LEA Asbestos Designated Person
RE: AHERA Asbestos Management Plan

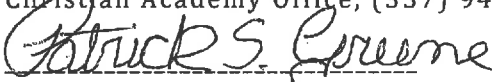

The Asbestos Hazard Management Emergency Response Act of 1986 (AHERA) mandates that all local Education Agencies have all of their facilities inspected for asbestos and that a Management Plan be developed. This Management Plan illustrates the location of asbestos containing material and describes the course of action to be taken by Westminster Christian Academy in dealing with this material.

According to Chapter 27 of the Louisiana Air Quality Regulations, Westminster Christian Academy must notify all employees, teachers, and parents, at least once a year, of the location and availability of the AHERA Asbestos Management Plan Book. Please allow this letter to serve as notice.

This Management Plan was submitted by Westminster Christian Academy and was approved by the Department of Environmental Quality and is available for inspection at the main office of the school at either the Opelousas or Lafayette Campuses. It can be viewed between the hours of 8:00 A.M. and 3:00 P.M., Monday through Thursday. On Fridays it can be viewed between the hours of 8:00 A.M. and 1:30 P.M.

This Management Plan includes regularly updated information on all inspections, response actions, post-response action activities, including periodic re-inspections and surveillance activities that are planned or are in progress. At this time there is no presence of asbestos on the campuses located at 111 Goshen Lane (Lafayette Campus) or 163 Westminster Drive (Opelousas Preschool Campus). Asbestos has been located at 186 Westminster Drive (Opelousas Campus) and is isolated and contained to the men's faculty restroom under the sink in the main building.

If you have any specific questions or need additional information, call me at Westminster Christian Academy Office, (337) 948-8607.

Patrick S. Greene, Facility Director
