please provide a description of:	Persons Involved/ Timeline	Related Expenditures	Estimated Cost	Funding Source
1. How the professional development activities are aligned with the State's challenging academic content standards and student academic achievement standards, State assessments, and the curricula and programs tied to the standards: GEA will implement a comprehensive staff development program designed to achieve long-term results and to address the school's goals, curriculum, instructional practices and evaluation. GEA will utilize various sources to provide professional development to its staff. Professional development will be given by the administrative staff, experienced teachers, and/or outside consultants.	Principal, Teachers, outside consultants.	Cost of outside consultants stipends – 10 days of professional development	\$3,000 \$2,000 \$6,000	Title II, Part A

<p>Teacher teams will meet regularly for grade level articulation related to instructional practices and results, and to collaborate for the provision of differentiated instruction to meet special student needs, provide support services and extended or enhanced learning opportunities.</p> <p>Teacher groups will meet regularly to articulate across grade levels to assure consistent alignment of instructional practices and lesson design with CCSS, curriculum mapping, and instructional pacing for all grade levels.</p>				
<p>2. How the activities will be based on a review of scientifically based research and an explanation of why the activities are expected to improve student academic achievement:</p> <p>All training will follow a research-based design to clarify roles and responsibilities, and to offer maximum support for teacher learning, including expert training followed by classroom demonstrations, in-class coaching, co-teaching with collegial support and feedback.</p> <p>Experienced teachers with expertise and ability to demonstrate knowledge of methodology, instructional practices and assessment will assist and support new, inexperienced teachers in supportive peer collaboration.</p> <p>All professional development will be responsive to the needs of the students. On an on-going basis, the Principal, along with input from the staff will review the professional development topic calendar and modify it as needed to ensure it addresses the needs of the teachers & students.</p>	Teachers, Principal	0	0	N/A

Please provide a description of:	Persons Involved/ Timeline	Related Expenditures	Estimated Cost	Funding Source
<p>3. How the activities will have a substantial, measurable, and positive impact on student academic achievement and how the activities will be used as part of a broader strategy to eliminate the achievement gap that separates low-income and minority students from other students:</p> <p>Teachers will give their input and perform evaluations of the professional development sessions to provide feedback to the Principal on their effectiveness. In addition, assessment data will be looked at to ensure the direct link between student performance and the professional development activities being conducted. Based on this data, the professional development schedule will be revised on an on-going basis.</p> <p>To improve the professional development schedule for the upcoming year, a meeting will be held in which all prior year assessment data and professional development sessions will be analyzed.</p>	Teachers, Principal	0	0	N/A
<p>4. How the LEA will coordinate professional development activities authorized under Title II, Part A, Subpart 2 with professional development activities provided through other Federal, State, and local programs:</p> <p>The school Principal will be in charge of coordinating all professional development programs authorized under Title II, Part A with other professional development programs.</p>	Principal	0	0	N/A
<p>5. The professional development activities that will be made available to teachers and principals and how the LEA will ensure that professional development (which may include teacher mentoring) needs of teachers and principals will be met:</p> <p>The principal at GEA will create a professional development plan yearly. This plan will be created with the input from the teachers and by analysis of student assessment data and teacher evaluation. In this way, professional development activities will meet both the needs of the teachers and students.</p>	Teachers, Principal	Cost of outside consultants days Teacher stipends – 10 days of professional development	\$3,000 \$2,000	

