

# Annual Software Review and Evaluation

Site: \_\_\_\_\_

<p>The approved software evaluation form is a method to evaluate the effectiveness of the software products that members of the Palos Verdes Peninsula School District currently utilize. This process is a collaborative one that involves both District and site leadership in conjunction with classroom teachers and para professionals to examine the total utilization of software programs in an effort to render informed decisions regarding the ongoing nature, scope, and scale of the utilization of such products at the site level and throughout the district.</p>
