C5: BOARD RELATIONS WITH SCHOOL PERSONNEL

Policy

It is the policy of Milton Town School District to encourage School Board interactions with school personnel while respecting appropriate reporting relationships.

At School Board Meetings

The Board will request the Superintendent to invite school personnel to School Board meetings regularly to discuss student achievement relative to their programs.

Relations with the Administrators

The Superintendent will develop guidelines for Board relations with Administrators. Guidelines for Board relations with Administrators should take into account:

1. The responsibility of the Superintendent to direct the administration and coordination of educational programs in the District;
2. The periodic need of Board members for information most readily available from school Administrators; and
3. The need to maintain a distinction between the operational role of the Administrator and the policy making role of the Board.
4. To accomplish the work of the Board, the Board Chair will communicate with designated employees.

Relations with other School Staff

1. Individual Board members will communicate with staff members on matters of school and board business only at the direction of the Board as a whole.
2. Staff participation in the development of educational and personnel policies will be encouraged and facilitated by the Board
3. Board members will adhere to procedures required by Board policy and Vermont law related to collective bargaining and teacher evaluation.