<p>GEA will assure that teachers have multiple opportunities to learn and practice successful implementation of 1) direct instruction; 2) scaffolded instructional strategies; 3) the use of graphic organizers; 4) reciprocal reading; 5) the use of structured student discussion; 6) strategies for addressing the various language development levels; and 7) integration of technology in the classroom.</p> <p>The GEA Principal will also participate in professional development activities, such as workshops & conferences on personnel management, budget workshops, special education, grant writing, and various other topics.</p>		<p>Budget for Principal professional development (workshops, conferences)</p>	<p>\$6,000</p> <p>\$2,000</p>	
<p>6. How the SSD will integrate funds under this subpart with funds received under part D that are used for professional development to train teachers to integrate technology into curricula and instruction to improve teaching, learning, and technology literacy:</p> <p>Each GEA teacher will have access to a laptop or desktop computer and multi-function printer. In addition, each teacher will have access to a digital projector. Each classroom is wired wirelessly for the internet. Also, there will be a computer lab and a class-set of tablets that the teachers can check out to use in their classrooms.</p> <p>The Principal will work with all faculty members to identify areas that need to be addressed in regards to technology and identify specific programs that can be utilized to integrate technology into the curricula.</p>	<p>Teachers, Principal</p>	<p>Teacher Laptops & Printer</p> <p>LCD Projector</p> <p>Internet Service</p> <p>Laptop Cart (20 computers)</p> <p>Computer Software</p>	<p>\$6,000</p> <p>\$500</p> <p>\$600 (annually)</p> <p>\$25,000</p> <p>\$3,000</p>	<p>General Fund</p> <p>Title II</p>
<p>7. How students and teachers will have increased access to technology; and how ongoing sustained professional development for teachers, administrators, and school library media personnel will be provided in the effective use of technology. (Note: A minimum of 25% of the Title II, Part D Enhancing Education through Technology funding must be spent on professional development.):</p> <p>GEA has a computer lab with 20 computers providing access to technology to all students. GEA will also have a cart with as many as 10 tablets that can be checked out for use in the classrooms. GEA will set</p>	<p>Principal, Teachers, Admin. <p>8. How the SSD, teachers, paraprofessionals, principals, other relevant school personnel, and parents have collaborated in the planning of professional development activities and in the preparation of the SSD Plan:</p> <p>The GEA family (which includes teachers, administration, and parents) has contributed to the preparation of the LEA Plan via feedback that has been given to the administration since its opening. Feedback has been received through letters, at parents, notes in the suggestion box, at SAC meetings, at SAC sub-committee meetings, and at other ad hoc meetings.</p> <p>As a result of said parent feedback, professional development will include the following topics beginning in 2012:</p> <ul style="list-style-type: none"> <input type="checkbox"/> How teachers can better differentiate instruction <input type="checkbox"/> How to motivate students <input type="checkbox"/> How to consider the emotional environment of students <p>Once completed, the LEA Plan is reviewed by the LEA Committee, which includes teachers, parents, and staff.</p>	Parents, Teachers, Admin. <p>9. How the SSD will provide training to enable teachers to:</p> <ol style="list-style-type: none"> a. Teach and address the needs of students with different learning styles, particularly students with disabilities, students with special learning needs (including students who are gifted and talented), and students with limited English proficiency b. Improve student behavior in the classroom and identify early and appropriate interventions to help all students learn c. Involve parents in their child's education and d. Understand and use data and assessments to improve classroom practice and student learning <p>GEA will provide the training described below through the school's weekly professional development time, 10 days of professional development prior to the start of the school year for new teachers, and 7 half-days of professional development during the school year.</p> <p>Teachers will be trained in various student assessment systems, which emphasize portfolio and performance-based tasks that will be used to allow for a wider differentiation of instruction and performance by students of varying learning styles and skill levels.</p> <p>Teachers will be trained in the use of differentiated instruction, targeted assistance, small group instruction, language through content approaches, reciprocal reading, and graphic organizers to help students of all academic levels and abilities excel academically.</p> <p>Teachers will be trained on how to communicate effectively with the families of students, ensuring a consistent dialogue and partnership with the students' home. They will also be trained on how to educate parents to be involved in their child's education.</p> <p>Teachers will meet at a minimum quarterly with the principal to review all assessment data. Teachers will be trained on how to effectively analyze this data and how this data can be used to improve classroom instruction and student learning.</p>	Teachers, Principal	<p>Consultant Fees</p> <p>Substitute Salaries during whole-day professional development</p>	<p>\$3,000</p> <p>\$2,000</p>	Title II

Performance Goal 4: *All students will be educated in learning environments that are safe, drug-free, and conducive to learning.*

Environments Conducive to Learning (Strengths and Needs):

Please provide a list of the SSD's strengths and needs regarding how students are supported physically, socially, emotionally, intellectually, and psychologically in environments that are conducive to learning, along with the SSD's strengths and needs regarding student barriers to learning (e.g., attendance, mobility, and behavior).

STRENGTHS	NEEDS
<p>GEA provides its students with an environment that is conducive to learning. This is reflected in the physical, social, emotional, intellectual, and psychological milieu provided by administrative and certificated staff.</p> <p>The physical environment of GEA is supportive of learning in that teachers create a print rich environment that stimulates and supports learning of the standards and ESLRs. Classrooms and hallways are organized according to school and/or class themes, display student work, and invite interaction.</p> <p>The social, emotional, and psychological well being of students is supported through adoption of Character Counts! and teacher practices that support behavior with positive reinforcement. A no tolerance attitude is taken towards bullying and students are encouraged to speak up if they are victims or observers of such behavior. The combined success of these programs implemented in the 2011/2012 school-year is demonstrated by a zero suspension rate.</p> <p>The intellectual environment in which students learn is invigorating and challenging. Teachers provide a standards based program that focuses on development of concepts and skills at</p>	<p>GEA does have needs related to the physical and intellectual environments in which students learn.</p> <p>A major barrier noted in the physical environment is the limited space that students have. Although building codes and occupancy rates are strictly adhered to, larger classroom sizes for upper grades and a larger playground space would be beneficial in creating a sense of openness. The additional space would also allow for display of more project work, a larger learning center/library, and creation of spaces more suitable for intervention pull-out groups.</p> <p>However, the building site is currently under lease until 2015 at which time the board may consider relocation or other options.</p> <p>Another area of need is the intellectual environment related to language arts education. While students at GEA have historically met objectives in math, they have barely met AYP in language arts. As a result of this, GEA has adopted two reading programs (Lexia and Accelerated Reader) and has started to organize a library/computer lab in the learning center to support language arts development, and more specifically, reading comprehension.</p>

<p>each grade level. Achievement is measured through a variety of benchmark exams, publishers' tests, teacher made tests/quizzes, and other formative assessments that are analyzed and used to adjust instruction and programming to maximize learning.</p>

Environments Conducive to Learning (Activities):

Please list the activities or programs supported by all NCLB or state funded programs that the SSD will implement to support students physically, socially, emotionally, intellectually, and psychologically in environments that are conducive to learning. Include programs and strategies designed to address students' barriers to learning (e.g. attendance and behavior). Include a copy of the SSD's code of conduct or policy regarding student behavior expectations.

