

# Sakura Everywhere

**Created by: Sakura Morita**

## The reason why I chose this...

I have many reasons for why I chose this topic. First would be because my name is Sakura which means cherry blossom in Japanese. Cherry blossom is a pink flower with 5 petals that has a small “dent” in the middle. Another reason why, is because the flower, Sakura, lasts for two weeks in the month of March. The full bloom is usually reached within a week and the next week, the blooming peak is over and the petals are falling off. This can represent how we should cherish the things we have because they can fade away very quickly.
