Dear Durango School District 9-R Families:

If you have provided medication to the health office at your child's school, we want you to be aware that legally, it cannot be administered by school personnel if it has expired. If your child were to experience a serious health problem/emergency at school, and their medication is expired, 911 will be called. You may contact the health service provider at your child's school if you need to confirm the expiration date. If your child's medication is nearing the expiration date, or has expired, you will receive a call from the school health office.

Please sign and date below to acknowledge that you understand this policy, and return this form to the health office of your child's school.

Thank you,  
Durango School District 9-R Health Office
