JUNE 24–27

san diego convention center
thirty-third annual conference and exposition

.....●.....
“Often there is a lot of tech going into a school but not a lot of opportunity for teachers to really learn the full value of the tools. At ISTE’s annual conference, you get to hear from people who are at the top of their field. You get to actually see the tools in use.”

—Mary Beth Hertz
Instructional Technology Specialist, Philadelphia, PA
Computer lab and K-6th grade teacher

ONE OF THE WORLD'S LARGEST ED TECH EXPOS

Our expo hall, the size of 5½ football fields, is filled with ed tech products and helpful industry reps. You'll find non-stop demos and content geared toward the NETS and other hot topics in education. Use the interactive floor plan and search tool to browse your favorite companies and see what sessions they may be linked to.

Leadership development for the whole team

WORKSHOPS AND SESSIONS OFFER...

- Inspiration and strategies for improving learning for all students
- Compelling models of online and face-to-face technology integration for administrators and teacher trainers
- Hands-on training in multimedia, Web 2.0, and mobile technologies
- Time-saving productivity and management tools
- Effective solutions for professional staff development and technology planning
- New and innovative ideas for using technology to meet common core standards
- Alignment with ISTE's NETS for students, teachers, and administrators

TEACHERS WILL...

- Learn to integrate technology standards across curricula and into assessment practices
- Develop strategies to boost learning for all students and prepare them with digital age skills
- Participate in active, authentic learning environments, and share stories and resources
- Use technology to meet Common Core Standards

TECH COORDINATORS AND STAFF DEVELOPERS WILL...

- Learn proven strategies for technology funding, staff development, support, and safety and security
- Stay up to date with emerging technologies and the latest resources and tactics for implementing digital age learning environments
- Learn to maximize the capacity and efficiency of your technology infrastructure

ADMINISTRATORS AND POLICY MAKERS WILL...

- Discover how technology improves outcomes for all learners and prepares them with digital age skills
- Learn about standards and assessment models for faculty and tech programs
- Explore tactics and resources for data-driven decision making and implementing federal mandates

TEACHER EDUCATORS WILL...

- Learn about the latest in distance education and technology-infused methods courses
- Explore new initiatives for highly qualified teachers
- Help tomorrow's teachers meet emerging state, national, and global standards

TEACHER LIBRARIANS WILL...

- Learn best practices and strategies for developing digital age literacy skills
- Discover how to leverage new online and handheld technologies
- Explore new leadership roles and strategies for collaborating with other educators

GOVERNMENT AND INDUSTRY REPRESENTATIVES WILL...

- Learn about building- and classroom-level issues, needs, and challenges
- Keep up with trends and issues in the use of technology to improve learning and teaching
- Learn about strategies and models for developing, maintaining, and supporting technology infrastructures

arrive early sunday!

Kick off ISTE 2012 with a full afternoon of networking, celebration, and inspiration as we explore the theme "Expanding Horizons." Sunday events begin at 1:30 pm and continue through the evening reception.
