

How do we know if Stars On Point is working?

Each year since 2015, we are evaluated on our progress to improve school climate and culture through the use of a Tiered Fidelity Index (TFI) conducted by outside agencies. When we first began the Stars on Point program in 2015, we were only scored on Tier 1 and were awarded a 37%. The next year, we improved our Tier 1 score to a 77% and were initially given a 69% for our first Tier 2 evaluation.

To see the breakdown of our TFI Scores, you can access the PDF of the Score Report [HERE](#).