Needs and Strengths Assessment (4115(a)(1)(A)):

Based on data regarding the incidence of violence and alcohol, tobacco, and other drug use in the schools and communities to be served, and other qualitative data or information, provide a list of the SSD's strengths and needs related to preventing risk behaviors.

STRENGTHS	NEEDS
<p>Although GEA is located in a community with high rates of crime and drug use, there have been no recorded incidents of such at GEA. GEA maintains a zero-tolerance policy towards such behaviors and endeavors to educate parents and students to that end. Adoption of Character Counts! and a proactive stance of administrative and certificated staff has helped to support a positive and safe environment.</p>	<p>GEA must maintain high vigilance in this area. GEA will continue to address any and all related problems no matter how small they appear to avoid major issues.</p>

Performance Goal 4: *All students will be educated in learning environments that are safe, drug-free, and conducive to learning.*

Safe and Drug Free Schools and Communities (SDFSC) and Tobacco Use Prevention Education (TUPE)

Prevention Program Performance Indicators (4115(a)(1)(B)):

The SSD is required to establish a biennial goal for all of the performance indicators listed below. List specific performance indicators for each grade level served, and for each listed measure, as well as the date of, and results from, the baseline administration of the Healthy Kids Survey:

Alcohol, Tobacco, Other Drug Use, and Violence Prevention Performance Measures From the California Healthy Kids Survey	Most Recent Survey date: _ / _ / _ Baseline Data	Biennial Goal (Performance Indicator)

Other Performance Measures

List below any other performance measures and performance indicators the LEA has adopted specific to its prevention programs (drug, violence, truancy, school safety, etc.). Specify the performance measure, the performance indicator goal, and baseline data for that indicator.

LEA Specified Performance Measures <hr/> (Process to Collect Data)	Performance Indicator Goal	Baseline Data

Science Based Programs (4115 (a)(1)(C)):

The LEA must designate and list the science-based programs (programs proven by science to effectively prevent tobacco use, alcohol use, other drug use, and violence) selected from Appendix C. From Appendix C, list the scientifically based programs the LEA will adopt and implement to serve 50 percent or more of the students in the target grade levels. Indicate below your program selections, and provide all other requested information.

Science-Based Program Name	Program ATODV Focus	Target Grade Levels	Target Population Size	Purchase Date	Staff Training Date	Start Date

Research-based Activities (4115 (a)(1)(C)):

Based on the research cited in Appendix D, check the box for each activity the LEA will implement as part of the comprehensive prevention program and provide all other requested information.

Promising or Favorable Programs (4115 (a)(3)):

The LEA may – but is not required to – designate and list the promising or favorable programs (programs whose effectiveness is not as strongly established though scientific evidence) selected from Appendix E. From Appendix E, list the promising or favorable programs the LEA will adopt and implement to serve 50 percent or more of the students in the target grade levels. Indicate below your program selections, and provide all other requested information.

Waiver to Adopt Promising or Favorable Programs not listed in Appendix E:

Check the box below if the LEA will submit an application for waiver in order to include other promising or favorable programs not found in Appendix E. Programs not listed in Appendix E will be considered on a case-by-case basis. The LEA must demonstrate that the program for which a waiver is requested is legitimately innovative or demonstrates substantial likelihood of success. The CDE will provide under separate cover additional information and the forms for submitting a waiver request.

Analysis of Data for Selection of Programs and Activities (4115 (a)(1)(D)):

For each selected Appendix C programs or Appendix D activities, provide a brief narrative rationale based on the SSD's analysis of CSS, CHKS, and CSSA data related to why the LEA selected these programs and activities for implementation.

Global Education Academy students do not exhibit behaviors related to drugs, tobacco, alcohol, or violence that is statistically significant. However, continued education that reinforces positive interactions among peers (Good Behavior Game) and with family members (Parenting Wisely) will continue to support our goals for a drug-free and safe environment. Preparation of students in upper grades (4&5) using a program like Across Ages will help prepare our students for life in middle school where these behaviors increase significantly.

Reinforcement of the principles taught through these programs in afterschool, conflict resolution, family/community collaboration activities will benefit our students as well. Adoption of school policies regarding these behaviors are already in place and reflected in the charter school petition. Mentoring activities are in part included under the Across Ages program that develops inter-age communication and trust. This will be further developed at the school through the Character Counts! program in which all students, staff, and parents participate. Project based lessons that incorporate community service have already taken place at GEA. These will continue to play a part of the curriculum especially considering the fact that GEA is transitioning to the Common Core Standards.

Evaluation and Continuous Improvement (4115 (a)(2)(A)):

Provide a description for how the LEA will conduct regular evaluations of the effectiveness of the SSD's alcohol, tobacco, other drug use and violence prevention program. Describe how the results of the evaluation will be used to refine, improve and strengthen the program.

