

Resources for IQ Testing

The sources below are for reference only. **Adams 12 Five Star Schools does not endorse any of the providers below. This list is provided for your information only. It is the responsibility of the parents/guardians to determine the individual or organization that can best serve their testing needs.** [Please contact us if there are further resources that should be included on this list of providers.]

For Kindergarten Early Entrance we will need:

1. Cognitive (intelligence) assessment, with a full-scale IQ score, from a test such as the
 - a. WPPSI –IV (Wechsler Preschool & Primary Scales of Intelligence)
 - b. KABC (Kaufman Assessment Battery for Children)
 - c. RIAS (Reynolds Intellectual Assessment Scales)
2. Achievement assessment in *at least* the areas of Math and Reading, such as:
 - a. WJ-ACH III (Woodcock-Johnson Achievement Battery)
 - b. KTEA-II (Kaufman Test of Educational Achievement)

Be sure to request that the psychologist provides you with information regarding all testing and pricing options.

Please provide the full testing report with all sub-scale information to better assist our identification decisions. We will need an original copy of the report with a summary regarding your child’s performance and a signature from your testing source. Note that you may only test once per year and tests taken less than a year apart will be deemed invalid.

Adams 12 provides this list as a courtesy to those seeking outside testing information.
