Q. Can anyone enroll in Summer School?

- A. No. Only elementary and middle school students who are at risk of not meeting grade level standards, English Learner (EL) and high school students with D/F grades will be invited. All high school students must have their counselor's signature that they received or are likely to receive a D/F in the class in order to register.

Q. What criteria is used to identify K-8 students who will be invited to attend Summer School?

- A. Multiple measures of student achievement are used to determine if a student will benefit from summer school intervention. We evaluate report cards, benchmark exams, and standardized tests. A list of students generated from this data will be sent to the school sites in mid April. At that point, teachers have the opportunity to add students they suggest or delete students from our lists. Teachers should plan to provide data to support the recommendations. Due to space limitations, not all suggestions can be accommodated.

Q. What is your attendance policy for Summer School?

- A. There are no excused absences in summer school. A K-8 student may accumulate no more than two (2) absences during summer school. After two absences a student will be removed. 10 minutes or more tardy is considered absent. Three tardies are considered an absence. Consistent attendance is very important for students who are in need of academic assistance. 9-12 students must attend daily to receive credit.