GEA will monitor results of the Healthy Kids Survey annually in addition to other sources of data which include reports of school violence, tobacco, and drug use as indicated on behavior report forms, from parents, or teachers. This will be analyzed to show increases/decreases in associated behaviors and correlated with the instructional program. GEA will modify the curriculum to meet the identified needs of students.

Use of Results and Public Reporting (4115 (a)(2)(B)):

Describe the steps and timeline the LEA will use to publicly report progress toward attaining performance measures for the SDFSC and TUPE programs. Describe how the evaluation results will be made available to the public including how the public will be provided notice of the evaluation result's availability.

Results of the programs will be reported to parents at annual parent meetings and notified the newsletter. Results will also be indicated in the annual site review conducted the authorizing agency.

Mandatory Safe and Drug Free Schools and Communities (4114(d)(2)(E)):

Briefly describe how SDFSC funded program services will be targeted to the SSD's schools and students with the greatest need. (Section 4114 [d][3])

Students with the greatest need will receive one-on-one counseling in addition to regular program services. This will be provided by the teacher, intervention teacher, principal, RSP teacher, and professional counselor depending on need.

Coordination of All Programs (4114 (d)(2)(A)):

Provide a detailed, but brief, explanation of how the LEA will coordinate SDFSC funded alcohol, tobacco, other drug and violence prevention programs with other federal state and local prevention programs.

GEA will do the following to ensure that SDFSC funded alcohol, tobacco, and other drug and violence prevention programs are coordinated with other federal, state, and local prevention programs:

- *prepare annual budget outlining available resources
- * meet with staff, parents, administration, and board to analyze need
- * review program/allocation guidelines
- *allocate resources to meet needs according to policy guidelines and identified needs
- *follow-up to determine degree to which needs were met
- * adjust budget allocations to meet interim needs
- *prepare final report of program success

Parent Involvement (4115 (a)(1)(e)):

Provide a brief, but detailed, description of the parent involvement and describe the parent notification procedures used to meet requirements under NCLB Title IV, Part A – SDFSC program.

Parents are notified through newsletter, parent conferences, parent meetings, and letters home about programs and services offered to students. Based on need, selected parents are invited to the school for special meetings to discuss items of particular import. Parents of individual students will also be invited to the school to discuss remediation plans for their children.

TUPE Services for Pregnant Minors and Minor Parents (H&SC 104460):

Describe the TUPE services and referral procedures for pregnant minors and minor parents enrolled in the LEA and how they will be provided with tobacco-use prevention services. Include students participating in programs such as the California School Age Families Education (Cal-SAFE) program, the Adolescent Family Life Program (AFLP) administered through the Department of Health Services, and the Cal-Learn program administered by the Department of Social Services.

Please describe the strategy the SSD will use to coordinate programs under Title I with programs under Title II to provide professional development for teachers and principals, and, if appropriate, pupil services personnel, administrators, parents in accordance with Section 1118, "Parental Involvement," and Section 1119, "Qualifications for Teachers and Paraprofessionals."	
	Description of how the SSD is meeting or plans to meet this requirement:
Describe the SSD's strategies for coordinating resources and efforts to retain, recruit and increase the number of highly qualified teachers, principals, and other staff.	<p>GEA offers a small learning community in which teachers are valued and provided with the resources needed in order to teach effectively. GEA actively recruits teachers from various sources (job fairs, online listing, and direct advertising).</p> <p>All teachers are screened and only teachers that are dedicated to the mission and vision of GEA, highly qualified, and are passionate about educating students in a high poverty area are chosen.</p> <p>This hiring process applies to all staff at GEA, including Principal and other staff.</p>
Describe the SSD's strategies for coordinating resources and efforts to prepare parents to be involved in the school and in their children's education.	<p>GEA parents are involved in the child's education from day one. Parents voluntarily choose to send their children to GEA.</p> <p>Parents also have the opportunity to participate in the decision making process at GEA through the School Advisory Council to which 3 parent representatives are elected and up to 6 additional parents serve as grade level reps.</p> <p>All parents volunteer 20 hours of their time each year to support</p>

the school and their child's education.

In addition, GEA Provides parents with parent education classes (twice a month) that allow parents to learn how to be involved in their child's education as well as improving themselves.

GEA regularly communicates with parents via monthly/weekly newsletters by the principal and teacher, phone calls, and mailings.

Parents also have direct access to their child's grades and records via online access to PowerSchool, GEA's chosen student information system.

All office staff members are bilingual and all materials are translated as needed.

ASSURANCES

To assure the SSD's eligibility for funds included in this Plan, the Superintendent must provide an original signature below attesting to compliance with all of the following statements.

