### English in a Flash, Library 3 Independent Reading for Middle and Upper Grades

To ensure reading success for students using English in a Flash™, we provide book recommendations. Current research shows that a second-language reader must know 90–98% of the words in a text in order to figure out the meaning of unknown words. Books that meet this criterion are made available by chapter.

These books are perfect for reading both to and with your class, as well as for silent reading in and outside the classroom. Once a student has completed an indicated chapter, you can be confident that student will be familiar with most of the vocabulary in any of the books listed. As the student's reading level grows, so does his excitement for reading. That excitement will lead each of your students to more and better books.

Accelerated Reader™ Reading Practice Quizzes that measure comprehension are available for these titles. In addition,

Recorded Voice Quizzes that allow the learner to both hear and see the question and answer choices are available for many titles for primary-level books. Two other quiz types may be available for higher level books: Vocabulary Practice and Literacy Skills. With these quizzes, you can be proactive in motivating and monitoring your students' reading.

A book's **Interest Level** reflects the judgment of the book's publisher and the professionals at Renaissance Learning™. However, the final decision on whether the content of a book is appropriate for a particular student is the responsibility of school librarians, teachers, and parents.

Use AR BookGuide™ to easily search for all these titles and create custom booklists for your students.
