

Sunrise - Chayden Eli (7th Grade)

The topic for my art piece is important to me because it is able to show nature. Nature is very beautiful and I love to search information about nature and I love going outside to see nature.

Secondly, it is able to let me draw what I think God is and what he does for us. For instance when it's dark and we feel like giving up, God is able to be our light and that is one of the reasons why I chose to draw a sunrise.

Lastly, I am able to draw more things with God. Because when I do this I am able to look at the art I drew and think more about God and what he means to me.