GENERAL ASSURANCES

1. Each such program will be administered in accordance with all applicable statutes, regulations, program plans, and applications.
2. The SSD will comply with all applicable supplement not supplant and maintenance of effort requirements.
3. (a) The control of funds provided under each program and title to property acquired with program funds will be in a public agency, a non-profit private agency, institution, organization, or Indian tribe, if the law authorizing the program provides for assistance to those entities; (b) the public agency, non-profit private agency, institution or organization, or Indian tribe will administer the funds and property to the extent required by the authorizing law.
4. The SSD will adopt and use proper methods of administering each such program, including – (a) the enforcement of any obligations imposed by law on agencies, institutions, organizations, and other recipients responsible for carrying out each program; and (b) the correction of deficiencies in program operations that are identified through audits, monitoring, or evaluation.
5. The SSD will cooperate in carrying out any evaluation of each such program conducted by, or for, the State educational agency, the Secretary, or other Federal officials.
6. The SSD will use such fiscal control and fund accounting procedures as will ensure proper disbursement of, and accounting for, Federal funds paid to the applicant under each such program.
7. The SSD will – (a) submit such reports to the State educational agency (which shall make the reports available to the Governor) and the Secretary as the State educational agency and Secretary may require to enable the State educational agency and Secretary to perform their duties under each such program; and (b) maintain such records, provide such information, and afford such access to the records as the State educational agency (after consultation with the Governor) or the Secretary may reasonably require to carry out the State educational agency's or the Secretary's duties.
8. The SSD has consulted with teachers, school administrators, parents, and others in the development of the local consolidated application/SSD Plan to the extent required under Federal law governing each program included in the consolidated application/SSD Plan.

9. Before the application was submitted, the SSD afforded a reasonable opportunity for public comment on the application and considered such comment.
- 9a. The SSD will provide the certification on constitutionally protected prayer that is required by Section 9524.
10. The SSD will comply with the armed forces recruiter access provisions required by Section 9528.

TITLE I, PART A

The SSD, hereby, assures that it will:

11. Participate, if selected, in the State National Assessment of Educational Progress in 4th and 8th grade reading and mathematics carried out under Section 411(b)(2) of the National Education Statistics Act of 1994.
12. If the SSD receives more than \$500,000 in Title I funds, it will allow one percent to carry out NCLB Section 1118, Parent Involvement, including promoting family literacy and parenting skills; 95 percent of the allocation will be distributed to schools.
13. Inform the school community and parents of schoolwide program authority and the ability to consolidate funds from Federal, State, and local sources.
14. Provide technical assistance and support to schoolwide programs.
15. Develop the school plan pursuant to California *Education Code* Section 64001 and Section 1114 and undertake activities pursuant to Section 1115 so adequate yearly progress toward meeting the State student academic achievement standards is made.
16. Fulfill school improvement responsibilities under section 1116, including taking actions under paragraphs (7) and (8) of Section 1116(b).
17. Provide services to eligible children attending private elementary schools and secondary schools in accordance with Section 1120, and timely and meaningful consultation with private school officials regarding such services.
18. Take into account the experience of model programs for the educationally disadvantaged, and the findings of relevant scientifically based research indicating that services may be most effective if focused on students in the earliest grades at schools that receive funds under this part.
19. In the case of an SSD that chooses to use funds under this part to provide early childhood development services to low-income children below the age of compulsory school attendance, ensure that such services comply with the performance standards established under Section 641A(a) of the Head Start Act.
20. Develop and implement plans or activities under sections 1118 and 1119 and California *Education Code* Section 64001.

21. Comply with requirements regarding the qualifications of teachers and paraprofessionals and professional development.
22. Inform the school community of the SSD's authority to obtain waivers on the school's behalf under Title IX.
23. Coordinate and collaborate, to the extent feasible and necessary with the State educational agency and other agencies providing services to children, youth, and families with respect to a school in school improvement, corrective action, or restructuring under section 1116 concerning factors that have significantly affected student achievement at the school.
24. Ensure, through the provision of professional development, recruitment programs, or other effective strategies, that low-income students and minority students are not taught at higher rates than other students by unqualified, out-of-field, or inexperienced teachers.
25. Use the results of the student academic assessments required under section 1111(b)(3), and other measures or indicators available to the agency, to review annually the progress the school to determine whether it is making the progress necessary to ensure that all students will meet the State's proficient level of achievement on the State academic assessments described in Section 1111(b)(3) within 12 years from the baseline year described in Section 1111(b)(2)(E)(ii).
26. Ensure that the results from the academic assessments required under section 1111(b)(3) will be provided to parents and teachers as soon as is practicably possible after the test is taken, in an understandable and uniform format and, to the extent practicable, provided in a language or other mode of communication that the parents can understand.
27. Develop or identify examples of high-quality, effective curricula consistent with section 1111(b)(8)(D) and California *Education Code* Section 64001.
28. For schools in school improvement status, ensure that not less than ten percent of their Title I funds are spent to provide professional development (in the area[s] of identification to teachers and principals) for each fiscal year.
29. Prepare and disseminate an annual SSD report card in accordance with Section 1111(h)(2).

TITLE I, PART D – SUBPART 2

30. Where feasible, ensure that educational programs in the correctional facility are coordinated with the student's home school, particularly with respect to a student with an individualized education program under Part B of the Individuals with Disabilities Education Act.
31. Work to ensure that the correctional facility is staffed with teachers and other qualified staffs that are trained to work with children and youth with disabilities taking into consideration the unique needs of such children and youth.

32. Ensure that the educational programs in the correctional facility are related to assisting students to meet high academic achievement standards.

