

Whitehouse ISD Parents:

Last night, Thursday, January 25th, the Whitehouse ISD Board of Trustees approved a resolution that ***will not require students and staff to make-up the days missed on January 16th and 17th.***

Because there are more minutes a year in our calendar than required by state law for student attendance, the Board has agreed that students, teachers, and all other employees should not have to make up that time.

The district is very appreciative to the Board for allowing this resolution.
