

Please join me in saying Goodbye to Kristy Manuel, Heather's Tech Associate. Kristy and her family are moving to Oregon! Lucky Oregon!

Kristy has been serving Heather School in all areas of technology, supporting our systems and structure, supporting staff, students and parent needs. She has been the perfect fit for Heather

School for 16 years, helping us move from lab-based technology use to an in-class, more authentic integration of technology into our curriculum. She will be sorely missed, but we wish her and her family well. Kristy's last day with staff and students is Friday, April 6.