TITLE II, PART A

34. The SSD, hereby, assures that:

- The SSD will comply with Section 9501 (regarding participation by private school children and teachers).
- The SSD has performed the required assessment of local needs for professional development and hiring, taking into account the activities that need to be conducted in order to give teachers the means, including subject matter knowledge and pedagogy skills, and to give principals the instructional leadership skills to help teachers, to provide students with the opportunity to meet California's academic content standards. This needs assessment was conducted with the involvement of teachers, including teachers participating in programs under Part A of Title I.
- The SSD will assure compliance with the requirements of professional development as defined in Section 9101 (34).

TITLE II, PART D

35. The SSD has an updated, local, long-range, strategic, educational technology plan in place that includes the following:

- Strategies for using technology to improve academic achievement and teacher effectiveness.
- Goals aligned with challenging state standards for using advanced technology to improve student academic achievement.
- Steps the applicant will take to ensure that all students and teachers have increased access to technology and to help ensure that teachers are prepared to integrate technology effectively into curricula and instruction.
- Promotion of curricula and teaching strategies that integrate technology, are based on a review of relevant research, and lead to improvements in student academic achievement.
- Ongoing, sustained professional development for teachers, principals, administrators, and school library media personnel to further the effective use of technology in the classroom or library media center.
- A description of the type and costs of technology to be acquired with Ed Tech funds, including provisions for interoperability of components.
- A description of how the applicant will coordinate activities funded through the Ed Tech program with technology-related activities supported with funds from other sources.

- A description of how the applicant will integrate technology into curricula and instruction, and a timeline for this integration.
 - Innovative delivery strategies – a description of how the applicant will encourage the development and use of innovative strategies for the delivery of specialized or rigorous courses and curricula through the use of technology, including distance learning technologies, particularly in areas that would not otherwise have access to such courses or curricula due to geographical distances or insufficient resources.
 - A description of how the applicant will use technology effectively to promote parental involvement and increase communication with parents.
 - Collaboration with adult literacy service providers.
 - Accountability measures – a description of the process and accountability measures that the applicant will use to evaluate the extent to which activities funded under the program are effective in integrating technology into curricula and instruction, increasing the ability of teachers to teach, and enabling student to reach challenging state academic standards.
 - Supporting resources – a description of the supporting resources, such as services, software, other electronically delivered learning materials, and print resources that will be acquired to ensure successful and effective uses of technology.
36. The SSD must use a minimum of 25 percent of their funds to provide ongoing, sustained, and intensive high quality professional development in the integration of advanced technology into curricula and instruction and in using those technologies to create new learning environments.
37. **Any SSD that does not receive services at discount rates under section 254(h)(5) of the Communications Act of 1934 (47 U.S.C. 254(h)(5)) hereby assures the SEA** that the SSD will not use any Title II, Part D funds to purchase computers used to access the Internet, or to pay for direct costs associated with accessing the Internet, for such school unless the school, school board, local educational agency, or other authority with responsibility for administration of such school:
- has in place a policy of Internet safety for minors that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are obscene, child pornography, or harmful to minors; and
 - is enforcing the operation of such technology protection measure during any use of such computers by minors; and
 - has in place a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are obscene or child pornography, and is enforcing the operation of such technology protection measure during any use of such computers.
 - Any SSD that does receive such discount rates hereby assures the SEA that it will have in place a policy of Internet safety for minors required by Federal or State law.

TITLE III

38. The SSD assures that it consulted with teachers, researchers, school administrators, parents, and, if appropriate, with education-related community groups, nonprofit organizations, and institutions of higher education in developing the SSD Plan.
39. The SSD will be accountable for increasing English language proficiency and for LEP subgroups making adequate yearly progress.
40. The SSD is complying with Section 3302 prior to, and throughout, each school year.
41. The SSD annually will assess the English proficiency of all students with limited English proficiency participating in programs funded under this part.
42. The SSD has based its proposed plan on scientifically based research on teaching limited-English-proficient students.
43. The SSD ensures that the programs will enable English Learners to speak, read, write, and comprehend the English language and meet challenging State academic content and student academic achievement standards.
44. The SSD is not in violation of any State law, including State constitutional law, regarding the education of limited-English-proficient students, consistent with Sections 3126 and 3127.

TITLE IV, PART A

45. The SSD assures that it has developed its application through timely and meaningful consultation with State and local government representatives, representatives of private schools to be served, teachers and other staff, parents, students, community-based organizations, and others with relevant and demonstrated expertise in drug and violence prevention activities (such as medical, mental health, and law enforcement professionals).
46. The activities or programs to be funded comply with the principles of effectiveness described in section 4115(a) and foster a safe and drug-free learning environment that supports academic achievement.
47. The SSD assures that funds under this subpart will be used to increase the level of State, local, and other non-Federal funds that would, in the absence of funds under this subpart, be made available for programs and activities authorized under this subpart, and in no case supplant such State, local, and other non-Federal funds.
48. Drug and violence prevention programs supported under this subpart convey a clear and consistent message that acts of violence and the illegal use of drugs are wrong and harmful.
49. The SSD has a plan for keeping the school safe and drug-free that includes:

