Requirements to advance to the next level on the salary schedule

For a teacher to advance to the next level on the same degree level salary schedule, all three of the following requirements must be met based on previous year performance:

- 1) Effectiveness - To be considered effective, a teacher must obtain any rating other than ineffective by the relevant evaluation system (i.e. state/local) for the position.
- 2) Demand - The teacher must be certified in the subject area taught, if applicable
- 3) Experience - The teacher must have actually taught/worked for 120 or more days in the preceding school year.

For a teacher to advance to an advanced degree level salary schedule, in the year following the year the advanced degree is placed on the teaching certificate, all three of the following requirements must be met in the same year that the advanced degree was placed on the teaching certificate:

- 1) Effectiveness - To be considered effective, a teacher must obtain any rating other than ineffective by the relevant evaluation system (i.e. state/local) for the position.
- 2) Demand - The teacher must be certified in the subject area taught
- 3) Experience - The teacher must have actually taught/worked for 120 or more days in the preceding school year.

For teachers hired from other school systems :

When a teacher is hired from another school system, that teacher will be placed on level 0 at their degree level.

If the teacher can show documentation where he/she received any rating other than an ineffective rating, the teacher will be given credit for all years where he/she received any rating other than ineffective and placed on the appropriate level in the salary schedule.

For 10 month employees, the employee must have attended work for 180 days.

For Headstart Teachers

For a teacher to advance to the next level on the same degree level salary schedule, all three of the following requirements must be met based on previous year performance:

- 1) Effectiveness - To be considered effective, a teacher must obtain any rating other than an ineffective by the state evaluation system.
- 2) Demand - The teacher must be certified in the subject area taught
- 3) Experience - The teacher must have actually taught for 120 or more days in the preceding school year.

For a teacher to advance to an advanced degree level salary schedule, in the year following the year the advanced degree is placed on the teaching certificate, all three of the following requirements must be met in the same year that the advanced degree was placed on the teaching certificate:

- 1) Effectiveness - To be considered effective, a teacher must obtain any rating other than an ineffective by the state evaluation system.
- 2) Demand - The teacher must be certified in the subject area taught
- 3) Experience - The teacher must have actually taught for 120 or more days in the preceding school year.

For teachers hired from other school systems :

When a teacher is hired from another school system, that teacher will be placed on level 0 at their degree level.

If the teacher can show documentation where he/she received any rating other than an ineffective rating, the teacher will be given credit for all years where he/she received any rating other than ineffective and placed on the appropriate level in the salary schedule.

Requirements to advance to the next level on the salary schedule

For all administrative salary schedules:

For an administrator to advance to the next level on the salary schedule, all three of the following requirements must be met based on previous year performance:

- 1) Effectiveness - To be considered effective, an administrator must obtain any rating other than an ineffective by the state/local evaluation system.
- 2) Demand - The administrator must be certified in the area administrated, if certification is required.
- 3) Experience - The administrator must have attended work for 200 days less any vacation.
