

Remind (Formerly Remind 101)

What is it?

It is a safe way for teachers to text or email parents with reminders related to school. A Remind text or email will be sent when a reminder is needed about an upcoming homework assignment, quiz, event, etc.

Is there a difference between signing up for text message versus signing up for email?

No, messages sent by teachers will be the same regardless of how a parent signs up to receive them. Either way, downloading an app is not required to receive messages.

Cool! How do I join Remind text-messaging?

To join the text messaging list, send a text to 81010 for each of your child's teachers with the class code written as the message.

After sending the appropriate class code to 81010, you will be asked to reply with your name. Please reply with first and last. If you joined in previous years, you also may not have to state your name.

****Parents must join each of their student's classes separately using the same phone number but different class code that matches each class!****

Cool! How do I join Remind emailing?

To join the emailing list, visit www.remind.com, click on "I'm a student or parent", and follow the on screen instructions using 81010 and the same class codes as if joining by text message above.
