

# Little Medical School

Kids love to dress up and play doctor. Our program encourages elementary school children to do this as they explore the exciting and inspiring world of medicine. Using interactive demonstrations, crafts, and games, kids learn how the body and organs work, how to use instruments that real doctors use, and even tie knots like a real surgeon. Small classes are led by a trained Little Medical School® teacher to ensure individual attention. Each child receives a diploma as a graduate of Little Medical School® upon completion of the course.

## Various Programs

Little Medical School® brings medicine, science, and the importance of health to children in an entertaining, exciting, and fun way. From after school programs to birthday parties and camps, your children will have fun and learn as well. Classes are designed and developed by a team of board certified physicians. Children have fun as they dress up like doctors, learn how to use instruments doctors use and understand how the body works!

## Sample 6 Week Course

Class 1: What's in the Doctor's Bag?

Class 2: All About the Heart!

Class 3: Digestion Fun!

Class 4: All about the Lungs!

Class 5: Is There a Surgeon in the House?

Class 6: Medical Fun and Graduation
