AP EXAMINATION APPLICATION

Student Name:		Grade Level:
Academic Year:	AP Exam:	Counselor:

Eligibility Policy

It is the policy of CSR that any student who takes an AP course must take the AP examination for the course in May. In order for a student to take an AP examination who has not taken the course at CSR in preparation for the exam, a student must apply for the examination. It is recommended that a student has engaged in extensive study for the examination prior to applying for the exam. It is also highly recommended that the student has taken course work which supports the content being examined. The student must have an un-weighted GPA of at least a 3.0 to qualify for the exam. Students must complete a separate form for each examine they plan on taking.

Family Decision

After discussion with the Carnegie counseling department, we have decided to apply for taking an AP exam in _____ on the regularly scheduled examination day. We understand that there is an examination fee of \$125 payable to CSR for each AP examination due by April 1, 2017. No refunds will be issued for a student missing an exam for which one was ordered. Students may take the late exam for an additional \$45 fee.