- Appropriate and effective school discipline policies that prohibit disorderly conduct, the illegal possession of weapons, and the illegal use, possession, distribution, and sale of tobacco, alcohol, and other drugs by students.
- Security procedures at school and while students are on the way to and from school.
- Prevention activities that are designed to create and maintain safe, disciplined, and drug-free environments.
- A crisis management plan for responding to violent or traumatic incidents on school grounds.
- A code of conduct policy for all students that clearly states the responsibilities of students, teachers, and administrators in maintaining a classroom environment that:
 - Allows a teacher to communicate effectively with all students in the class.
 - Allows all students in the class to learn.
 - Has consequences that are fair, and developmentally appropriate.
 - Considers the student and the circumstances of the situation.
 - Is enforced accordingly.

50. The application and any waiver request under Section 4115(a)(3) (to allow innovative activities or programs that demonstrate substantial likelihood of success) will be available for public review after submission of the application.

TITLE IV, PART A, SUBPART 3

51. The SSD assures that it has, in effect, a written policy providing for the suspension from school for a period of not less than one year of any student who is determined to have brought a firearm to school or who possesses a firearm at school and the referral of a student who has brought a weapon or firearm to the criminal or juvenile justice system. Such a policy may allow the Superintendent to modify such suspension requirement for a student on a case-by-case basis.

TITLE V, PART A

52. The SSD has provided, in the allocation of funds for the assistance authorized by this part and in the planning, design, and implementation of such innovative assistance programs, for systematic consultation with parents, teachers and administrative personnel, and with such other groups involved in the implementation of this part (such as librarians, school counselors, and other pupil services personnel) as may be considered appropriate by the SSD.

53. The SSD will comply with this Part, including the provisions of Section 5142 concerning the participation of children enrolled in private nonprofit schools.

54. The SSD will keep such records, and provide such information to the SEA, as may be reasonably required for fiscal audit and program evaluation.

55. The SSD will annually evaluate the programs carried out under this Part, and that evaluation:

- will be used to make decisions about appropriate changes in programs for the subsequent year;
- will describe how assistance under this part affected student academic achievement and will include, at a minimum, information and data on the use of funds, the types of services furnished, and the students served under this part; and
- will be submitted to the SEA at the time and in the manner requested by the SEA.

New LEAP Assurances

56. Uniform Management Information and Reporting System: the SSD assures that it will provide to the California Department of Education (CDE) information for the uniform management information and reporting system required by No Child Left Behind, Title IV in the format prescribed by CDE. That information will include:

- (i) truancy rates;
- (ii) the frequency, seriousness, and incidence of violence and drug-related offenses resulting in suspensions and expulsions in elementary schools and secondary schools in the State;
- (iii) the types of curricula, programs, and services provided by the chief executive officer, the State educational agency, local educational agencies, and other recipients of funds under this subpart; and
- (iv) the incidence and prevalence, age of onset, perception of health risk, and perception of social disapproval of drug use and violence by youth in schools and communities. (Section 4112, General Provisions, Title IV, Part A, PL 107-110)

57. Unsafe School Choice Policy: the SSD assures that it will establish and implement a policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the State, or who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary school or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the local educational agency, including a public charter school. The SSD will submit on a format to be designated by CDE the information the state requires to complete annual federal reporting requirements on the number of schools that have been designated “persistently dangerous” in accordance with California State Board of Education policy. (Section 9532, General Provisions, Title IX, PL 107-110.)

Other

58. The SSD assures that a minimum of 95 percent of all students and a minimum number of students in each subgroup (at both the school and district levels) will participate in the state's assessments program.

APPENDIX A

On May 30, 2002, the California State Board of Education (SBE) adopted the five goals and 12 performance indicators for No Child Left Behind, as set forth in the Federal Register Notice of May 22, 2002. The SBE's adoption of the specified goals and performance indicators represents California's commitment to the development of an accountability system to achieve the goals of NCLB.

Collectively, NCLB's goals, performance indicators, and performance targets constitute California's framework for ESEA *accountability*. The framework provides the basis for the state's improvement efforts, informing policy decisions by the SBE and implementation efforts by the California Department of Education (CDE) to fully realize the system envisioned by NCLB; it also provides a basis for coordination with the State Legislature and the Governor's Office.

California's NCLB Performance Goals and Performance Indicators

Performance Goal 1: *All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics, by 2013-2014.*

- 1.1 **Performance indicator:** The percentage of students, in the aggregate and for each subgroup, who are above the proficient level in reading on the State's assessment. (These subgroups are those for which the ESEA requires State reporting, as identified in Section 1111(h)(1)(C)(i).)
- 1.2 **Performance indicator:** The percentage of students, in the aggregate and in each subgroup, who are at or above the proficient level in mathematics on the State's assessment. (These subgroups are those for which the ESEA requires State reporting, as identified in Section 1111(h)(C)(i).)
- 1.3 **Performance indicator:** The percentage of Title I schools that make adequate yearly progress.

