

## Student Log-In Instructions for Home Connection

Please use the following steps to connect your school iPad to the internet to use at home.

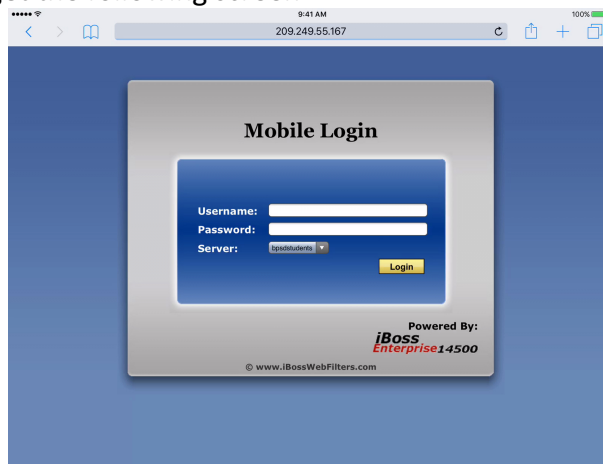

### 1. Connect to wifi at Home:

- Tap Settings
- Tap Wi-Fi
- Choose your home network
- Enter Wi-Fi password if your home network requires one

### 2. Return to the Home screen

### 3. Connect to Internet:

- Tap on Safari
- Try to connect to a website (like apple.com)
  - You will get the following screen

The **username** is comprised of the following:

- First two letters of first name + first 2 letters of last name + last 4 digits of student ID number (same as the meal card number)
  - EX: If your name is John Smith with a meal card number of 104354 you will enter josm4354 for the user name
- Do not add @bpsdstudents.us for iBoss login.

The **password** is the entire student ID number (same as meal card number)

Once you enter in your user name and password on iBoss, you should now be able to go to the websites you need. Please note you may have to log back into iBoss from time to time. If you should continue to have problems, please go to <http://bit.ly/compissues> to report it.