Performance Goal 2: *All limited-English-proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.*

- 2.1. **Performance indicator:** The percentage of limited-English-proficient students, determined by cohort, who have attained English proficiency by the end of the school year.
- 2.2 **Performance indicator:** The percentage of limited-English-proficient students who are at or above the proficient level in reading/language arts on the State's assessment, as reported for performance indicator 1.1.

- 2.3 **Performance indicator:** The percentage of limited-English-proficient students who are at or above the proficient level in mathematics on the State’s assessment, as reported for performance indicator 1.2.

Performance Goal 3: *By 2005-2006, all students will be taught by highly qualified teachers.*

- 3.1 **Performance indicator:** The percentage of classes being taught by “highly qualified” teachers (as the term is defined in Section 9101(23) of the ESEA), in the aggregate and in “high-poverty” schools (as the term is defined in Section 1111(h)(1)(C)(viii) of the ESEA).
- 3.2 **Performance indicator:** The percentage of teachers receiving high-quality professional development. (See definition of “professional development” in Section 9101(34).)
- 3.3 **Performance indicator:** The percentage of paraprofessionals (excluding those with sole duties as translators and parent involvement assistants) who are qualified. (See criteria in Section 1119(c) and (d).)

Performance Goal 4: *All students will be educated in learning environments that are safe, drug free, and conducive to learning.*

- 4.1 **Performance indicator:** The percentage of persistently dangerous schools, as defined by the State.

Performance Goal 5: *All students will graduate from high school.*

- 5.1 **Performance indicator:** The percentage of students who graduate from high school, with a regular diploma:
- disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged; and,
 - calculated in the same manner as used in National Center for Education Statistics reports on Common Core of Data.
- 5.2 **Performance indicator:** The percentage of students who drop out of school:
- disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged; and
 - calculated in the same manner as used in National Center for Education Statistics reports on Common Core of Data.

Science-Based Programs

Science-based research has provided evidence of effectiveness for the following school-based prevention programs. Each of the listed programs have been identified as a research-validated, exemplary, or model program by one or more of the following agencies: The California Healthy Kids Resource Center, the Center for Substance Abuse Prevention, United States Department of Education's Expert Panel, or the University of Colorado's Center for the Study and Prevention of Violence. Some of these programs are also discussed in the California Department of Education's publication Getting Results. Web sites where additional information can be found about each program's description, target population, and outcomes are listed below. The code in the last column of the menu provides a quick reference indicating which websites have information specific to each program.

Appendix F: Sample School and Student Performance Data Forms

The following tables are included in Appendix F. These tables represent samples of ways to assist the school site council in representing and analyzing data and developing conclusions regarding improvement strategies:

- Table 1: Academic Performance by Ethnicity
- Table 2: Academic Performance by Grade Level
- Table 3: English-Language Arts Adequate Yearly Progress (AYP)
- Table 4: Mathematics Adequate Yearly Progress (AYP)
- Table 5: California English Language Development (CELDT) Data
- Table 6: Multi-Purpose

Table 1: Academic Performance by Ethnicity (ELA)

	%	100	100	100				100	100	100	100	100	100									

Conclusions indicated by the data:

1. English Language Arts (ELA) is GEA's biggest opportunity area as we have yet to achieve 60%+ of students scoring Proficient or above.
2. GEA has shown steady growth in increasing the # of students who are proficient or above. Our biggest increase occurred in the past year, % of students at Proficient or above increased by 9%
3. AA #'s are too small to be statistically significant. Yet they experienced the greatest % jump in at or above proficiency from year 1 to year.

	%	100	102	101	100	100	99	100	100	100	n/a	100	101									

Conclusions indicated by the data:

1. Almost all grade levels have shown growth in the % of students at Proficient or above. The only grade not showing growth from the prior year was 5th grade.
2. 4th grade has consistently been the grade with the highest % of students at Proficient or above.
3. Grades 2 and 4 had 0% at Far Below basic by year 3.

Conclusions indicated by the data:

1. Math is a strength at GEA. However, the % of students at Proficient or above increased only by a small margin (3%) versus the prior year.
2. 100% of African American and Hispanic students scored at the proficient level in year 3 in math.
3. The % of far below basic increased threefold from 1% to 3%.

Conclusions indicated by the data:

- 3rd grade has shown the largest increase in % of students at Proficient or above with a 12% increase versus the prior year.
- Once again 5th grade was only the group of students that showed a decrease in the % of students at Proficient or above.
- Grade 2 experienced the greatest jump in % at or above proficient increasing from 48% to 81%.

Conclusions indicated by the data:

1. GEA achieved AYP in ELA in the most recent year. The extra resources initiated for ELA, push-in intervention, pull-out intervention, Lexia, IWT, appear to have had an impact on student performance.
2. There will be more benchmarking and data analysis of math this year to pinpoint areas of opportunity.
3. Participation rates for all students was at 100% in years 2 and 3.

Conclusions indicated by the data:

1. Math achieved AYP for the 3rd straight year. However, as mentioned before growth in % of students at Proficient or above in Math was smaller than in the past, leading GEA to only achieve AYP thanks to Safe Harbor.
2. There will be more benchmarking and data analysis of math this year to pinpoint areas of opportunity.
3. Participation rates were at 100% for all groups in all three years.
